Acknowledgements

My thanks must go mainly to Michael Featherstone, who has made sterling efforts in helping to put this work together, mainly in the area of attaining players birth details which he did magnificently, showing great diligence.

Also to George Mechan who spent two painful years checking yards of statistics and reassembling in format.

To Mr. Graham Kelly of the Football League who put the mass of records at our disposal and to his staff who kindly made available information when required.

In alphabetical order, not in preference for their help in the compilation, hoping I have not missed anybody out, if so please accept my sincere apologies:-

Finally to my dear wife Jennifer, who has endured my so called professionalism throughout the six years it took to complete, spending many hours typing and putting the work into required order.

Foreword from Rothmans Publications

Football has been with us for a very long time; the ancient Chinese played a game called Tsu Chu during the third and fourth centuries. The Japanese played a football game called Kemari in the fifth century and the Greeks, Romans and Normans called their versions Episkyros, Harpastum and La Seule respectively.

Whatever its origin, shape or form there can be no disputing football's popularity in the 20th century. It is the world game, played, enjoyed and followed by millions.

The modern game was born here in England on 26 October 1863 at the Freemason's Tavern, Great Queen Street, London and all those attending that historic occasion proclaimed themselves the 'Football Association'.

In 1889 William McGregor of Aston Villa proposed that six Northern and six Midland clubs play in a league and this was the beginning of the Football League was we know it today.

Although much of the glamour of English football derives from the F A Cup, the strength of the game lies in the organisation of the Football League, which, year in and year out, chronicles the fame, fortune and fate of thousands of individual club players.

The players weave the fabric from which all else in football is made: the clubs, managers, supporters, media coverage, World Cups and, of course, statistics.

When Rothmans first launched the original Football Yearbook back in 1970 the expectations were modest but sincere, and it was gratifying to see how a great game conjured its own best-selling book. Other sports like Cricket have been exhaustively well-recorded, but football has not been quite so well served and it is with great pride that we now help plug the gap.

The 'Rothmans Football League Players Records' is the only complete 'Who's who' volume in football today covering the period 1946 to 1981.

We pay tribute to compiler, Barry Hugman, whose six year dedication to this unrivalled work should become legend. We trust it will provide hours of worthy reading matter to all those enthusiasts whose life blood is sustained by facts, figures and information on the world's most popular sport.

The next time someone asks 'which league club did Stanley Mathews sign for in Coronation Year' you'll find the answer right here in the most complete football players' guide ever published.

Foreword by B.B.C.'s John Motson

One of the most curious co-incidences in my commentating over 400 football matches for BBC Television occurred during the 1981 F.A. Cup Final at Wembley, when Manchester City's Tommy Hutchison contrived to score at both ends.

My somewhat delayed response at the microphone was to point out that this was not quite unique, since Bert Turner of Charlton has achieved the same dubious distinction in the 1946 final against Derby County.

That remark drew two sharply opposed reactions. The television critic of a Sunday newspaper accused me of attempting to 'Wisdenise' the game by trotting out too many statistics, while a considerable number of BBC viewers, either in person or by letter, remarked how interested they were in this little twist of football history.

To take those opinions one at a time, the analogy with cricket's Wisden Almanack is ironical, since for many years followers and students of association football bemoaned the fact that the national game had no such source of reference, and was poorly served on the bookshelves by comparison with cricket.

Such an omission was rectified in 1970 when Rothmans produced the first of their football year books. In the decade since, this eagerly awaited annual publication, superbly researched and produced, has become the very Bible which reporters and supporters alike were wanting.

It seems that those who have remained immersed in football, in spite of its modern tribulations with hooliganism and negative play, never seem to tire of its factual fascination, which frequently manifests itself in those spontaneous soccer quiz sessions which seem to crop up in clubs, pubs, coaches and trains.

'Who scored such and such a goal in this or that match?' 'Who played outside left for so and so in the Cup Final in whatever year?' 'Who holds the record number of appearances for this particular club?' The permutations are endless.

The Rothmans annual caters for most of them, but not all. It serves as an instant guide to all players currently active in the football league, but for reasons of space as much as anything else can never record the feats of all those who have gone before.

Famous internationals, yes, because they will appear in the section covering caps awarded over the years. But the bald headed right back who played for Brentford when your father first took you to Griffin Park never played for England; and that tricky outside left who used to pace the touchline at Stockport certainly won't find himself listed alongside modern stars like Kevin Keegan and Trevor Brooking.

It was with this in mind, some seven years ago, that a football fanatic and former amateur player called Barry Hugman went into fervent action. He decided to devote the next part of his life to researching and recording

the career of every single player to have appeared in the Football League since 1946.

As a labour of love, it is a towering piece of dedication. As a source of ready reference to those of us who like or report the game, it is going to be one of those works which will rapidly be recognisable by the many thumb prints in every copy.

No other record book in my experience bridges the generation gap quite like this one. It is poignant that at a time when the game our fathers took us along to watch is far removed from the one we now see, today's young spectators are more likely to get involved in tribal warfare than be picked up by a friendly adult and 'passed over the heads', as we used to be in a big crowd in the fifties, in order to get a better view from the front of the terraces.

But father and son can feel re-united by this book. The men who came out of the mines after the war to play under the maximum wage are as carefully chronicled as the jet-setters who in the 1980's think very little of earning £1,000 a week.

The alphabetical style which Barry Hugman used ensures that apart from separating two different eras, he makes no distinction between the famous and also rans. Those who propelled fashionable clubs to great heights are given the same treatment as the routine professionals who spent their years in the game doing a sound day's work for a moderate living.

Derek Hogg was such a player. Born in Stockton, he began his football career with non-league Chorley and was probably at his peak when he played for Leicester City between 1952 and 1957. He never aspired to international heights.

But his was the name that BBC football producer John Shrewsbury seized upon when he first picked up the proofs of this volume. A passionate lover of the game all his life, Shrewsbury remembered the said Hogg coming down to London with Leicester to play on the wing in the uncomplicated team formations of 30 years ago.

'I never realised that Derek Hogg finished his days at Cardiff', he mused. But on a page of Barry Hugman's potted career records, there is Hogg's league life neatly summed up . . . 26 goals in 161 appearances for Leicester, 11 goals in 81 for West Bromwich Albion, and seven in 41 for Cardiff before he hung up his boots in 1961.

Never reached international level did I say? Well, not quite, but read along the line and you will discover that he got quite close when he once represented the Football League in the days when Inter-League matches were a stepping stone towards the England team before an Under-21 team was introduced.

Having picked Derek Hogg out of the pack, so to speak, we must now put him back again. Because the old Leicester outside left is just one of nearly 16,000 names which appear in this volume. The useful appendage of dates of birth, and dates they signed for their various clubs, means a man's vintage and length of service can be absorbed at a glance.

Neither is there any discrimination between those who made their living in the top division, and those earned their brass at pinched and sooty grounds before a few thousand die-hard fans in the lower reaches of the league.

Sometimes the name reflects the time and place with acute significance. How about Ernie Ackerley who used to play for Barrow? Or Robert Entwhistle who served not just Rochdale and Accrington, but Hartlepool and Chesterfield as well? They have not been immortalised like Michael Parkinson's Skinner Normanton at Barnsley, but they were probably as much part of the fabric of the game every time they plastered the Brylcreem on their hair and pulled on those heavy boots with the polished toe caps.

Those whose careers took flight shortly after the war will evoke many memories, simply because this was the boom period in the history of the Football League. In the 1948-49 season, a grand total of over 41 million spectators went through the turnstiles – twice as many as watched the game in 1980-81.

Some players who started then went on to play in the League for 20 years, such as Jimmy Dickinson who played 764 league games for Portsmouth. Others merely flirted with a full-time career, such as a certain John Abbotts, who signed on for Port Vale in 1949 but made only three appearances before bowing out.

Thus it becomes clear as to the chief attraction of Hugman's industry. It promises to appeal to the supporter of Darlington and Doncaster Rovers as much as to the follower of Tottenham or Manchester United. They will all find their heroes, or their villains, listed separately, succinctly and sincerely.

So much so, that the beauty of this book lies in its permanence. Whatever the future may hold for football in England, there can be no tampering with the indestructibility of its past. This volume is a testament to that history, reflecting as it does the cold facts which mask the extinction of so many hopes or the fulfillment of not quite as many dreams.

Having said that, and acknowledged that the book will serve as a monument to the footballer's profession, an author has to accept that some players have had a more interesting career than others. And, more to the point, a reader will want to know more detail about some men than others.

This is where the tabulated section of the book gives way to the two biographical sections. Included here are delightful appreciations of some 400 of the best Football League professionals over the last 35 years.

Ivor Allchurch, for example is described thus: *'One of the great names in post-war soccer. Tall, blond, lovely ball player, very fast with perceptive dribbling skill, unorthodox in his approach. It wasn't until his National Service had been completed that Ivor returned to the Swans to embark on a brilliant future as a highly sought-after inside-forward.'*

Some players come back to life the way we remember them, even though their own lives, sadly, have since ended prematurely. Such a case is Sam Bartram, who played in goal for Charlton in the first league match I ever saw.

'Must have been the greatest goalkeeper never to be capped for England. Red haired and imposing, it was unthinkable that Charlton could ever be without the services of their net minder supreme for over 20 years. In his younger days, Sam was an outfield player who, four days after leaving school, received a letter saying he had been picked for England schoolboys. Working in the pits at Boldon Colliery, he took up goalkeeping when the colliery's regular keeper was injured.'

A quick cross-reference to the tabulated career records confirms Sam's 20-year span with Charlton. Early in his career, the club zoomed from the third to the first division, and appeared in successive F.A. Cup Finals at Wembley. No sooner had he retired in 1956, than they were relegated to the second division – and have never returned to the first.

Every lover of the game who reads this book will have his own Sam Bartram. His own schoolboy hero who will be summed up in the jaunty, colourful 'Boy's Own' style which Hugman uses in his biographies.

Because at the end of the day, football would be nothing without its players. Those whose careers are over are forever evoking memories of their days on the field, whether they be George Best, realising that a God-given talent could have been even better used, or Harry Catterick, highly successful later as a manager but still faithfully registered in this publication for his playing days at Everton and Crewe.

A modern manager who experienced some modest playing surroundings was Graham Taylor. He played unfussily at full back for Grimsby and Lincoln, never aspiring to anything greater than the lower divisions.

Later he would make his name as a coach and thinker of considerable vision, but once asked during a BBC documentary what motivated him so fiercely about the game of football as a profession, Taylor replied: 'I always get a thrill from the sound of a football being kicked.'

He was speaking for thousands of his fellow professionals. The Rothmans Football League Players' Records, thanks to the discipline and dedication of Barry Hugman, is a tablet of stone to each and every one of them.

JOHN MOTSON
October 1981

Author's Preface

The intention of this book is to help bring the presentation of football players statistics into the twentieth century, and hopefully it attains the same high standard that cricket has enjoyed for so long.

Rothmans had already shown the initiative when in 1970 the first Football Yearbook was produced as a highly informative annual which prospers with time and stands alone in coverage of the professional game. It was bearing this in mind that the author felt a personal obligation some six years ago to produce a complete A – Z of players who had made at least one appearance in league football since the war. Using previous records, Football League appearance ledgers, club programmes, local papers, etc, information was researched and developed into complete post-war club records.

Where club appearance audits did not exist, Football League records were used, a facility made available by Mr Graham Kelly, Secretary of the Football League.

Once the appearance records were placed in club order and verified, the information was re-arranged alphabetically. Further extensive research followed and eventually complete players histories emerged.

For the first time an effort has been made to record birthdates on a hitherto unrecorded scale and thanks mainly to the intensive work rate of Mr Michael Featherstone this can now be seen to true advantage.

The 'date signed' column has been printed American style with the relevant year appearing first.

The 'remarks' column has really been used as an additional information area and covers players positions, representative details down to schoolboy international level where known, and any other interesting facts at hand. This data along with the key code systems allows the reader to follow the printed word quickly and accurately.

The work has been compiled for the enjoyment and information of all; the older readers may reflect on names from the past and the younger reader on the names of today. Images of heavy boots, baggy shorts and solid leather footballs will spring to mind together with more contemporary thoughts surrounding the modern game. Hopefully this work, by its very nature, creates an interest for all football fans across many generations.

In closing I remind myself of a conversation with Mr Geoffrey Peters of Rothmans Publications when in answer to his question 'what would you have done if you had not spent six years producing this work', my instinctive reply was 'I would have probably joined the Foreign Legion'.

Anyway, the work is now complete for you to read and enjoy and although I didn't realise at the time (which is just as well) the end product represents the biggest statistical job ever undertaken in British Football. Happy reading!

BARRY J. HUGMAN

Biographies and Players Records
1946 – 1975

This part of the book details the appearance record for every league player making at least one first team appearance between 1946 and 1975, and records some outstanding individual performances in the biographical pages; use the key codes on the following page to explain the abbreviations.

Key Codes to Biographical Section 1946 – 1975

1	**LEAGUE APPEARANCES**. Total Exceeding 500
2 a b	**LEAGUE APPEARANCES FOR ONE CLUB** Total Exceeding 400 (1st/2nd Division Sides) Total Exceeding 450 (3rd/4th Division Sides)
3	**LEAGUE GOALSCORERS** (Qualification 150 Goals) 40% + RATIO
4	**INTERNATIONAL APPEARANCES**. Exceeding 30
5	**MISCELLANEOUS** (Includes other record breakers, Players of the Year, Legendary players etc).

Key Codes to Statistical Section 1946 – 1975

PLAYERS NAMES – ● Indicates extra information, and illustration in biographical section

BIRTHPLACE –

BIRTHDATE – DAY/MONTH/YEAR

PREVIOUS CLUB – PRIOR TO JOINING FOOTBALL LEAGUE, INCLUDES NON LEAGUE/AMATEUR/SCOTTISH LEAGUE/JUNIOR LEAGUES/FOREIGN LEAGUES, ETC.

CODES

APP.	–	Apprentice signing.
JNRS	–	Junior (players signed amateur forms prior to 17th birthday or directly from school/college).
TR	–	Transfer (including free transfers).
L	–	Loan transfer shown only where appearances have been made.

DATE SIGNED – PROFESSIONAL SIGNING DATE – YEAR/MONTH
LOAN TRANSFER DATE SHOWN IF PLAYER IS LATER SIGNED.

CODES

*	–	Pre-war signing
+	–	War time signing
N/C	–	Non Contract player
N/L	–	Non league signing
AM	–	Amateur player

SEASONS PLAYED – SEASONS SHOWN AS EARLIEST YEAR OF THE PERIOD IE:– 1946 WOULD BE 1946/47.

CAREER RECORD – DOES NOT INCLUDE LEAGUE APPEARANCES MADE PRIOR TO 1946/47.

REMARKS COLUMN – SHOWS PLAYING POSITIONS IE:–

(F) forward (D) defender (G) goalkeeper (M) midfield (IF) inside forward
(FB) full back (HB) half back (WH) wing half (CF) centre forward (W) winger

SHOWS INTERNATIONAL APPEARANCES IE:–

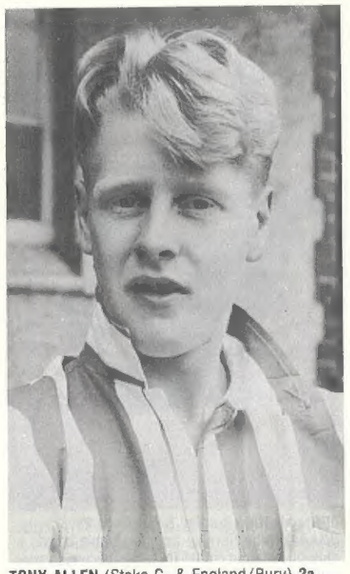
EI – Eire, E – England, NI – Northern Ireland, S – Scotland, W – Wales
SHOWS ANY OTHER RELEVANT STATISTICAL DATA TO HAND.

General Note – Players records shown span Football League careers only.

ALF ACKERMAN (Hull C./Norwich C./Hull C./Derby Co./Carlisle U./Millwall) **3**
South African forward who made a name in the Scottish League with Clyde before crossing the border to Hull City. After scoring 21 goals in 34 games moved on to Norwich and then back to Hull before transferring to Derby County in March 1955, trying to help the Rams vainly avoid relegation, this time to division three. By now becoming a real wanderer, Alf answered Carlisle's call and then went to Millwall before returning home.

JIMMY ADAMSON (Burnley) **2a**
One of the finest wing halves of his day, certainly unfortunate in never gaining a coveted England cap. Played for the Football League, later being recognised for sterling services to soccer with the player of the year award in 1962, following the losing Cup Final for Burnley against Spurs. Signed for the Clarets in 1947 not making debut until 1950/51; actually started out as an inside forward. An ever present asset in the 1959/60 Burnley championship winning side, he played over 400 games before acting as coach to England's World Cup team in Chile 1962, bowing out of league soccer a season later.

CHARLIE AITKEN (Aston Villa) **1, 2a**
Great discovery by the Villa was spotted playing with the Scottish juniors Edinburgh Thistle and signed pro in 1959. Made first appearance in the last match of the 1960/61 season, going on to gain under 23 honours very quickly. Became a reliable full back of great quality; one of the players Villa used as cornerstone for their return to the big league after dropping out in 1967. Gained a third division medal and two seasons later saw Villa back in the first division as second division runners up, before leaving the game, after playing more than any other player in the history of the club.



TONY ALLEN (Stoke C. & England/Bury) **2a**
Brilliant blond haired player who signed for the home town side on reaching seventeenth birthday. Settled down very quickly as a left back showing great qualities; was very stylish, accurate and precise in his kicking. Before reaching twentieth birthday, England had called for the youngster to follow up the under 23 honours already attained with a full cap. Was a member of the Stoke City side which gained promotion to division one in 1962/3. Moved to Bury before going to play in South Africa in 1972.

RONNIE ALLEN (Port Vale/W.B.A. & England/Crystal P.) **1, 2a, 3**
Taken to the Hawthorns from Port Vale for a fee of £18,000 in March 1950 after playing for the Potteries team since his seventeenth birthday in January 1946. Was predominantly an outside right, but although slight and only 5'8" was converted successfully to centre forward. Struck up great partnerships, first with Johnny Nicholls and then Derek Kevan, scoring every one game out of two. Played for England in 1952 as well as collecting a Cup winners medal along with other honours. Beautiful ball player who loved to work behind his own lines, creating chances for others. Finished with Crystal Palace after helping them to promotion from the third division in 1963/4.

IVOR ALLCHURCH (Swansea C./Newcastle U./Cardiff C./Swansea C. & Wales) **1, 4**
One of the great names in post war soccer; tall, blond, lovely ball player, very fast with perceptive dribbling skill, unorthodox in his approach. It wasn't until national service had been completed that Ivor returned to the Swans ready to embark on a brilliant future as a highly sought after inside forward. Winning first cap for Wales at the age of twenty, played a further 26 consecutive games over six years before Newcastle took him to St. James' Park in October 1958 for £27,000, plus a player. Went back home to Cardiff for £15,000 in August 1962, staying three seasons before going back to Swansea. Scored over 250 league goals in an exceptional career.

LEN ALLCHURCH (Swansea C./Sheffield U. & Wales/Stockport C./Swansea Co.) **1**
Younger brother of the brilliant more famous Ivor, followed him to Swansea three years later signing pro October 1950. Cracking little winger, playing mainly at outside right, although often moved inside. Being in the shadows of a famous brother could not have made it easy, but Len battled on finally, making the Welsh national side in 1955 against Ireland. Played in the second division for the Town, as then known, before being transferred to Sheffield United in March 1961, just in time to help gain promotion into the top league. Played over 100 games for Stockport County, his next side, before coming back to the Veitch Field for final "Swansong".

ALEX ANDERSON (Southend U.) **2b**
One of the Scottish contingent at Roots Hall; made debut in 1950/51, settling down as a consistent left back of character. Became, upon playing 451 league games, the United record appearance holder, which is still in keeping. In season 1951/52 was an ever present player of the Southend rearguard, also figuring in the cup run to fifth round, the club finally being eliminated by Sheffield United in a close run game. Nicknamed Sandy by the fans for obvious reasons, he gave the Shrimpers great service until finishing in 1962/3.

STAN ANDERSON (Sunderland & England/ Newcastle U./Middlesbrough) **1, 2a**
North east local product playing for England schoolboys before making debut for Sunderland in the 1952/3 season becoming a hard tackling constructive wing half, extremely dependable. Seemingly set for high honours played four times for England under 23's, but after being sent off against Bulgaria full international recognition was slow in coming. After eventually gaining two England caps in 1961/2, Stan made the short journey to neighbouring Newcastle for a fee of £35,000, later playing the rest of the 1965/6 season out with Middlesbrough. His play developed over the years taking on a craggy consistency which was directly related to the playing environment.

JOHN ANGUS (Burnley & England) **2a**
Was taken by Burnley from an Amble boys' club on amateur terms in 1954, becoming a professional on seventeenth birthday in September 1955. Made first division debut in season 1956/7 as a right back giving early warnings that he was one to take due note of. Becoming a polished defender, graduated from youth honours, under 23's to an England cap in 1961 against Austria in Vienna. Possessor of a League Championship medal in 1960 which was followed by a losing Cup Final against the nigh invincible Spurs during their glory years. A loyal team member, John played as a Burnley regular for over fifteen years before bowing out finally in 1971/2.

WALLY ARDRON (Rotherham U./Nottm. F.) **3**
One of the most coveted of the early post war centre forwards who made debut for United before the war, after signing from Denaby United. A most prodigious accumulator of goals in a career that was held up by the war, preventing what would surely have been one of the biggest tallies ever. Transferred to Forest in July 1949, for the obvious purpose of getting the ball in the opponent's net, which Wally did with monotonous regularity, scoring 217 post war goals out of 305 matches played. Was a part time footballer who worked on the railways during the week, also keen all round sportsman.

JIMMY ARMFIELD (Blackpool & England) **1, 2a, 4**
Was a stylish defender who came to the fore with the local club after assisting a nearby church team. Following a brilliant display in the 1962 World Cup Finals in Chile, Jimmy was voted the finest right back in the World. The overlap was his speciality and he could rightly stake a claim in being the originator of the modern technique although others would doubtless argue the point. Had become by now an England regular, setting up at one stage a sequence of 37 consecutive games. Highly composed, efficient to the last, above all constructive, he played just short of 600 league games before retiring and going on to football management with Bolton, then Leeds United.

RON ASHMAN (Norwich C.) **1, 2b**
Joined the Canaries in 1944 from his local Whittlesey making a first team debut in 1947/8. Ron went on to become their greatest clubman, first as a player with a record 590 appearances, and later as a successful manager. At first was loudly barracked by a section of the crowd, but soon won their hearts when settling down as resident left half. Would surely regard the fabulous Cup run of 1958/9 season as the high spot of a long career, when he captained Norwich to the semi-finals, failing by a whisker going to Wembley.

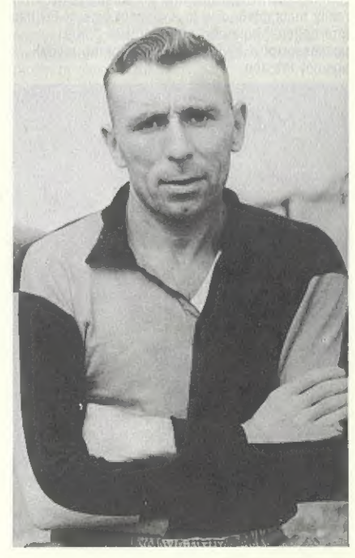
LEN ASHURST (Sunderland/Hartlepool U.) **2a**
Liverpool born full back who made the trip to the north east following fine performances in the non league with Prescott Cables, after being rejected by a famous local club. At Roker Park followed up youth honours with an England under 23 cap; being steady, constructive, with good recovery, was expected to go even further still. With Sunderland, Len played second division football until 1964, when the club finally gained promotion after several near misses. The most notable occasion was in the 1962/3 season when Chelsea pipped Sunderland on goal average mainly due to a Tommy Harmer goal at Roker. Moved to Hartlepool eventually becoming manager, following Brian Clough's trail a few years previous.

JEFF ASTLE (Notts Co./W.B.A. & England) **3**
Nearly 6' tall, was a Notts County prodigy making debut for them in 1961/2. Particularly great in the air, became very useful on the deck as well, using brains instead of brawn more than often. Albion saw him as the man around whom they could build up front, bringing him to the Hawthorns in September 1964. Career was highlighted at club level by success in the Football League Cup and then climaxed by the winning F.A. Cup Final against Everton in 1968 during which a tremendous rasping goal from Jeff himself decided the issue. Played five times in all for England without scoring, but scored nearly 150 goals with Albion where he was utilised to the full.

JOHN ATYEO (Bristol C. & England) **1, 2b, 3**
A tall striding youngster who played two games for Pompey as an amateur in 1950/51, whilst studying for surveying exams. Also played rugby at county level. On completion of certain exams John turned pro. with Bristol City, going on to complete fifteen seasons with them playing nearly 600 league games and scoring over 300 goals. An extremely powerful goal scoring machine, relishing tough tackling, no quarter taken, none given, he won a third division south medal in 1955. One of the few players from a lower division to represent England, John played at all levels of internationals except schoolboy. Retired in May 1966, qualified as a teacher at Warminster.

CHRIS BALDERSTONE (Huddersfield T./ Carlisle U./Doncaster R.) **1**
Tall, constructive forward started out with Huddersfield Town in the late 1950's, joining Carlisle United in June 1965 when chances of playing in the first division seemed to have passed him by. Extremely adept at set pieces in the modern game, with a highly proficient left foot and, although not prolific, scored over 90 league goals. Achieved ambition of first division soccer when Carlisle amazingly made it in 1972. Also played county cricket with Yorkshire and Leicestershire, on one occasion batting until 6.30 p.m., being driven away to play soccer for Doncaster Rovers an hour later and returning the next day to complete a century.

HARRY BAMFORD (Bristol R.) **2a**
Extremely versatile, playing in at least six different positions before finally settling down at full back. Retired when nearing the age of forty, still being a giant in stature but with Father Time relentlessly closing in. Created quite a stir when it was discovered that he practised ball control by dribbling around the racing pigeons he owned. Notching up close on 500 league appearances, which, were it not for wartime, would have been considerably more, Harry was a real Bristolian clubman.



GORDON BANKS (Chesterfield/Leicester C./ Stoke C. & England) **1, 4**
Picked up by Chesterfield from Rawmarsh Welfare; learned the rudiments of the game with them, spending three years before making debut in the Spireites goal. At the end of his first playing season was transferred to Leicester City, going on to play for England in 1963, the first of 73 caps. Signed by Stoke City for £50,000 in 1967, thus allowing Peter Shilton to gain experience in the Leicester goal. Became acknowledged as one of the World's great keepers, using tremendous powers of concentration to utmost effect, allied to great technique. Gordon's playing career was ended prematurely following a car accident in 1972, but he will be remembered as one of the England World Cup winners in 1966 for many years to come as well as for the exceptional goal minding ability he showed.

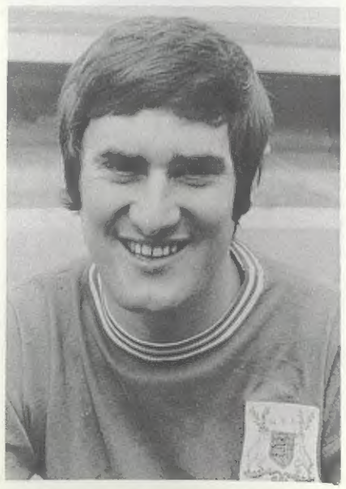
RAY BARLOW (W.B.A. & England/ Birmingham C.) **2a**
Tall, blond, attacking left half who, after waiting many years in the shadows, finally won an England cap against Ireland in 1954. One of the best wing halves of that period with a long stride and terrific shot. Converted from inside forward, championing the long defence splitting pass, Ray Barlow was almost ''Buchanesque'' in style and technique. Often playing up front when required, was always a danger within shooting distance. Signed for neighbours Birmingham when finishing a career that was really incomplete due to a distinct lack of further international honours, although the proud possessor of a 1954 F.A. Cup winning medal against Preston.

GEOFF BARROWCLIFFE (Derby Co.) **2a**
Signed from Ilkeston Town in October 1950; predominantly a full back, but also used at centre forward when the need arose. Making debut in the first division during season 1950/51, was hailed as one of Derby County's best local discoveries for a long time. Member of the County side that dropped from first to third division north within three seasons, but gaining a medal when missing only one game when helping the Rams back into division two in 1956/7. Was a reliable defender who could play his way out of defence with fair distribution allied to trusty clearances.

SAM BARTRAM (Charlton Ath.) **5**
Must be the greatest goalkeeper never to be capped for England. Red haired and imposing, it was unthinkable that Charlton could ever be without the services of their net minder supreme for over twenty years, who originally came to them from Boldon Colliery. In his younger days, Sam was an outfield player who, 4 days after leaving school, received a letter saying he had been picked to play for England schools. Working in the pits, he took up goalkeeping when the colliery's regular keeper was injured, becoming an immediate success, and but for the interruption of the league programme would have played maybe a further 200 games.

BILLY BAXTER (Ipswich/Hull C./ Northampton T.) **2a**
Only 5'8", wing-cum-centre half who attracted a lot of attention over the border when playing for juniors Broxborn Athletic, being snapped up in June 1960 by Ipswich Town. Making the first team almost immediately, won a division two medal in first season, followed by a first division medal the next year when Ipswich under Alf Ramsey remarkably won the League title. Was a member of the side relegated in 1963/4 but again helped Ipswich win promotion in 1967/8 as champions, supreme at the heart of their defence. Finally moved on to Hull City and then Northampton, being loaned to Watford for just under a dozen games, on route. Made up for lack of inches by utilising skill and showing great temerity when under pressure.

JIM BAXTER (Sunderland & Scotland/ Nottm. F.) **4**
''Slim Jim'', as he was often called because of 5'10'' pencil slim build, was one of the most brilliant of Scots players to come over the border, and that he never really settled is now history. One of the most talked about personalities of the game, was signed by Sunderland from Glasgow Rangers in May 1965 for £85,000 before moving on to Forest in December 1967. Played less than 50 games before being given a free transfer in the summer of 1969. Played 34 times for Scotland where he had begun with Raith Rovers before going to Ibrox Park. Remembered at best as a classic passer of the ball, constructive and cool, turning defence into attack.



BRIAN BEDFORD (Reading/Southampton/ Bournemouth/Q.P.R./Scunthorpe U./ Brentford) **3**
Bustling centre forward with terrific shooting ability who really came into his own with Q.P.R., who secured his transfer from Bournemouth for only £750. Beginning with Reading in April 1954, moved to Southampton a year later and in two seasons at Dean Court scored 32 goals in 75 games. Prominent in getting over 150 goals with the Rangers before Scunthorpe saw him as the man to bolster their attack after dropping into the third division. Again scored on a high percentage ratio, surprisingly being transferred to Brentford after just over one year with the Irons. Finished league career at Griffin Park.

HAROLD BELL (Tranmere R.) **1, 2b**
Was a local war time discovery for the Rovers who settled down at centre half on resumption of league football. Created a tremendous record by not missing a single game completing nine post war seasons and 401 league appearances. An obvious skipper, Tranmere built their post war team around him although later Harold was tried up front. Deciding to retire at the end of the 1959/60 season, he had put together 595 games spread over 14 seasons, but it is his consecutive appearance record which is hardly likely to be beaten.

ROY BENTLEY (Bristol C./Newcastle U./Chelsea & England/Fulham/Q.P.R.) **1**
One of the finest roving centre forwards, truly brilliant in the air, excellent on the ground, strongly built, with a fierce shot in either boot. Was originally an inside forward with his home town club Bristol City, moving to Newcastle for £8,000 before the post war league programme had commenced. Never really settling down in the north east, Roy joined Chelsea in January 1948 for £11,000. Became recognized by England during 1949, going on to play in the World Cup in Chile. Captained Chelsea to their only Championship title in 1954/5, but found it a bitter pill to swallow when the club in September 1956 allowed him a transfer. Fulham and then Q.P.R. were very happy to use Roy's qualities in a conversion to centre back.

DAVID BEST (Bournemouth/Oldham Ath./ Ipswich T./Portsmouth/Bournemouth) **1**
Brilliant young local goalkeeper came through the junior ranks making debut for Bournemouth in 1960/1, displacing old favourite Tommy Godwin. Soon became a great hero at Dean Court playing nearly 250 league games before signing for Oldham. After two years at Boundary Park was transferred for £15,000 to Ipswich Town of the first division. Custodian of the Portman Road goal for over five years, eventually leaving for Portsmouth on route to finishing in league soccer with his first club Bournemouth. The only time he played in the first division was with Ipswich and it was at Stamford Bridge against Chelsea that the amazing goal that never was, passing through the side netting, was awarded against the East Anglians, for whom David Best was keeping that day.

ALF BIGGS (Bristol R./Preston/Bristol R./ Walsall/Swansea C.) **1, 3**
Home grown centre-cum-inside forward, extremely popular with the locals, making his debut in 1953/4 and soon getting amongst the goals. 6'1'' tall and well built; extremely effective in and around the penalty area, goals coming fairly regularly. Preston saw him as being an answer to their goal shortages and completed the transfer for £18,000 in July 1961. However, after a season at Deepdale where he topped their goal charts, Alf returned once again to Rovers in order to help them regain second division status lost the previous season. Scoring a round 100 goals in just over 200 games was what the doctor ordered, but league status was unaffected and in March 1968 he left, seeing out his footballing career with first Walsall and then Swansea.

BILLY BINGHAM (Sunderland/Luton T./ Everton/Port Vale & Ireland) **4**
Wonderful tricky winger who played 56 times for his country. After an outstanding display for the Irish League against the Football League in 1950, Sunderland paid a big fee to Glentoran in bringing his elusive talents to Roker Park. Played over 200 games before being transferred for £15,000 in July 1960 to Luton Town, very quickly receiving a losing F.A. Cup Final medal from the game against Forest. In October 1960, big spenders Everton gave the Hatters £20,000 along with John Bramwell and Alex Ashworth to bring the little wizard to Goodison where he would weave his magic spell over that enthusiastic crowd. Before going into league management Billy helped Port Vale prepare for a return to division three.

RONNIE BLACKMAN (Reading/Nottm F./ Ipswich T.) **3**
Born in Hampshire and came out with Gosport Borough before Reading stepped in to sign this powerful six footer who could score goals regularly. In the third division south, Blackman scored over 150 league goals after becoming a regular in the 1948/9 season. Particularly good in the air and the possessor of a strong shot, Nottingham Forest saw him as a ready made replacement for Wally Ardron, who was ready to hang his boots up. A season later saw him transferred to Ipswich under Alf Ramsey who was beginning football League management with the Town. Left the League scene during 1957/8 after scoring in a very high proportion of all games played.

JIMMY BLAIN (Everton/Southport/ Rotherham U./Carlisle U./Exeter C.) **1**
Started out with Everton as winger-cum-inside forward before finishing league career with Exeter City as a left back some fifteen years later. With Everton did not get a chance to shine, moving on to Southport in February 1960 where he missed only a couple of games in two and a half years. Eventually found himself down in the West Country with Exeter City where he played 300 league games for the Grecians. Really had the ability to make his mark as a goalscorer but was too versatile to stabilise.

DAVID BLAKEY (Chesterfield) **1, 2b**
Great stout hearted pivot who between 1947-1967 notched up record appearances for his only league club after being signed from Chevington juniors. Most of his football was played in the third and fourth divisions, although his debut in 1948/9 was in the second division, that status being lost by Chesterfield in 1951. Well built and imposing, standing over 6', it was a sad day for the Spireites when he finally hung up his boots.

DANNY BLANCHFLOWER (Barnsley/Aston Villa/ Tottenham H. & N. Ireland) **1, 4**
Barnsley paid Glentoran £6,500 for this fine, constructive wing half of the classic mould in April 1949, and in March 1951 the Villa enticed ''Danny Boy'' to Villa Park. With a fantastic ability to run the game, it wasn't until Danny joined Spurs in 1954 for £30,000 that his stage was really set. Captaining Ireland through to the last eight of the 1958 World Cup was followed by the player of the year award, and again in 1961. By this time Spurs had found the missing formula, with Blanchflower skippering them through the wonderful double campaign of 1960/61. After many honours too numerous to mention, he retired in 1963/4 for a new career in journalism.

TERRY BLY (Norwich C./Peterborough U./ Coventry C./Notts. Co.) **5**
One of the most prolific goalscorers of the lower leagues, stepped out as a hard boned 6' tall youngster signed by Norwich City from local Eastern Counties League side Bury Town. Was allowed to move to Peterborough United scoring 52 goals from 46 games in his first season 1960/61, which became a post war scoring record. The next season got another 30 goals for the Posh before Coventry City bought him for that same purpose. With the Sky Blues in 1962/3 scored 25 goals in 30 games before surprisingly going to Notts County at the end of that season. Somehow the ability to find the net with the same regularity deserted him, possibly due to injuries and constant heavy marking.

JOHN BOND (West Ham U./Torquay U.) **1**
Classy strong full back, became a regular with the Hammers in the early 1950's, after being spotted with junior side Colchester Casuals. Was able to turn in sterling performances at centre forward when needed, scoring many valuable goals, mainly in the 1957/8 season, helping the club gain promotion back to the top sector. Recognised by the Football League in representative matches, did not quite make the full international standard. Moved to Torquay United in January 1966 after gaining an F.A. Cup winners medal against proud Preston in 1963/4, where West Ham finally won 3-2. His son Kevin followed him into league soccer as an apprentice under dad's eyes, turning pro for Norwich City in 1974.

TONY BOOK (Plymouth A./Man. C.) **5**
One of the great romance stories of the modern football era, being plucked out of obscurity with Bath City when working as a bricklayer at the age of twentynine. Became a great success at full back with Argyle; lanky and effective, very resourceful when going forward, quick in recovery. Malcolm Allison and Joe Mercer saw in Tony the man to lead their side to glory and purchased him in July 1966. The rest is history: Football League Champions 1967/8, F.A. Cup 1968/9, European Cup Winners Cup 1969/70, Football League Cup 1969/70. Lead the City to four major trophies in as many years gaining the footballer of the year award in 1969 — an honour shared with the legendary Dave MacKay — was the icing on his football career.

GEOFF BRADFORD (Bristol R. & England) **2a, 3**
An inside-cum-centre forward, the scorer of many a hat trick, and originally a failed half back. Started out with a local junior side before turning pro at the age of 22 with the Rovers after being turned down by Blackburn Rovers. A hustling six-footer who in a fifteen year span scored over 250 league goals. Recovered from a broken leg, which followed other serious injuries, to win an England cap in 1955. This outstanding feat was all the more meritorious as the Rovers were not in the top flight. A great friendly rivalry existed between Geoff and the other goalscoring Bristolian from the opposite side of the city, John Atyeo.

BARRY BRIDGES (Chelsea & England/ Birmingham C./Q.P.R./Millwall/Brighton) **3**
Sprint champion who joined Chelsea after winning international soccer honours at school. Came to the fore in Tommy Docherty's young side of the early 1960's, being a perfect foil to Bobby Tambling as well as scoring regularly himself. Was the centre of controversy, which led to him being sold to Birmingham, when the ''Doc'' dropped Barry to allow the young Peter Osgood to play regularly. By then had already won four England caps and, although scoring consistently with a succession of clubs after leaving the City, never again commanded the attention received at the Bridge. One of the fastest players ever on a soccer pitch, who in his prime latched on to chances with a rare abandon.

TOMMY BRIGGS (Plymouth A./Grimsby T./ Coventry C./Birmingham C./Blackburn R./ Grimsby T.) **3**
A great stout hearted centre forward who will never let the Argyle forget his free transfer to Grimsby in 1947, for in 1951 after scoring 77 goals was transferred to Coventry for £20,000, and by 1950 had represented England 'B'. Quickly moving on to Birmingham, still scoring, but not very happy, it wasn't until he arrived at Blackburn that Tommy recaptured his real deadliness near the goal. In six seasons scored 140 league goals which came with regular alacrity. Tommy had originally been a discovery of Pat Glover, the great Grimsby/Welsh international, and it was back with the Mariners that he finished his playing career at age 35.

PETER BROADBENT (Brentford/ Wolverhampton W. & England/Shrewsbury T./ Aston Villa/Stockport Co.) **1, 2a**
Brilliant teenage prodigy who eventually became mercurial long service player. Snapped up by Brentford from home town club Dover, quickly became a first teamer before Wolves took him to Molineux for £10,000 on advice from George Poyser who had earlier discovered him. Clever, thoughtful inside forward, adept in setting up chances for others, who flourished with the Wolves and really was one of the key players of the 1950's and early 1960's. Honours were abundant for both Peter and the club: Football League Champions three times, F.A. Cup winning medal in 1959/60 versus Blackburn, several England appearances as the famous Wolves went on the rampage. In 1965 joined Shrewsbury, then briefly went back to the first division with Villa before finishing at Stockport County.

EDDIE BROWN (Preston/Southampton/ Coventry C./Birmingham C./Orient) **3**
One of the great ''clowns'' of the modern game, who caused havoc to many opposing defences with roving tactics allied to energetic speed. Once nearly entered the church, but finally chose playing to praying, as a centre forward for Preston just after the war. Moved to Southampton in part exchange for Charlie Wayman and then to Coventry before becoming the speediest man on the books at Birmingham. One of his many quirks was occasionally shaking hands with the corner flags after scoring, which he did often. Scored seven times in the Blues 1955/6 cup run which culminated in losing to Manchester City at Wembley in the famous Bert Trautmann Final. Joined Orient in 1959 still enjoying every moment.

JACK BROWNSWORD (Hull C./Scunthorpe U.) **1, 2b**
Gave wonderful service to the Irons after joining them from Hull City whilst they were still in the Midland League. Played less than a dozen games in the first post war season at Boothferry Park, after being secured from non-league Frickley, before going on to play just short of 600 games in fifteen seasons at Scunthorpe. One of the finest club servants in the history of the game, being valuable throughout his playing career from beginning to end. Being rather on the short side at only 5' 8" for a full back, he made up for this discrepancy with incisiveness and speed coupled with all round manoeuverability.

TOMMY BURDEN (Chester/Leeds U./ Bristol C.) **1**
Starting with Major Buckley at Molineux during the war, soon moved on to Chester where he began to build a reputation. Leeds United were not slow in noting his progress at either wing half or inside forward and they signed him in July 1948. Soon became captain and played nearly 250 games before moving again, this time to Bristol City in 1954 where he stayed until 1961. Predominantly a maker rather than taker of chances, Tommy picked up a third division south medal whilst at Ashton Gate.

RON BURGESS (Tottenham H. & Wales/ Swansea C.) **4**
Learnt his football in the slag heaps of South Wales, playing for the local Cwm Villa, before Spurs signed him just before the outbreak of war. Dark haired before prematurely going bald and aggressive, he inspired by example. Was an automatic choice for both Wales and Tottenham, playing for Great Britain against the rest of Europe in 1947. Captained the great Spurs side which won in successive seasons the first and second division championships in the early 1950's. Ron went back home to Swansea in August 1954, becoming player manager, not again to play, for his native Wales.

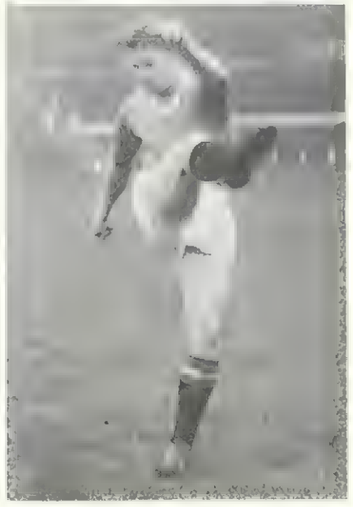
TED BURGIN (Sheffield U./Doncaster R./ Leeds U./Rochdale) **1**
Dark haired acrobat of a goalie who for a long time was on the brink of international honours but eventually had to settle for two England 'B' appearances. Whilst playing for Alford Town in Lincs, wrote to Sheffield United for a trial before signing pro in March 1949. Was a regular at Sheffield until advent of the brilliant young Allan Hodgkinson whose early displays soon warranted a regular first team place. Not happy to be a long term understudy, the once prospective international goalkeeper moved to Doncaster Rovers and a few months later in March 1958 to Leeds. Later went on to Rochdale giving sterling service after being displaced at Elland Road by Gary Sprake.

JACK BURKETT (Nottm. F.) **2a**
Signed originally as a centre back from Wednesbury, settled down at wing half, becoming one of the most consistent players in the club's history. A top class constructive player who would have surely played for his country if with a more fashionable side. On becoming captain, led Forest into the first division and crowned his career by taking them to Wembley, beating Luton Town in the 1959 Cup Final.

SAM BURTON (Swindon T.) **2b**
Long service goalminder at Swindon, signing in 1945 as a part timer after working in the mines. Gained a reputation for waving his hands and arms at any opponent penalty taker, which must have been rather distracting. Tall and well built, Sam played all the post war seasons up until 1962, helping to bring along the Town's promising youngsters being blooded in the late 1950's. Sam also helped to score a goal for Bristol Rovers against his own side when taking a goal clearance which struck his own centre half Ted Batchelor on the back of the head, the ball flying into the Swindon goal.

JOHNNY BYRNE (Crystal P., W. Ham & England/Crystal P./Fulham) **3**
Known as "Budgie"; was capped by England when playing third division soccer with the Palace, being transferred soon after to West Ham in March 1962 for £58,000 plus a player, a then record between British clubs. Mainly at inside forward, Johnny was more than dangerous when in sight of the goal, having great skill and not requiring a large amount of space to manoeuvre the ball into a shooting chance. Was part of West Ham's F.A. Cup Final winning side against Preston in 1963/4, later being transferred back to the Palace, but staying only a year before signing off with Fulham. Played for England 11 times, and will be remembered for his great skill in setting up chances either for himself or others.

ROGER BYRNE (Man. U. & England) **4**
Came to Old Trafford at the age of twenty as an outside left before being converted to the left back position, in which his natural speed was a great asset. Won the first of his 33 England caps against Scotland in 1954, and was by now already captaining the famous "Busby Babes". Intelligent play was his forte; the team obviously benefited, becoming under his captaincy a great side. Three Football League Championship medals were attained, before he and his team mates were struck down in the Munich air disaster, Roger losing his life. Was probably at the peak of his career, in a position to lead the United towards all available honours.



TOM & JACK CALLENDER (Gateshead) **2b, 5**
Brothers who both played after the war for Gateshead before their team left the Football League. Tom started out before the war with Lincoln City after being capped by England schools, joining up with brother Jack during wartime. Newcastle once offered £15,000 for the transfer of Tom to St. James' Park when one of the top pivots in the third division north playing alongside Jack at wing half. Between them they amassed over 900 post war appearances an extraordinary record that is hardly likely to be beaten.

JOHNNY CAREY (Man. U. & Ireland) **5**
Starting his career in Ireland, United signed Johnny from St. James Gate in 1938 as an inside forward. Became known to all football followers as "Gentleman John", because of his impeccable manners, also as one of the most versatile players the game has known. Johnny appeared in every position for United except in goal, but settled down mainly at right back. Captained the great United side in winning the 1947/48 Cup Final, rallying the side, who were twice behind to Stan Matthews' Blackpool, to eventually winning 4 – 2. He won League Championship medals, becoming player of the year in 1948 and captaining the rest of Europe against Great Britain in 1947, retiring gracefully at the end of the 1952/3 season. Made his mark as a manager with Blackburn and Everton.

RAICH CARTER (Sunderland/Derby C. & England/Hull C.) **5**
Silver haired Horatio was a Sunderland product, winning schoolboy international honours. Amazingly only played for England an 'unlucky' 13 games, but captained his beloved Sunderland when they won the F.A. Cup in 1937. The war coming when Raich was only twenty-six years old and in his prime after getting over a period of inconsistency must have been a double trauma. On resumption of soccer, again he distinguished himself at the highest level getting another cup medal, this time with Derby County in 1946. Became player manager in April 1948 of Hull City, steering the Tigers to promotion from the third division (north) in 1949. Raich also excelled in other sport, playing cricket for Derbyshire and Durham.

WILF CARTER (W.B.A./Plymouth A./ Exeter C.) **3**
Signed for Albion as an inside forward after starring for the S.E. Staffs schools side. Whilst at the Hawthorns occasionally played in defence and, not really becoming a regular, was transferred to Plymouth Argyle in March 1957. Settling down in the Pilgrims forward line, Wilf became quite a prodigious goalscorer, topping the club's charts in his first five seasons, before again reverting to defensive duties. Instrumental in the Argyle's promotion to the second division in 1958/9, Wilf became a good and valued clubman before moving on to Exeter City in 1964.

ROY CHAPMAN (Aston Villa/Lincoln C./ Mansfield T./Lincoln C./Port Vale/ Chester) **3**
One of the few players to play in all four divisions of the Football League, over a period of nearly twenty seasons. This lanky, long striding 6'2'' inside forward surprisingly did not blossom with the Villa during the five years spent with them after arriving from Kynochs. Joining Lincoln City in November 1957, became a regular goalscorer before moving on to Mansfield Town in 1961 only adding to that reputation. Spent a further three seasons with Lincoln on route to Port Vale and Chester. Scored just over the 200 goal mark from 400 odd games, albeit not in the first division but still impressive. Has a son Lee Chapman currently scoring goals for Stoke City.

JOHN CHARLES (Leeds U./Cardiff C. & Wales) **3, 4**
The famous Major Buckley enticed the young John Charles away from his native Swansea in January 1949 to sign for Leeds United. Capped by Wales just after his eighteenth birthday, John could play both centre back and centre forward with equal efficiency. Because of his temperament became known as the ''gentle giant'', which was upheld at all times with great panache. In 1953/4 scored 42 league goals and a season later a further 30 helped the Elland Road side back into the top section. In 1956/7, after helping himself to a further 38 league goals, was taken to Italy by Juventus for a record £65,000, becoming an idol in that country before returning briefly to Leeds in 1962. After a few months moved back to Italy with Roma for £70,000 before finishing his playing career with Cardiff City.

MEL CHARLES (Swansea C./Arsenal/Cardiff C./ & Wales/Port Vale) **4**
Overshadowed by his big brother, the great John at Leeds, eventually made own way in the game going home to sign for Swansea in May 1952. Like his brother was extremely versatile, but was probably most effective at wing half where seemingly producing more consistent all round performances. The long time target of bigger clubs, Mel eventually signed for Arsenal for £42,750. Unfortunately never settled in the big city; after three years, went home to Cardiff City in 1962 for £27,000. Found good form before being dogged by injuries and leaving the game, later playing a few matches for Port Vale. Played 31 times for his country, being remembered more for versatility than the undoubted skill at his disposal.

BOBBY CHARLTON (Man. U. & England/ Preston) **1, 2a, 4**
Related to the famous Milburn footballing family, was a brilliant boy prodigy before going from England schoolboys on to Old Trafford, turning pro in October 1954. Brother Jack had already begun a career for himself at Leeds United without any fanfares. Young Bobby would soon become famous for terrific shooting capability, especially after working for the openings. It wasn't until after Munich where Bobby was a survivor of that horrific air crash, that he came home to prominence amongst mass hysteria. Honours galore: 106 England appearances, two League Championship medals, F.A. Cup winners medal, European Cup winners medal, footballer of the year, and awarded the C.B.E. for services to football. Finishing as player manager at Preston.

JACKIE CHARLTON (Leeds U. & England) **1, 2a, 4**
Could have been totally overshadowed by younger brother Bobby, but quietly and efficiently built a reputation for himself as a future international centre half. When John Charles moved to centre forward Jack filled the role so effectively for Leeds that the famous ''gentle giant'' stayed up front. Gained experience mainly in the second division and it was not until 1964, just short of his thirtieth birthday, that England picked him to replace the injured Maurice Norman. Playing for England 35 times, Jackie was made player of the year the season after brother Bobby which was certainly unique. Retired at the age of 37 to go into football management after winning F.A. Cup, League Championship, Football League Cup and Fairs Cup medals. Known as the ''giraffe'' because of his height and style.

RAY CHARNLEY (Blackpool & England/Preston/ Wrexham/Bradford Park Av.) **3**
Ideally built leader of any attack, always going to get amongst the goals, having speed and thrust for good measure. Preston North End must rue the day when they allowed the young amateur to leave, later developing with Morecambe in the Northern League. Blackpool were very happy to sign the youngster as a professional in May 1957. Ray almost immediately took over the reins as their leading goalscorer, going on to play for England against France in 1963. After scoring nearly 200 league goals he arrived back at Preston, staying half a season before going on to Wrexham and Bradford Park Avenue, leaving league soccer at the same time as his last club.

CHRIS CHILTON (Hull C./Coventry C.) **3**
Really remembered as a one club man with Hull City, for it was at Boothferry Park that the tall youngster started, eventually going on to become one of the country's most prolific goalscorers. Was not picked up in the Tigers youth scheme until he wrote in for a trial, after which was promptly signed up making debut within a month of going professional. Good on the ground as well as in the air, occasionally played at inside forward, where he was quite as effective and scored just under 200 league goals from 441 games. Lasted less than a season with Coventry City before injury forced the still young man out of the game for good.

DOUG CLARKE (Bury/Hull C./Torquay U.) **1**
Made a reputation in the lower divisions as an outside right who could score goals, getting more than one hundred in a career of fifteen or so odd seasons. Before coming into the league from Darwen, signing for Bury, had been a Bolton Wanderers amateur. Transferred to Hull City in November 1955; immediately made an impact, becoming a firm favourite and starring in the promotion winning side of 1958/9, going on to appear in over 350 games for the Tigers. After making the move to Devon with Torquay United in 1965, was instrumental in helping promotion to the third division that same season before signing off the league register.

RONNIE CLAYTON (Blackburn R. & England) **1, 2a, 4**
Classy, totally constructive in approach, made debut at the age of sixteen in 1950/51. Showed real signs of developing into one of the great wing halves of the day, and could have played more than the 35 appearances made in England's colours. Captained the Rovers back into the first division as the runners up 1957/8, also gaining F.A. Cup losers medal against the Wolves in 1959/60. Captained England also going on to play nearly 600 league games for Blackburn before leaving to become player manager with non league Morecambe in 1969. Those who saw him play will always remember Ronnie Clayton for grand sportsmanship allied to great ability.

DAVE CLEMENTS (Wolverhampton W./ Coventry C./Sheffield W./Everton & N. Ireland) **4**
Came to the Wolves from Portadown after being member of the mini-World Cup Northern Ireland youth team. Had already won schoolboy, youth and amateur honours, but at Molineux didn't play a single league game and was transferred to Coventry City in July 1964. Won a second division medal in 1966/7 as a key member of the Sky Blues entering the first division for first time in that club's history. Had by now become a fixture at full back-cum-wing half in the Irish national side and playing nearly 50 times in all. After leaving Everton was still being capped whilst in the U.S.A. played for the New York Cosmos. Extremely consistent with great left foot, gave valuable service wherever he played.

BRIAN CLOUGH (Middlesbrough & England/ Sunderland) **3**
Goalscoring machine who made his name in season 1956/7, finishing the next six seasons in the top two of second division leading goalscorers charts, before injury took him from the game at the early age of 29. It has been often argued that it would have been more difficult to score the many goals he did in the first division; certainly in two international appearances he did not find the net. What is undisputed is that in 274 league games he scored 251 goals, the highest post war ratio. Since leaving the playing side, has had startling successes as a manager and must rank as one of the greatest of all time.

GEORGE COHEN (Fulham & England) **2a, 4**
Cool, thoughtful full back, a star of the England World Cup winning side, played over 400 league games for Fulham before injury decided otherwise. Local from nearby Kensington who joined the club straight from school, he developed into one of the finest defenders in the country. Played for England 37 times which without injuries would have been undoubtedly more, being highly thought of as an outstanding sportsman, a model of consistency, an object lesson for any youngster to imitate. Totally unobtrusive, his valuable play never appreciated the glare of publicity.

CECIL COLDWELL (Sheffield U.) **2a**
Really consistent defender signing from Norton Woodseats in September 1951, made debut that same season. Became one of the many long service United defenders of the post war years when forming a full back partnership with international Graham Shaw, whose namesake Joe was at the heart of the defence. This consistency was mainly responsible for helping United back to the first division in 1960/61, with Coldwell missing only one of their promotion winning games. Left the Blades, end season 1966/7, coincidentally at the same time as equally long serving team mate Graham Shaw.

BOBBY COLLINS (Everton/Leeds U. & Scotland/Bury/Oldham Ath.) **4**
One of the smallest forwards at 5'4'' in the game, first making a reputation with the crack Scottish side Glasgow Celtic before coming to Goodison in 1958 for £25,000. Clever, with a great shot, one of the game's superlative ball players who could also fight for every ball. Seen by Leeds United as the man to bring them back into the big time, moved from Everton, again for £25,000, in March 1962. Masterminded the promotion into division one 1963/4 and led them to the losing 1964/5 F.A. Cup Final against Liverpool, also being made the player of the year. With the Leeds rebuilding behind him, moved to Bury in 1967 helping them immediately into the second division before going home to play for Morton of the Scottish League. In 1972/3 made a few appearances with Oldham before calling it a day.

RON (SAMMY) COLLINS (Bristol C./Torquay U.) **3**
Bristolian born forward, only 5'8'', who became a scorer of some merit after leaving Ashton Gate, the home of Bristol City, in June 1948, bound for Torquay United of the third division south. Although finding the net every one game in two, never claimed a regular position until 1951/2, alternating between outside and inside left. In 1955/6 topped the third division goal charts with 39 from 45 games and on two other occasions was runner up in the goal stakes. Finished career at Plainmoor with 203 goals from 355 games, an outstanding performance considering many appearances were made from the wing position.

JOHN CONNELLY (Burnley/Man. U. & England/ Blackburn R./Bury) **1**
Became one of the best goal scoring wingmen in the game, being recognised by England on 20 occasions. Starting out at inside forward was signed from non league St. Helens by Burnley in 1956 and soon made debut. Scored 20 goals in 34 matches when helping Burnley to the League Championship 1959/60, later playing in the losing F.A. Cup Final against Spurs in 1962. Manchester United took him to Old Trafford in 1964; he won whilst there a Championship medal in first season. After two years with the Red Devils moved to Blackburn Rovers, then Bury. Really good direct winger who could play on both flanks with skill and flourish to match.

JACK CONNOR (Ipswich T./Carlisle U./ Rochdale/Bradford C./Stockport Co./ Crewe Alex.) **3**
Became known up and down the country as the man who scored 3 consecutive hat tricks for Stockport County, after joining them in October 1951 from Bradford City. A sturdy bustling centre forward of the old school, had started during the war with Ipswich Town, then on to Carlisle before making mark with the Irish side Ards. Rochdale brought him back to England in December 1948 where Jack scored 42 goals in 81 games before joining Bradford City for a short sojourn in April 1951. With Stockport in three consecutive seasons was in the top two third division north goalscoring charts. At the age of 37 moved on to Crewe Alexandra before finishing.

KEN COOTE (Brentford) **1, 2b**
Became a Griffin Park regular, playing over 500 league games from 1949/50-1963/4 after signing from local amateur side Wembley Town. Starting out at inside forward, was a successful wing half before conversion to full back completed the transition. Reliable and dependable, ''Mr. Consistency'' brought those qualities to the Bees who were still striving to climb back to pastures old, finally leaving the only league club he knew at the age of 35.

RAY CRAWFORD (Portsmouth/Ipswich T. & England/Wolverhampton W./W.B.A./ Ipswich T./Charlton Ath./Colchester U.) **3**
Great goalscoring machine with a penchant for turning half chances into goals, exuberant opportunist and one of the most prolific matchwinners of the day. For some reason better known to themselves, Portsmouth allowed Ipswich to sign Ray, in September 1958. Scoring 142 goals in five seasons he helped take the Town from the second to first division titles in successive seasons. Excursions to Wolves and W.B.A. followed before arriving back at Portman Road. Had a spell with Charlton and ended playing career going out in glorious style by helping Colchester slay the mighty Leeds in the fifth round of the F.A. Cup, ending the season with 25 league goals.

TOMMY CUMMINGS (Burnley/Mansfield T.) **2a**
As an amateur, after gaining Durham youth honours, failed a trial with the Spurs, going back home to play for Hylton Colliery Welfare before Burnley took him to Turf Moor in October 1947. Succeeded Alan Brown as the regular Burnley pivot in 1949/50, after making debut the season before, and was commanding in the box relying on positional skill and judgement. Played for England 'B' side, also representing the Football League, and probably would have gained further honours but for the brilliance of Billy Wright. Before going to Mansfield in March 1963 as player manager, had collected League Championship and Cup medals.

BILL CUNNINGHAM (Preston & Scotland/ Southport) **2a**
Tough right back who surprisingly was well known for the use of his left foot. Signed from Airdrie for about £6,000 in July 1949, going on to become a regular in the North End defence for fourteen seasons. Joining the side when they had slipped into the second division, was one of the successes when within two seasons was a member of the promotion winning team. Became captain of Scotland's 1954 World Cup team four days after getting a losing Cup medal from the final against W.B.A. Dark and swarthy, Bill was in distinct contrast to his cousin and team mate at Preston, Jimmy Baxter, who was a dainty elusive ball player.

WILLY CUNNINGHAM (Leicester C. & N. Ireland) **4**
Not to be confused with Preston namesake of the same period, also a full back. Was transferred to Leicester City from St. Mirren for a big fee in December 1954 immediately becoming a valuable member of the side. Well built blond haired constructive defender who would rather look to play the ball out of defence than use the big boot. Made debut for Ireland in 1951 appearing 30 times in all, including the 1957/8 World Cup. Not always a regular at Filbert Street due to injuries as well as competition, but before leaving had won a second division medal.

BILL CURRY (Newcastle U./Brighton/Derby Co./Mansfield T./Chesterfield) **3**
Although playing for England under 23's, the young centre forward did not get many chances to shine when at Newcastle United, before being transferred for £10,000 to Brighton in July 1959. Immediately got amongst the goals, topping the Seagull's scoring list in first season with them. Transferred to Derby County just over a year later; became a valued goalscoring member of the second division side before going on to Mansfield Town. At Field Mill again scored frequently and by the time he had left league football had accumulated 178 goals. Not big for a striking forward, but could run at defences using mobility and speed to create openings.

GEORGE CURTIS (Coventry C./Aston Villa) **1, 2b**
Known in soccer circles as the ''iron man'', George came to Coventry from Snowdown Colliery playing nearly 500 league games before finishing at the Villa. Appeared in five divisions whilst at Highfield Road, starting out in the old third division south, winning medals in the third and second on route to entering the first division for the only time in the Sky Blues history. Very rarely missed a game as a tough uncompromising centre half giving nothing away and was the foundation stone of the Coventry success story. Would have probably gained international honours if early career had been in the limelight.

JIM DAILEY (Sheffield W./Birmingham C./ Exeter C./Workington/Rochdale) **3**
Dynamic centre forward joined the Owls from Third Lanark in October 1946 and proceeded to equal Jimmy Trotter's Sheffield Wednesday record by scoring all five goals against Barnsley in 1947/48. Not really settling at Hillsborom moved on to Birmingham in February 1949 and then to Exeter City before signing for Workington in December 1953. In 176 games scored 74 goals, finding the third division more to his liking. Finished league soccer career with Rochdale, bowing out in 1958/9.

ANDY DAVIDSON (Hull C.) **1, 2b**
Consistently reliable defender who made a reputation as the player who could overcome injuries. Joining Hull City from Scottish junior soccer in September 1949, he waited three years before making a first team debut at Boothferry Park. Was a member of the side that gained promotion in 1958/9 as runners up, but won a third division medal 1965/6. That same season Hull had a great cup run before going out to the eventual finalists Chelsea in the sixth round after a replay. Amazingly made 520 appearances after suffering three broken legs in a career that would have surely surpassed the 600 total if not for those injuries.

RON DAVIES (Chester/Luton T./Norwich C./ Southampton/Portsmouth & Wales/Man. U.) **1, 3**
One of the great post war goalscoring machines, a consistent net finder, devastatingly brilliant with heading chances. 6'0'' tall, well built, came out with Chester learning the trade for three years, then signing for Luton Town for £10,000 in October 1962. Norwich City tempted the by now much wanted striker to Carrow Road, where he gained the first of many Welsh international caps. It was really at Southampton, where, overnight, he became a spectacular success getting on the end of centres from Terry Paine and John Sydenham after signing for £55,000. His blond head was reckoned by many to be the most valuable first division asset. Saw out remainder of career with Pompey and then Tommy Docherty's Manchester United.

ALEX DAWSON (Man. U./Preston/Bury/ Brighton/Brentford) **3**
Bustling old fashioned type of centre forward who signed for United after starring in England schools side, although being born in Aberdeen. Came to the fore after Munich, when along with other youngsters was pushed into the first team prematurely in a depleted side. Although playing in 80 league games and scoring heavily, was allowed to leave Old Trafford for Preston in October 1961, where he became one of the most prolific goalscorers of the day. Whilst at Preston, helped them through to the 1963/4 F.A. Cup Final going down 3-2 to West Ham; although Alex scored it wasn't enough. Finished playing career with Bury and Brighton, after being on loan to Brentford in 1970/71.

JOHN DICK (West Ham U. & Scotland/ Brentford) **3**
Tall, leggy inside forward, with great goalscoring record, made a real impact with the Hammers after joining them from Crittalls Athletic. Made debut soon after signing in June 1953, and it wasn't long before Scotland picked the young man for their 'B' team. One of the main forces behind West Ham's drive back into the first division after a period of over twentyfive years absence. Capped fully by Scotland, but by 1962 was in dispute with the club, being transferred to Brentford for £17,000. The Bees who were in the fourth division looked to the big man for goals and guidance in climbing out, this being accomplished that same season By 1964/5 at the age of 35, it was time to call it a day just one short of 200 league goals.

JIMMY DICKINSON (Portsmouth & England) **1, 2a, 4**
Brilliantly consistent, ''no frills'' wing half, industrious, sure footed and elegant, who, brought great sportsmanship to bear in a league career embracing 764 appearances, that until recently had not been beaten. Made debut with Portsmouth in 1943 as an amateur, turning pro whilst still serving with the Royal Navy. Was an automatic choice for England for several seasons at left half, losing place when switched to centre half by his club. Formed a brilliant half back line for Pompey alongside Jack Froggatt and Jimmy Scoular, succeeding the last named as captain. Two League Championship medals in succession 1948/9 and 1949/50 to add to countless other honours. Will be remembered as a gentleman both on and off the field, later being awarded the M.B.E.

TED DITCHBURN (Tottenham H. & England) **2a**
Nearly followed his father into professional boxing, but his huge hands were of more value keeping guard of the Spurs goal. Standing at 6'0¾'', lithe, daring, tremendously acrobatic, was also known for marvellous kicking ability which could clear the lines instantly. Played over 400 league games for Spurs, during which had a spell of 247 consecutive appearances. The last line of defence in the wonderful push and run side of the early 50's, was an outstanding keeper during a period renowned for them, resulting unfortunately in only 6 England caps coming his way. Spectacular to the end, only bowing out at the age of 37 after losing place to the younger Ron Reynolds.

PETER DOBING (Blackburn R./Man. C./ Stoke C.) **1**
Instant success on debut with Blackburn Rovers when 17 years old, soon putting his name at the top of their second division goalscoring charts. Building up a great partnership with the brilliant Bryan Douglas, helped the Rovers back into the big time in 1957/8 then making mark in that league. Gained England under 23 honours which were followed by representing the Football League before signing for Manchester City for £37,500 in July 1961. Although being a City fan in younger days, he never really settled, eventually signing for Stoke City in 1963. Spent 10 happy seasons at the Victoria ground culminating in winning a Football League Cup medal when Stoke beat Chelsea in 1971/2.

PETER DOHERTY (Blackpool/Man. C./ Derby Co./Huddersfield T./Doncaster R. & N. Ireland) **5**
A native of Magherafelt, coming to Blackpool from Glentoran, he saw further service before the war with Manchester City winning a League Championship medal and playing for his country on many occasions. Most probably the finest inside forward produced in that country. With his flame hair, Peter Doherty combined tireless energy with a tactical awareness, to disrupt the most disciplined of defences. Winning a Cup medal with Derby County in 1946, when partnering the also illustrious Raich Carter at inside forward, would have been one of the great occasions witnessed by non partisans. In 1949 at the age of 36, he became player manager of Doncaster Rovers, driving the team on to winning promotion that season from the third division north.

DEREK DOOLEY (Lincoln C./Sheffield W.) **5**
Swashbuckling Derek Dooley first hit the headlines in 1951/2, the season after Wednesday had been relegated from the first division. Looking for an early return, the club examined its own staff and decided that the raw twentyone year old centre forward, with just two previous appearances behind him, would be given an extended run. The result was staggering, as 6'2'' tall dynamite Derek smashed 46 goals from 30 games, collecting a second division medal. Back in the first division tragedy struck him down during the game against Preston on 14th February 1953, whereafter fracturing a leg, gangrene set in, resulting in eventual amputation. The football world mourned the loss of a rising star, but the indomitable youngster got down to a new career, later coming back as the Sheffield Wednesday manager.

DEREK DOUGAN (Portsmouth/Blackburn R./ Aston Villa & N. Ireland/Peterborough U./ Leicester C./Wolverhampton W. & N. Ireland) **1, 3, 4**
Marvellous extroverted centre forward with great skill on the ground and quite capable of winning any aerial battle. One of the game's great characters who once shaved his head prior to appearing in an important match. Played for many varied clubs, only really settling when joining Wolves in March 1967 from Leicester City. Previous to that had dropped into the third division with Peterborough where for two years it was quite apparent that he was too good a player to be languishing in the lower region. Was a great favourite with most fans, always giving entertainment, and was well worth the 43 caps gained with Ireland.

BRYAN DOUGLAS (Blackburn R. & England) **2a, 4**
Unorthodox, brilliant ball playing forward although only 5'6'', made up for lack of inches with great vision and artistry. Came out as an outside right, where England eventually preferred to play him, but settled down for Blackburn at inside forward utilising great skill and shooting ability. Was an outstanding influence in helping the Rovers back into the top flight of 1957/8, also instrumental two seasons later in getting them to Wembley where they were beaten by the Wolves 3-0. Will always be remembered amongst the elite of great Blackburn Rovers stars, winning most of the individual honours the game had to offer, before moving on to non-league Great Harwood in 1969.

ALEX ELDER (Burnley/Stoke C. & N. Ireland) **4**
Terrific full back acquisition from Glentoran when only 18, signing for Burnley after making rapid progress in the Irish League. Gained a Championship medal in first playing season 1959/60 followed with a runners up medal from the losing F.A. Cup Final against the mighty Spurs in 1962. Was very unfortunate in later season breaking an ankle which hindered his first team prospects with the Clarets. Eventually moved on to Stoke City in August 1967, playing on an irregular first team basis as a valued member of the squad. Picked 40 times for Northern Ireland during which he displayed great powers of recovery allied to first class tackling ability.

FRED ELSE (Preston/Blackburn R./Barrow) **1**
Consistently sound custodian only 5'8'' tall who epitomised the art of positional play and keeping the North End net intact for long periods. Apart from representing England 'B', was never rewarded by further international recognition during a career spent mainly in the first division until leaving Blackburn Rovers for Barrow in July 1966. Played nearly 150 games for the third division side before relegation sent them down, coinciding with Fred Else's last league appearance. On reflection must rate amongst the best keepers of that period.

TONY EMERY (Lincoln C./Mansfield T.) **2a**
Real clubman who graduated from school right through the ranks; the nephew of Fred Emery, a well known manager of the day. Did not need much help from the family settling into the hub of the defence at centre half. Well built, over six feet tall, Emery was watched consistently in his early days by a posse of scouts, but for some obscure reason did not end up in the first division. In 1947/8 was a member of the side that gained promotion to the second division, and just as quickly returned, but in 1951/2 gained a third division north medal in returning once more. Left Sincil Bank in June 1958 for Mansfield Town.

MIKE ENGLAND (Blackburn R./Tottenham H. & Wales/Cardiff C.) **1, 4**
Tall defender developed with Blackburn Rovers junior sides, not establishing himself as a regular until 1963/4 despite having being capped at under 23 level previously. Became a tremendous centre half of quality — cool, calm and collected — vesting great skill for one of giant stature. Spurs reckoned the young man to be one of the key players to rebuild their once famous side, signing him for £95,000 in August 1966. Within a year, had picked up an F.A. Cup Final winners medal against Chelsea in a rather dreary game at Wembley. Still nearly as good as ever after playing 300 league games for Tottenham, decided to finish career back in his native Wales with Cardiff City.

BOBBY EVANS (Chelsea & Scotland/Newport Co.) **4**
Wherever the fray was at its thickest red haired Bobby Evans, although only 5½ ft high, would be found deep in the heart of battle. Really made his name long before coming to England nearing the end of his brilliant career. Played for Scotland on 48 full international appearances starting in 1949 against the ''ould enemy'' England. Although his best position was wing half for Celtic, in 1957, when George Young retired, the national side converted Bobby to the centre of the defence. Coming to Chelsea in 1960 was not very successful and after a season he moved on as player manager to Newport County.

GEORGE FARM (Blackpool & Scotland) **2**
Unorthodox but effective black vested goalkeeper who became custodian of the Blackpool net after signing from Hibernians in September 1948 for a moderate fee. With diligent practice was finally capped by his country of birth four years later, appearing 10 times in all. In 1951 was on the losing side in a Cup Final, being on the receiving end of Jackie Milburn's vicious shooting for Newcastle. Was back in 1953/4 for the greatest final of them all against Bolton. Within seconds had been beaten by a soft shot from Nat Lofthouse, but the team recovered, winning eventually 4-3. One of the few goalies to score goals against the opposition, three in all.

PETER FARRELL (Everton & Eire/Tranmere R.) **1, 2a**
Signed by Everton from Shamrock Rovers as a wing half for the future, although it was as an inside right when playing for the Republic at Goodison Park that he scored a goal which beat England. Was a tireless worker, cajoling the team wherever needed, fully justifying the captaincy. Played for his country 28 times before following Tommy Egglington once again, this time to Tranmere Rovers, to spend the evensong of career. Spent three seasons and played well over 100 games as captain, nearly as energetically as ever, before retiring.

ALAN FINNEY (Sheffield W./Doncaster R.) **2a**
No relative to the immortal Tom, but was still a brilliant Hillsboro wing product in his own right, going on to play over 450 games for Wednesday before finishing league career with Doncaster in 1966/7. Really elusive and tricky in his prime with an adroit turn of pace which bewildered the best of defences, Alan became well known for partnership with the ''golden boy'' Albert Quixall. Really wasn't far removed from the international scene which he would have graced in prime, but settled for England 'B' and under 23 honours as well as two second division medals.

TOM FINNEY (Preston & England) **2, 3, 4**
Arguably the greatest England wing forward of all time, who played under the shadows of the also great Stan Matthews and was still able to exercise his own brilliance to loud acclaim. Joining Preston in 1937, he turned pro in 1940 after being an apprentice plumber and was thereafter known as the ''Preston Plumber''. In a long career the only honours with his home club were in the form of runners up. Made up for that by playing over 75 times for England in full internationals scoring 30 goals . In 1956 Preston experimented by using Tom at centre forward, again being a great success and scoring 26 goals in 1957/8. Will be remembered for his all round performances, being two footed and a scintillating dribbler to match. Twice in 1954 and 1958 Tom was player of the year.

RON FLOWERS (Wolverhampton W. & England/ Northampton T.) **2a, 4**
Fair haired young Wolves prodigy who developed in that famous nursery Wath Wanderers, coming out in 1951/2 only two months after signing on the dotted line. Well-built, strong, remarkably consistent; first picked for England in 1955, not playing again until 1958, then going on to collect 49 caps. An automatic member of the great Wolves side of the 1950's which gained prestige at the expense of the foreigners and was seen by the media as a carbon copy ''Young Billy Wright'' Later in career helped the once great Wolves weather the storm when their glory days had ended, before joining Northampton Town in September 1967.

TREVOR FORD (Swansea C./Aston Villa/ Sunderland/Cardiff C. & Wales/Newport Co.) **3, 4**
Fiery and explosive centre forward who was always involved in action packed goalmouth scenes. Signing for the Swans during the war, was quickly snapped up by Aston Villa in 1947 and then created a major sensation by being the first £30,000 transfer in a 1950 move to Sunderland. Playing nearly 40 games for Wales, was seen to best effect in their red shirt. At league level many goalies got the full impact of his well proportioned shoulders in the days of the old fashioned shoulder barge, whilst two footed shooting efforts on sight of the target made sure that no one could relax. After joining Cardiff he later moved on to Eindhoven of Holland, returning to finish his career with lowly Newport in 1960.

BILL FOULKES (Man. U. & England) **1, 2a**
Tall and long legged, rendered valuable service at Old Trafford whether at full back or centre half in playing over 550 league games. Came to the fore after being spotted playing for a boys, club, becoming a regular in 1953/4, going on quickly to win only England cap. Was one of the survivors of the horrific Munich air disaster and on returning to England captained United in the gallant attempt to win the F.A. Cup against Bolton, after being runners up the year previously. Finally gained a winners medal in 1963 to go with four League Championship medals. Highlighted career as member of United's European Cup winning side that defeated Benfica of Portugal in 1968.

TOM FOWLER (Northampton T./Aldershot) **1, 2b**
Outside left who was on the books of Everton during the war, before turning pro with the Cobblers. Fast running, direct player became great favourite with the locals playing consistently for fifteen seasons, notching up a club record of 521 appearances before leaving for Aldershot. In four consecutive seasons was ever present, always seemingly able to conjure up important goals, and was a vital member of the 1949/50 side that got to the fifth round, being beaten by their first division opponents.

REDFERN FROGGATT (Sheffield W. & England) **2a**
Cousin of the ebullient Jack Froggatt, also having a father who was a pre-war Sheffield Wednesday star to boot. Tall, blond, with great constructive ability, specialising in the crossfield pass, was the driving force behind the Owls for over fifteen seasons. As a regular member of the side must have felt like a yo-yo, being either promoted or relegated from first to second division seven times in all after the war. In that period won three second division medals. The first of his 4 England caps came in 1952/3, also playing for England 'B' as well as representing the Football League. Scored 138 league goals in a career during which he played mainly in midfield role.

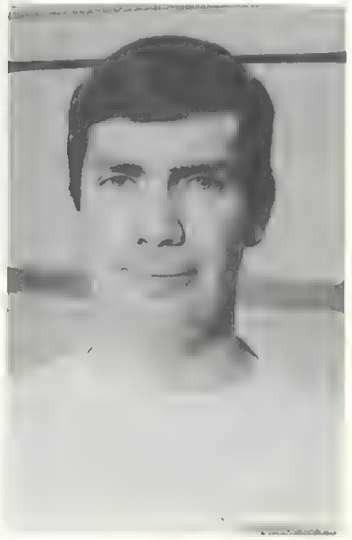
JIM FRYATT (Charlton Ath./Southend U./ Bradford Park Av./Southport/Torquay U./ Stockport Co./Blackburn R./Oldham Ath./ Southport/Stockport Co./Torquay U.) **5**
Well built leader of the attack who created the fastest scoring record in history when netting after only four seconds for Bradford against Tranmere Rovers 25/4/1964, the time being confirmed by the referee. Must have been amongst the record holders for the number of clubs for which he appeared. Scored nearly 200 goals during playing career, although whilst with Southend played at full back. Started out at the Valley, waiting two years to make debut in 1959/60 and before leaving at the end of that season to join Southend had scored 3 goals in 5 games. Very popular amongst players and fans alike on his wanderings.

KEN FURPHY (Everton/Darlington/Workington/ Watford) **1**
Never made the grade with Everton, going into the Cheshire League with Runcorn. Darlington spotted his potential and signed him in August 1953; Furphy went on to play more than 300 games, mainly as a wing half. One of the great highlights of league career was in helping the Quakers defeat Chelsea in the fourth round of the F.A. Cup following a replay 1957/8. Became one of the youngest player managers when signing for Workington in 1962, eventually transferring himself to Watford in a similar capacity, later going on to become fully fledged on finishing playing career.

JIMMY GABRIEL (Everton & Scotland/ Southampton/Bournemouth/Brentford) **1**
One of the best strong tackling wing halves of the day, took some time to settle after Everton had paid Dundee £25,000 in March 1960 for his signature. Was then only nineteen, but rapidly came to the fore with consistent cultured play which belied his years. At Goodison Park won a League Championship medal which was followed by an F.A. Cup winners medal from the game against Sheffield Wednesday, 1966. A season later was allowed to join Southampton giving them sterling service, using his defensive qualities to the full, before going on to Bournemouth and then Brentford. Surprisingly only won 2 Scottish caps.

PETER GELSON (Brentford) **2b**
Another of the long service specialists, starting out with the juniors, progressed as a tall, well-made wing half, more than competent, who could push the ball about. Making debut in 1961/2 played 29 games in Brentford's promotion team from the fourth division. Again following relegation helped to win promotion back to the third division 1971/2 as the third placed club with Peter missing only one full game in which, incidentally, he appeared as a substitute. Grand clubman did not play again after September 1974 for his beloved Bees.

BRIAN GODFREY (Everton/Scunthorpe U./ Preston & Wales/Aston Villa/Bristol R./ Newport Co.) **1**
Inside forward who started with Everton, making only one appearance before joining Scunthorpe, June 1960, and getting Welsh under 23 honours whilst playing at the Old Show Ground. Preston fancied the skilful well-built schemer and he certainly impressed the Welsh selectors after joining the famous Lilywhites, being given 3 caps. Everton apart, all of this player's other clubs were outside of the first division. Biggest disappointment must have been on signing for Preston and not being in the side that made its way to Wembley, losing the F.A. Cup Final to West Ham.



BILLY GORDON (Carlisle U./Barrow/ Workington/Barrow) **3**
Started out at centre forward with local side Carlisle United and after playing over a dozen games in 1948/9, did not find a place again, being transferred to Barrow (also of the third division north). In nine seasons played regularly, scoring quite prolifically, and before leaving for Workington in March 1958 had accumulated 145 goals from 301 appearances. Not very tall but stockily built, Billy was ideal for the conditions that prevailed in the lower reaches.

JOHNNY GORDON (Portsmouth/Birmingham C./ Portsmouth) **1**
Little terrier-like inside forward, signed for his local team Portsmouth making debut season 1951/2 and becoming a regular two years later. 90 minute player, showed great dash and determination, was one of Fratton Park's favourite sons. Not much to the liking of the fans, he was transferred to Birmingham City in September 1958, consistently good in their colours, but in March 1961 the call from his old club proved too much. During his time at Birmingham, the once great Pompey had lost their first division status, dropping very quickly down to the third, but when he gained a third division medal 1961/2 at least had the satisfaction of proving his value to that once great club.

ROY GRATRIX (Blackpool/Man. C.) **2a**
One of the most consistent of centre backs to play post war soccer, signing for Blackpool from a local works side. Originally joined club as a full back, but when Harry Johnston was injured, deputised extremely effectively going on to play for England 'B' that same season. Never looked back, cool constructive play being the main reason, helping the club to their highest ever placing in the first division in season 1955/6. Moved to Manchester City finishing at the age of 32 in 1964. Would be considered by many experts to have been worthy of higher honours and would certainly have done so with a more fashionable club.

ANDY GRAVER (Newcastle U./Lincoln C./ Leicester C./Lincoln C./Stoke C./ Lincoln C.) **3**
One of soccer's regular travellers, always seeming to be with Lincoln City, whom he joined and rejoined three times in all. Starting life with Newcastle, Andy went to Sincil Bank after spending three years with the Magpies playing only one game. With Lincoln, developed into a free scoring centre forward over four seasons winning a third division north medal before moving to Leicester City for £30,000. Did not settle, and soon moved back home, but within four months was transferred to Stoke City for £15,000. Went outside the league, but again signed for Lincoln from Boston United in 1958.

BILLY GRAY (Orient/Chelsea/Burnley/Nottm. F./ Millwall) **1**
Thrusting little winger who joined Chelsea from Orient in March 1949 and within a year had represented England 'B'. Played in all the forward positions during a career where he excelled predominantly on the right wing, before settling down eventually as a full back. Chelsea surprised the football world when allowing a then very promising player to leave for Burnley in 1953. After gaining the respect of the Turf Moor regulars, moved on to Nottingham Forest in June 1957, where he achieved what must have been his most notable performance when appearing for Forest at Wembley, beating Luton Town in the 1958/9 Cup Final. Finished at Millwall, going on to become that club's manager.

JIMMY GREAVES (Chelsea/Tottenham H. & England/West Ham) **1, 3, 4**
Recognised as the greatest goalscoring machine of modern times, scoring more first division goals than any other marksman. Made a sensational debut for Chelsea scoring against Spurs, going on to top the first division goal scoring charts 6 times. At the age of 21 left the Blues for A. C. Milan, not staying very long before being snapped up by Tottenham the season after the fabulous double, helping to win the F.A. Cup in first season. Under Alf Ramsey, Greaves' England prospects began to falter, although he still managed to play 57 times. The cockney genius of an inside forward was likely to go on to score from anywhere on the field, but found the modern game unpalatable finishing down the road with the Hammers. European Cup Winners Cup in 1963 and a further Cup Final winners medal against old mates Chelsea were added to an illustrious record.

KEN GREEN (Birmingham C.) **2a**
A Londoner who actually signed professional forms for the Blues whilst in the Aston Villa dressing room after writing for a trial. Made league debut in September 1947, on return from serving in India, going on to play over 400 games by 1959. Nicknamed "Slasher" due to his not rushing into tackles, but more intent on drawing the winger into traps. Great poise, thoroughly reliable, marvellous positional sense, was an integral part of Birmingham "iron curtain". Won a division two medal 1955/6 also playing at Wembley in the famous losing F.A. Cup Final against Manchester City that same season. Represented the Football League and also gained England 'B' honours.

HARRY GRIFFITHS (Swansea C. & Wales) **2a**
Big hearted player who started out in the game as a winger signing for the Swans June 1949. Became synonomous with the Veitch Field becoming a regular in 1952/3 and rarely missing a game in the next eleven seasons before bowing out. Possessor of a great shot was in early part of career more at home on the left wing partnering the great Ivor Allchurch and it was there that Wales capped him versus Ireland, his only international appearance, coming in first full season. Eventually, his fighting qualities being better suited to the defence, he was converted to full back.

GRENVILLE HAIR (Leeds U.) **2a**
Great servant to the Elland Road side, being signed by the famous Major Buckley as a teenager in October 1948, making debut two years later as a full back of the future. Consistent with great powers of recovery, when beaten down the flank, outweighed any noticeable blemish with outstanding positional sense coming to his rescue when needed. Starting out in the second division, it was a proud moment when a member of promotion winning side of 1955/6. Unfortunately success was short lived and the club was relegated in 1959/60, going back to the lower division for rebuilding under Don Revie. Grenville Hair was an important member of that mainly young side preparing itself for future glories.

JOHNNIE HANCOCKS (Walsall/Wolverhampton W. & England) **3**
Known as the "Mighty Atom", 5'4" with size 2 boots containing awesome bullet-like shooting power. Was in marvellous contrast to his Wolves opposite wing mate Jimmy Mullen, going to Molineux in May 1946 from Walsall for just £4,000 and later being capped by England on both wings. Before retiring had scored 158 league goals in the cause of Wolves, of which during 1953/4 he collected 25, and followed the next season with 26. Honours included 3 international caps, a League Championship medal and an F.A. Cup winners medal from the game against Leicester City in 1949. Extremely dapper, one of the little "big men" of the game, he will long time be remembered for that amazing shooting ability.

BRIAN HARRIS (Everton/Cardiff C./ Newport Co.) **1**
Started out as highly promising outside left being signed by Everton from Port Sunlight as a part timer, combining football with an engineering apprenticeship. Began to claim regular spot in 1957/8 when settling down at wing half keeping his place for many seasons and gaining a League Championship medal to go with the F.A. Cup winners medal from the game against Sheffield Wednesday at Wembley 1966. Had developed into a classy constructive defender, who was unlucky not to be capped, and although losing his Goodison place temporarily to Tony Kay, was soon recalled when that player left the game over the bribes scandal. Later played for Cardiff City and then Newport County, whom he later managed.

HARRY HARRIS (Newport Co./Portsmouth) **1**
Remembered as a wing half-cum-inside forward, very lively up front, being signed by Portsmouth in July 1958 after playing over 150 games in four seasons at Newport County. Converted to wing half later after winning a third division medal with Pompey in 1961/2 who accumulated 65 points, a club record. Played out the rest of footballing life in the second division, as an efficient constructive team member, before being loaned to his old club, Newport, completing a rewarding, if not distinguished, playing career.

PETER HARRIS (Portsmouth & England) **2a, 3**
Born a few yards from Fratton Park, with great talent, Pompey didn't have to look very far for a future star. A quick thrustful outside right, always looking for the goal, Peter had clever ball control and could shoot well whilst on the move. First capped by England against Eire in 1949, he had to wait a further four years for a recall, this time in Budapest on the end of the massacre handed out by the great Hungarians. Winning two Championship medals, was the most prolific goalscorer in Portsmouth's history, claiming nearly 200 league goals. The fact that he was a recognised wingman makes this achievement all the more outstanding.

ERIC HARRISON (Halifax T./Hartlepool/Barrow/ Southport/Barrow) **1**
Tall, well-built wing half who played his soccer in the bottom two divisions, finally accounting for over 600 appearances when finishing league career with Barrow the season they lost their league status. Attained promotion with Barrow in 1966/7, the club going up in third position. In his first season with them, Eric played 39 games — not including 3 substitute appearances.

ROY HARTLE (Bolton W.) **2a**
Tall, well-made full back came up to Burnden Park from Bromsgrove of the Birmingham Combination signing professional in February 1952. First played in the league side in 1952/3 making 17 appearances and playing every round of the F.A. Cup, but being left out upon reaching Wembley, where Bolton were beaten in the never to be forgotten "Matthews Final". Did not play another match for two seasons, coming back as a regular 1955/6 and for the next 10 years missed only twenty games. Dramatically made up for the 1953 disappointment by fostering an F.A. Cup winners medal from the 1958 game against the post Munich, Manchester United side.

KEITH HARVEY (Exeter C.) **2b**
Signing from Crediton in August 1952, made debut that season at centre half, not becoming a regular until 1954/5 as a strong upstanding type with good defensive qualities. Went on to play nearly 500 times for the club, which would have broken their appearance record had it not been for injuries, of which the worst was a broken leg. Even that did not stop this tough player from missing only 24 games, before getting back to fitness and finishing the season with a flourish. Long time clubman spent nearly 18 seasons with the Grecians.

MARTIN HARVEY (Sunderland & N. Ireland) **4**
Great all round player who worked way through the Sunderland junior side making debut in 1959/60, basically as understudy to Stan Anderson at wing half. Became a regular in 1963/4 when Anderson left the club to join Newcastle United, also taking over from the great Danny Blanchflower in the Irish national side and going on to play 33 times in all. Gave Sunderland great service playing over 300 games as one of the top wing halves seen at Roker, ranking along with the best — stylish, constructive and, good tackling capability.

TONY HATELEY (Notts Co./Aston Villa/ Chelsea/Liverpool/Coventry C./Birmingham C./ Notts Co./Oldham Ath.) **3**
Powerfully built leader, clumsy, but effective on the ground with dynamic aerial strength, made debut with Notts County in 1958, becoming a target of the bigger clubs very quickly. Aston Villa, in assessing goal scoring prowess rather than awkward gait, signed him in August 1963, big Tony responding with 68 goals from 127 games. Tommy Docherty saw him as the short term replacement for Peter Osgood, paying £100,000 to bring the marksman to the Bridge. Although only scoring six goals that season, Tony got the one that mattered in taking the Blues through to the losing F.A. Cup Final of 1967 against Spurs. Moved on relentlessly to club after club, who handed over tremendous transfer fees still looking for the ''goalden'' touch. Ended days at Oldham and has young son Mark making great progress with Coventry City, one of his dad's old clubs.

JOHNNY HAYNES (Fulham & England) **1, 2a, 4**
The outstanding English post war inside forward, immaculate in appearance, brilliant in ability, famous for his long through ball amongst other attributes. Was schoolboy prodigy signing for Fulham after being coveted by all the big clubs following England schoolboy international displays. Debut at seventeen years of age 1952/3, before leaving in 1970 for Durban City after playing 594 league games. Played 56 times for England following international appearances at every level other than amateur. Superlative skill coupled with strategy and leadership were qualities he regularly brought to bear in long career. Famous for being the first £100 per week English footballer, a move that ensured that the foreigners kept their hands off. A serious car injury in 1962 put paid to the international side of playing career.

TERRY HENNESSEY (Birmingham C./Nottm. F./ Derby Co. & Wales) **4**
Tall, long-striding cultured wing half who always looked older than he really was, mainly due to receding hairline. Was a Birmingham City discovery, after representing the Welsh schools, making debut in 1960/61 and going on to play 178 league games before being transferred to Forest in November 1965 for a fee of £70,000. Had become a hard driving skipper who was brilliant in breaking from deep defence, always prompting the forwards when needed. In February 1970 Derby took Terry to the Baseball Ground for a fee of £100,000 where, unfortunately, injuries rules him out of competitive football after a short period. Had played for his country on 39 occasions and won a League Championship medal with Derby County 1971/2.

DAVID HERD (Stockport Co./Arsenal & Scotland/Man. U./Stoke C.) **3**
Made initial name playing alongside father Alex, who was then player manager of Stockport County. Was obviously better suited to a higher grade of soccer and Arsenal signed him for £8,000 in August 1954 whilst still doing national service. Became a regular two seasons later beginning to score quite prolifically at centre forward and in all collecting 97 goals from 166 league games. Transferred to Manchester United July 1961 to put bite into their attack, and did just that in scoring 114 goals in seven years before moving to Stoke City. Awarded five Scottish caps whilst at Arsenal to go with two Championship medals and F.A. Cup winners medal achieved when assisting United.

JOHN HEWIE (Charlton Ath. & Scotland) **2a**
Highly versatile 6'1½'' defender was discovered by the then Charlton manager, Jimmy Seed, playing for Arcadia F. C. in the Transvaal league, South Africa. Signing for Charlton in October 1949, went on eventually to play just five short of 500 league appearances for his only club. Recognised by the Robins to be at best as a full back, still played for them in nine of the eleven coveted positions including goal. Because his father had been born near Selkirk, John was made available for Scotland and duly obliged playing 19 times, as well as getting honours at other levels. Top class skilful player, extra cool, who never seemed to have a bad game, and was one of the many South Africans at the Valley.

DAVE HICKSON (Everton/Aston Villa/ Huddersfield T./Everton/Liverpool/Bury/ Tranmere R.) **3**
A powerfully-built, fair haired centre forward using a robust approach and worrying tactics which forced opponents' defences into mistakes. Everton found the raw youngster at Ellesmere Port, a veritable hotbed of local talent. After three years in the reserves made debut in the 1951/2 season, knocking in 14 goals. His courageous style played a large part in getting the Toffees back to division one in 1953/4. Leaving Everton in September 1955, became a traveller getting amongst the goals where needed and always trying one hundred percent. Scored over 170 league goals in a career which stretched over 12 playing seasons.

ALAN HODGKINSON (Sheffield U. & England) **1, 2a**
Brilliant keeper, only 5'9½'', who set trend at international level for others to follow. Painstakingly meticulous with careful handling, brave and above all remarkably consistent. Was signed from Worksop by United making debut in 1954/5, eventually displacing the excellent Ted Burgin and going on to play for England 1956/7, after picking up under 23 honours. Only missed a single game 1960/61 when the Blades won promotion back to the first division, and was still in the Bramall Lane goal at the beginning of 1970/71 when they once again won promotion.

DOUG HOLDEN (Bolton W. & England/Preston) **1, 2a**
Fast and tricky wingman playing with the Manchester Y.M.C.A. when spotted by a Bolton official, turning professional in April 1949. At home on either flank, was a regular for over ten years gaining England honours to go with the F.A. Cup winners medal from the game against Manchester United in 1958. This made up for being on the losing side in the ''Stanley Matthews Final''. Transferred to Preston in November 1962, again weaving his spell down the touchlines, again going to Wembley in 1964 — this time coming away with a losing medal from the game against West Ham, where the still effective winger scored for Preston. Emigrated to Australia in 1965.

BARRY HOLE (Cardiff C./Blackburn R./ Aston Villa/Swansea C. and Wales) **4**
Tall cultured wing half-cum-inside forward, son of famous father who pre-war had represented Wales, also having two elder brothers who both played for Swansea, their only league club. Signed professional for Cardiff City September 1959, went on to emulate his dad, Billy, by playing for Wales and going on to make 30 appearances. Played over 200 league games for Cardiff before moving on to extend his help to former giants Blackburn Rovers and Aston Villa, striving to regain former glories. Finished with Swansea, the club that at one time or another housed the ''Hole'' family. Spent only two seasons in the first division, but was good enough to have played at that level throughout.

ROY HOLLIS (Norwich C./Tottenham H./ Southend U.) **3**
Tall, clever centre forward who made name with Norwich City after joining them from local Great Yarmouth in 1947. Regularly getting amongst the goals at Carrow Road he made the transition to Spurs in December 1952, staying just over a year, scoring only one goal in three outings. Southend United saw Roy putting punch into their attack and signed him in February 1954. Once again went back to the third division which obviously suited his style, scoring at the rate of one in every two matches before bowing out in 1959/60.

ALBERT HOLMES (Chesterfield) **2b**
Long service clubman who joined the Spireites in June 1961 from local junior soccer, eventually taking over at right back from the then long-term Gerry Clarke in 1962/3 when that player moved to wing half. Rather on the short side for a defender, but made up for lacking inches with sound positional play and steadfast tackling ability. Having started out with Chesterfield in the fourth division, achieved a milestone when collecting a fourth division medal in 1969/70 after playing maximum games that season.

CLIFF HOLTON (Arsenal/Watford/ Northampton T./Crystal P./Watford/ Charlton Ath./Orient) **1, 3**
Centre forward who probably had the hottest shot of any post war player, signed originally as a full back by Arsenal from Isthmian League's Oxford City in November 1947. Was converted to leader of the reserve attack, soon making first team debut 1950/1, and going on to gain a losing F.A. Cup Final medal from the memorable 1952 game against Newcastle United. Somehow whilst at Highbury, even though scoring over 80 goals, was never able to command the respect he deserved and was allowed to sign for Watford in 1958. At Vicarage Road he scored 42 goals from 45 league games, breaking the club record in 1959/60, and then for £7,000 went to Northampton Town where he broke their previous best by getting 36 goals in 41 appearances.

MEL HOPKINS (Tottenham H. & Wales/ Brighton/Bradford Park Av.) **4**
Prominent for long legs and leading upfield sallies in response to the forwards had to curb early in career the impulse of tackling too early. Made debut for Spurs in 1952/3 but didn't secure a regular place until two seasons later. Was displaced by Ron Henry in 1959/60 after breaking nose, playing only 30 odd games over the next four years culminating in a transfer to Brighton. Was unfortunate in not being a first teamer during the Spurs glory years including the "double". After originally joining the club following the great push and run side, ultimately had to settle for not being a member of either of the Spurs' two great post war sides.

EDDIE HOPKINSON (Bolton W. & England) **1, 2a**
Only 5'9" custodian of the Wanderers' goal; actually made debut in league football as an amateur on the books of Oldham Athletic 1951/2, turning professional with Bolton November 1952. Remarkably consistent, with brilliant daring making up for distinct lack of inches, was selected to play for England only a season after making debut at Burnden Park. Picked up F.A. Cup winners medal from the game against Manchester United in 1957/8 to add to 14 full England caps, under 23's, and Football League representative honours. Played over 500 league games for Bolton before retiring to join their coaching staff. Young son Paul has played in goal for Oldham Athletic, just like his famous dad.

BILLY HOUGHTON (Barnsley/Watford/ Ipswich T./Leic. C./Rotherham U.) **1**
Fine attacking wing half was schoolboy prodigy with local Barnsley, turning pro, then picking up England youth international caps in quick succession. Very consistent at Oakwell, appearing in over 200 games before leaving for Watford in July 1964. Stayed a couple of years at Vicarage Road prior to signing for Ipswich Town where he played 41 games during the promotion campaign of 1967/8, collecting a second division medal into the bargain. Had a short spell with Leicester City spending the remaining four years of a long career with Rotherham United back in his native Yorkshire.

GEORGE HUDSON (Blackburn R./Accrington/ Peterborough U./Coventry C./Northampton T./ Tranmere R.) **3**
Tall, strong centre forward who made tremendous progress after being given a free transfer by Blackburn Rovers. Landing at Accrington Stanley the young man equalled their seasonal scoring record of 35 goals in 44 matches, but unfortunately the club were forced, due to financial difficulties, to sell their best asset for £5,000 to Peterborough United. In April 1963 when still in the third division promotion battle the Posh sold Hudson to one of their leading rivals, Coventry City, which created rather a stir at the time. In three years at Highfield Road the busy striker scored 63 goals collecting a third division medal in 1963/4 where his 25 goals that season were instrumental to the success.

RALPH HUNT (Portsmouth/Bournemouth/ Norwich Co./Derby C./Grimsby T./ Swindon T./Port Vale/Newport Co./ Chesterfield) **3**
One of the most travelled of players, with nine clubs in all, in demand where the need for goals existed. Starting out with Pompey in August 1950, played five games but, on not finding the net, was allowed to join Bournemouth down the road, still not creating any goalscoring headlines. When joining Norwich City, however, came to life as a bustling centre forward who the opposition just could not keep out. Six clubs later, having then scored a total of 186 league goals, had his life tragically terminated.

ROGER HUNT (Liverpool & England/Bolton W.) **2a, 3, 4**
Made a reputation for himself as a marksman when shooting Liverpool back into the first division 1961/2 and topping the Football League scoring list with 41 goals. Ideally suited to the modern Liverpool inside forward requirements, direct and resourceful and a thoroughly reliable ninety minute player. Became known as an Alf Ramsey man when collecting 34 England caps, mainly at the expense of the legendary Jimmy Greaves whose style did not suit the England team manager. Club honours included two Championship medals and an F.A. Cup winners medal from the game against Leeds United 1965; also played in the European Cup Winners Cup Final 1966, Liverpool losing to Borussia Dortmund.

ROGER (ERNIE) HUNT (Swindon T./ Wolverhampton W./Everton/Coventry C./ Bristol C.) **3**
Real name Roger, highly popular under the hat of Ernie, one of Swindon's many youngsters unearthed in the late 1950's, made rapid progress, going on to top the club's goalscoring lists. Helped the Town to promotion from the third division 1962/3 as a hustling well built inside forward who could really play the ball about if required. Capped by England at under 23 level; was hotly pursued by the big clubs, eventually going to Wolves in September 1965, but on losing first division status moved on to Everton. After a few months and not having settled was transferred for £60,000 to Coventry City, where he finally displayed true form.

CHARLIE HURLEY (Millwall/ Sunderland/ Bolton W. & Eire) **1**
Discovered by the Lions playing for a Rainham youth club, making an impressive debut for them in 1954 at the age of seventeen, the ideal centre back was snapped up by Sunderland in September 1957 for £20,000. By the early 1960's Charlie was reckoned to be the best in Britain by many scribes. Not to be compared with the normal stopper, had developed a style which was decidedly different, with forays into opponents' territory to boot. Playing 40 times for his country, had been the cornerstone around whom Sunderland rebuilt for their return to the first division. This great player ended his playing days with Bolton Wanderers.

GEOFF HURST (West Ham U. & England/ Stoke C./W.B.A.) **1, 2a, 3, 4**
Tall, well-made striker became nationally famous for scoring the "hat trick" at Wembley in the World Cup Final against West Germany when England lifted the trophy in 1966. Unselfish to a "T", was a wonderful target man for both club and country, although starting out originally as a wing half, soon found a niche with the Hammers playing up front in winning 1964 F.A. Cup Final against Preston during which he scored. Son of a footballing dad, who appeared for Oldham, Geoff also was an accomplished cricketer, playing for Essex in the first class game. On leaving West Ham signed for Stoke and then W.B.A. where rendering valuable service, before going into soccer management.

JIM ILEY (Sheffield U./Tottenham H./ Nottm. F./Newcastle U./Peterborough U.) **1**
Well-built classy wing half was still down the pits when signing for Sheffield United; not until being recognised by the Football League in 1956 did the youngster become a full-timer. In August 1957 came to the metropolis when signing for Spurs at a fee of £16,000, but never really settled at White Hart Lane moving on to Forest two years later, a similar sum changing hands. Not until joining Newcastle United in September 1962 did the now balding Jim show his true ability in collecting, second division medal 1964/5, before moving on to the Posh. Clever constructive player always playing the ball out of defence in the best of traditions.

TONY INGHAM (Leeds U./Q.P.R.) **1, 2b**
Leeds United discovery only making three appearances whilst at Elland Road, being allowed to move in June 1950 to Q.P.R. Soon made up for the lack of league experience when settling down at full back in the Rangers' colours appearing 514 times before leaving Loftus Road in 1962/3. Whilst making the club's record appearance total he scored only 3 goals, one of them being from well inside his own half during a third division south fixture against Gillingham. Constructive, sound and a good tackler he epitomised the requirements of full back duties.

BARRY JACKSON (York C.) **2b**
Very tall 6'2" centre half, born locally, was snapped up from junior soccer in December 1956. Made senior debut two years later, becoming the lynch pin of the defence, missing few games during the next twelve seasons. Extremely strong, well built, was the ideal "stopper" type, highly effective, who played whole of career at Bootham Crescent. In 1964/5 York City attained promotion to the third division taking third place, that being the nearest the young defender came to collecting a medal.

BEDFORD JEZZARD (Fulham & England) **3**
Was accepted as just about the fastest centre forward of the day, certainly in heavy going conditions. Discovered by Fulham playing for a boys' club near Watford after being evacuated, was first signed as an amateur. Really developed as leader of the attack, scoring regularly, with England awarding him a cap against Hungary in Budapest 1954. This was followed by another, as well as playing for England 'B' and the Football League. Struck up a brilliant partnership with Johnny Haynes and Bobby Robson, so much so that Newcastle United offered Fulham a fabulous figure which was turned down flat. Unfortunately "Beddy's" football career was halted at the age of 28 by injury.

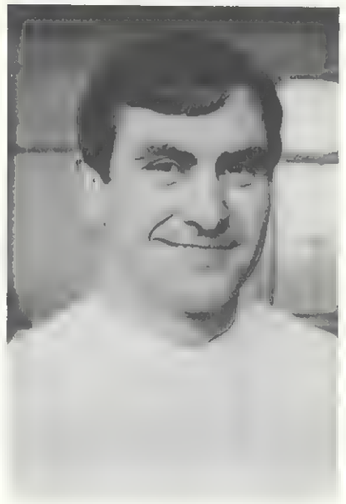
KEITH JOBLING (Grimsby T.) **2a**
The player who holds the Mariners' appearance record of 448 made over a period of fifteen seasons. Coming up through the junior sides, turned professional July 1953, but it was not until after returning from National Service that he converted from wing half to centre back, being able to use height advantage. Did not become a regular until 1958/9 and was ever present in Grimsby's promotion drive as runners up from the third division 1961/2. Consistently reliable in the hub of the defence, one of the club's greatest servants.

HARRY JOHNSTON (Blackpool & England) **5**
Elegant and calm in his approach to the game, was rarely ruffled throughout long career. Although being born next to the Maine Road ground of Manchester City, Harry joined Blackpool at the age of fifteen in 1934, going on to become one of the most outstanding players of his generation. This was reflected in 1951 when he became footballer of the year. After starting out at wing half, had been recognised by England on ten occasions, and also skippered the Seasiders through to great successes, mainly in the F.A. Cup, culminating with the brilliant 1952/3 winning final against Bolton after two previous losing appearances. Harry died in 1973.

TOM JOHNSTON (Darlington/Oldham Ath./ Norwich C./Newport Co./Orient/ Blackburn R./Orient/Gillingham) **3**
Hustling centre forward who played virtually all his soccer in the lower divisions, although with Blackburn Rovers finally achieved first division status during short stay with them. Gained notoriety with Norwich City in 1953/4 when scoring two goals at Highbury which knocked the mighty Arsenal out of the F.A. Cup fourth round. This moment of success gave the craggy Scot quite an uplift, with many clubs beckoning for his services, and it was later with Orient that his goalscoring prowess made the divisional charts. Very direct, old fashioned type of player.

CLIFF JONES (Swansea C./Tottenham H./ Fulham & Wales) **1, 4**
Terrific left winger with an amazing turn of speed who joined Spurs from his native Swansea for £35,000 in February 1958. Belonged to a famous family: father Ivor was Welsh international of the 1920s; Uncle Bryn the famous Wolves, Arsenal and Welsh star, and brother Bryn played for five league sides. Breaking a leg soon after joining Tottenhamm it was feared for his form, but he came right back in tremendous fashion in the great "double" winning side, picking up an abundance of honours. Capped by Wales on 59 occasions, was recognised during peak of career as just about the finest left winger in the world. Finally moved down the road to Fulham before fading from the soccer scene.

GORDON JONES (Middlesbrough/ Darlington) **1, 2a**
Was only seventeen when making debut for the Boro in January 1961, subsequently made great progress and won England under 23 honours. Rather on the small side for a full back, but made up for any suspected deficiencies with an ability to recover quickly. Positionally sound, constructive placements from defence made sure the Teesiders did not miss Cyril Knowles' departure to Spurs. Played out whole of career outside of the first division ending with Darlington before leaving the game for good.



PAT JONES (Plymouth A.) **2a**
Local discovery with Astor Institute, developed into a fine consistent full back. Turned professional in the first post war season playing in the league side almost immediately and going on to make 279 consecutive league appearances from April 1947 to November 1953 when forced out of the side owing to an injured ankle. During this period gained a third division south medal in 1951/2 and the following season helped the club climb to its highest ever position in division two, also getting to the fifth round of the F.A. Cup that same year.

ARTHUR KAYE (Barnsley/Blackpool/ Middlesbrough/Colchester U.) **1**
Local schoolboy international wizard who joined Barnsley straight from school, going on to become a brilliant right winger for his home club. Amazingly stayed at Oakwell for nine years before being tempted by first division club Blackpool. Then it was only the chance of replacing the most famous of all players, Stan Matthews, in the tangerine colours that persuaded this outstanding 26 year old to leave his beloved Barnsley. Even more surprising was the fact that he could not totally displace the much older man, moving on to Middlesbrough in November 1960. Finished at Colchester, on the way, having collected an England under 23 cap to go with a Football League representative award.

MIKE KEEN (Q.P.R./Luton T./Watford) **1**
Tall, imposing, powerful wing half performed highly consistently during a league career which was a credit to the game. Made debut with Q.P.R. in 1959/60 and led them from the third division in 1966/7, which was even more remarkable for the fact that in the same season the club did "their double" by winning the Football League Cup beating W.B.A. 3-2 at Wembley in front of 98,000 spectators. Joined Luton Town in January 1969, becoming a member of the side that gained promotion to the second division 1969/70, before moving on to Watford where he later became manager.

BOBBY KELLARD (Southend U./Crystal P./ Ipswich T./Portsmouth/Bristol C./Leicester C./ Crystal P./Portsmouth/Torquay U.) **1**
Made debut for Southend United when only sixteen years of age, later gaining England Youth International honours. Wing half cum inside forward, was in great demand as a stylish constructive busy type especially in going forward and it came as no surprise when the player was transferred to Crystal Palace in September 1963 for around £9000. With the Palace the youngster achieved Second Division status when the club were promoted as runners up 1963/64 but it was not until several clubs later that he reached the First Division with Leicester City and collected a championship medal 1970/71 after playing thirty-nine games that season. Rejoined Crystal Palace for £55000 in September 1971, not playing many more First Division games.

ALAN KELLY (Preston & Eire) **2a**
First class keeper, tall and commanding, shined with Drumcondra in the League of Ireland, being capped for the Republic three times during 1957 and winning an Irish Cup winners medal. Preston moved in fast, making the acquisition in signing the youngster in April 1958, and he was able to make two appearances before the season finished taking over the net minding duties from Fred Else. During service at Deepdale collected a losing F.A. Cup Final medal from the struggle against West Ham 1964 and in 1970/71 achieved second division status with the club once again going up as Champions. Highly reliable keeper who made a record 47 appearances for his country.

HUGH KELLY (Blackpool & Scotland) **2a**
A hard tackling, clever, constructive wing half who went to Blackpool from the Scottish junior side, Jeanfield Swifts, in 1943. Unfortunate in missing the "Matthews Final", had played in the two losing F.A. Cup Finals of 1948 and 1951, also playing one solitary game for Scotland versus the U.S.A. in 1952. Consistent over a period of fourteen years in which he averaged over 30 games per season before calling it a day at the age of 35.

JACK KELSEY (Arsenal & Wales) **4**
Was the village blacksmith at Llansalet when Arsenal signed Jack from local side Winch Wen to understudy the great but ageing Swindon in the Gunners' goal. This was later seen as a very shrewd move by Jack Whittaker, the then Arsenal manager, when the young goalkeeper, after making his debut versus Charlton early in 1951, went on to become a great goalie at club and international levels. Displaying marvellous agility on his goal line, Jack had quickly won a League Championship medal by 1953 and won the first of many Welsh caps in 1954. The climax of his career could have been in 1958 when little Wales fought their way through to the World Cup quarter finals, eventually losing 1-0 to the future champions – Brazil.

DEREK KEVAN (Bradford Park Av./W.B.A. & England/Chelsea/Man. C./Crystal P./ Peterborough U./Luton T./Stockport Co.) **3**
Big blond striker, tremendously powerful, made a terrific reputation with W.B.A. where, teaming up with the great Ronnie Allen, he scored over 150 league goals. After signing for Albion from Bradford in July 1953, had to wait over two years before displacing Johnny Nicholls, but on gaining a first team place never looked back, eventually being capped. His rugged bustling tactics were sometimes frowned upon, but there was no doubting the positive effect it had upon the opposition's defence. After Albion he went on a merry-go-round of clubs before retiring; although scoring fairly prolifically during short stay with Manchester City, Derek never set the other sides alight, but overall his goalscoring record speaks for itself.

JOHNNY W. KING (Crewe Alex./Stoke C./ Cardiff C./Crewe Alex.) **1**
Chunky inside-cum-centre forward made an early reputation at Gresty Road in forming brilliant partnership with the equally young Frankie Blunstone who later went on to play for Chelsea and England. Was himself transferred to Stoke City in September 1953, scoring over 100 league goals prior to signing for Cardiff City and having a season in Wales, then coming back to Crewe Alexandra. The wanderer had finally returned home, playing out the next five seasons with his first club, in all making nearly 500 league appearances.

CYRIL KNOWLES (Middlesbrough/ Tottenham H. & England) **2a**
Over 6'0'' tall, well-made full back; great in upfield surges, especially on overlaps with the forwards, apart from being highly competent in defensive duties. Made a reputation with the Boro before coming to White Hart Lane, after being a professional for under two years. Picked up under 23 honours on way to four England full caps and collected an F.A. Cup winners medal from the 1967 game against Chelsea. Brother to the brilliant Peter who created a stir when leaving the game because it clashed with his religious beliefs. Cyril left Spurs on making his 400th league appearance in their colours.

BRIAN LABONE (Everton & England) **2a**
Everton had some difficulty in persuading the young local to sign for them as he was going to university, but on having second thoughts he turned professional July 1957. Neither regretted the change of heart and after taking over from Tommy Jones the tall young centre half went on to play over 450 league games before retiring. Calm and reliable, resolute, down to earth, with good heading ability, he brought a steadying influence to bear in the heart of the Toffees defence over many years. Before leaving Goodison had collected two Championship medals to go with an F.A. Cup winners medal from the game against Sheffield Wednesday 1966; was also capped 6 times by England.

JIMMY LANGLEY (Leeds U./Brighton/Fulham & England/Q.P.R.) **1**
Great wholehearted player who was plucked from the obscurity of the third division south by Fulham for £12,000 in February 1957, going on to play 3 times for England. Came to life at Craven Cottage as tough tackling left full back, always enjoying the licence to roam, given that his recovery powers were highly effective. In 1959 achieved ambition to play in the number one league, Fulham finally gaining promotion as runners up. Had started with Leeds as a winger, going on to Guildford City before Brighton converted him to full back. Before completing career at Shepherds Bush, struck up great full back partnership with young George Cohen who also went on to represent his country.

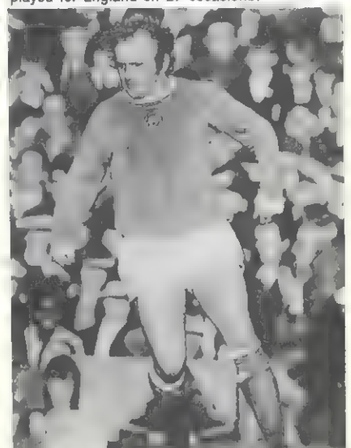
FRANK LARGE (Halifax T./Q.P.R./Northampton T./Swindon T./Carlisle U./Oldham Ath./ Northampton T./Leicester C./Fulham/ Northampton T./Chesterfield) **1**
Discovered by Halifax Town playing local junior soccer, was persuaded to turn professional June 1959 and topped the Shaymen's scoring list the three years spent with them. For £7,500 moved to Q.P.R., but on arrival of Stuart Leary was transferred to Northampton Town, there scoring 30 goals from 47 games. Reached the first division finally with Leicester City, only staying a season. In league career with eleven clubs scored 210 goals from 563 games.

DENNIS LAW (Huddersfield T./Man. C./ Man. U./Man. C. & Scotland) **3, 4**
Signed by the great Bill Shankly as a skinny bespectacled youngster for Huddersfield, along with his great friend from Aberdeen, Gordon Low. Developed into one of the most dangerous forwards of the modern game with terrific reflexes, snapping up half chances and climbing steeple high to head balls home. In a cup game against Luton Town in 1961, the magical Dennis had already scored 6 goals when the game was abandoned. Amazingly enough, the Hatters won the replay. Moved from City to Torino in Italy for a season before returning with United, helping them to win two Championships and one F.A. Cup Final against Leicester City in 1963. Also represented the Rest of Europe against Scandinavia in 1964. Returned to Maine Road to finalise the illustrious career which had brought to the game one of soccer's great personalities.

IAN LAWTHER (Sunderland/Blackburn R. & N. Ireland/Scunthorpe U./Brentford/ Halifax T./Stockport Co.) **1**
This sharp shooter from the Belfast Crusaders turned professional with Sunderland in March 1958, going on to make debut and topping their scoring list the next season. Although netting 24 goals from 37 games the next term, was transferred to Blackburn Rovers for £20,000 when Brian Clough was brought to Roker from nearby Middlesbrough. After fairly consistent goalscoring, settled down to a role alongside the main strike force without losing too much efficiency. On retiring had played nearly 600 league games and been capped 4 times by N. Ireland.

TOMMY LAWTON (Burnley/Everton/Chelsea/ Notts. Co. & England/Brentford/Arsenal) **3**
Was signed on seventeenth birthday as a pro by Burnley, scoring a hat trick a few days later against Spurs. Tommy had the ideal build for a centre forward, being great in the air with a powerful shot and one of the most prolific natural scorers of all time. He quickly replaced the immortal Dixie Dean for £6,500 at Everton and moved on to Chelsea in 1945 playing in the memorable friendly against the Moscow Dynamos. Became the first £20,000 transfer when Notts County bought him in November 1947. Was still a threat to the best of defences, continuing to play for England. By 1952 his peak had passed him by which resulted in Brentford bringing him back to the capital. At the end of his footballing days Arsenal took Tommy from Brentford to help bring their younger players along before he moved on to Kettering in non league circles. Will be remembered in the best tradition of international centre forwards with 23 England caps to testify.

FRANCIS LEE (Bolton W./Man. C. & England/Derby Co.) **3, 4**
Effective probing, bustling, sturdy little forward could find a way through the best of organised defences, creating havoc in turn. Came out with Bolton where, on winning England youth honours settled down in striking role, eventually dropping into the second division with the once great Wanderers. Was seen by Manchester City as an important cog in their machinery, signing in October 1967 for a large fee and finally realising his latent talent at the highest level. With City won Football League Championship, F.A. Cup, Football League Cup and European Cup Winners Cup medals in putting the icing on his career. Finished with Derby County before going fully into business. Still holds the penalty record of 13 goals in a season 1971/2, also played for England on 27 occasions.



TONY LEIGHTON (Leeds U./Doncaster R./ Barnsley/Huddersfield T./Bradford C.) **3**
Started out with Leeds United, but after nearly three years without a first team appearance was given a free transfer to Doncaster Rovers in the summer of 1959. Made a mark in the fourth division, topping the Rovers' scoring lists in two out of three seasons, before being surprisingly given another free transfer, this time being snapped up by Barnsley. Not tall for a centre forward, but effective and adept in putting away half chances; very nippy across the ground in collecting goals albeit not in the first division. Huddersfield and then Bradford City also recognised his scoring talent before the striker left league football.

BILLY LIDDELL (Liverpool and Scotland) **2a, 3**
Powerful, extremely direct old fashioned outside left, the idol of the ''Spion Kop'' fanatics, Billy came to Anfield from Lochgelly Violet, the Scottish junior side. From the end of war until 1960 was a regular, playing nearly 500 games and scoring in a high proportion of them. Was commissioned during the war whilst serving in the R.A.F. Will be remembered as one of the great Liverpool favourites of all time, deservedly so. Played for the reds in the 1950 losing Cup Final against the Arsenal, also representing Great Britain against Europe in 1947. Billy is also a qualified accountant.

NAT LOFTHOUSE (Bolton W. & England) **2a, 4**
Depicted by journalists as the ''Lion of Vienna'' after the never-say-die approach which led to this dashing centre forward scoring a dramatic goal against Austria. A native of Bolton, Nat virtually followed Tommy Lawton into the local school side, finally capturing the great man's England place and gaining his first cap against Yugoslavia in 1951. Footballer of the year 1953, will also be remembered, although not with the great affection of Vienna, shoulder barging the Manchester United keeper into the net on the way to winning an F.A. Cup medal in 1958. Made a great comeback to England's attack at the age of 35 in 1959 against Wales and the U.S.S.R.

EDDIE LOWE (Aston Villa & England/ Fulham/Notts. Co.) **1, 2a**
Tall blond post war left half, very strong in the tackle, highly constructive with good ball skill made his way into league football with Aston Villa and soon gained three England caps. Was wartime amateur with the strong Athenian Leaguers, Finchley, where many admirers watched both Eddie and brother Reg perform before they jointly went to Villa Park. Seemingly lost his way with Villa before Fulham came for the brothers in May 1950, but soon found form again at the ''Cottage'' going on to achieve first division status in 1959, eventually being one of the oldest men playing in that league. Finished with Notts County just short of fortieth birthday and then became their manager.

DOUG LISHMAN (Walsall/Arsenal/Nottm. F) **3**
A great opportunist, both on the ground and in the air, who relished any challenge on the opposition's goal. He played mainly at inside left after joining Walsall, initially as a central defender, making the transition with aplomb. Was transferred to Arsenal for about £11,000 in May 1948, winning a Championship and F.A. Cup medal, before moving on to Forest in 1956. The memory of his overhead kick shaving the Newcastle crossbar in the 1951/2 losing Cup Final must still be fresh in the mind of any attending Arsenal supporter who remembers their side's ten men epic struggle. Lishman included amongst his honours an England 'B' cap as well as representing the Football League.

FRANK LORD (Rochdale/Crewe Alex./ Plymouth A./Stockport Co./Blackburn R./ Chesterfield/Plymouth A.) **3**
Another third division north centre forward discovery coming out with Rochdale in his teens as a steady goalscorer at Spotland without too much recognition outside of the third/fourth division until joining fellow leaguers Crewe Alexandra July 1961. Immediately broke the old club goalscoring record when netting 31 goals at Gresty Road. The Argyle, also looking for the goal touch, paid five figures to stave off relegation before letting him go to pastures new. This big, strong bustling forward never played in the top league, but would have been ideally suited as a target man in today's soccer.

JOHN McCUE (Stoke C./Oldham Ath.) **1, 2a**
Highly consistent, a thoroughly firm and stubborn full back who gave the opposing winger no change whatsoever from any match played. Discovered locally at the age of fifteen, turning professional during the war, he made first division debut on resumption of league soccer, going on eventually to play over 500 games for the Potters before finishing with Oldham Athletic. Incidentally, the young defender made 36 appearances in that first post war season, when Stoke finished in fourth position the highest league placing in the club's history.

BILL McGARRY (Port Vale/Huddersfield T. & England/Bournemouth) **1**
Thoroughly sound if seemingly unspectacular wing half, but a very solid tackler when the occasion demanded. Discovered by Port Vale during the war, it cost Huddersfield £15,000 when they took him from the Potteries in March 1951. At one time played 178 successive games for the Town before injury and was a member of the side that gained promotion from the second division 1952/3, famous for the fact that the whole defence in which McGarry had been prominent, was ever present. Played for his country 4 times to go with England 'B' and Football League honours before taking to football league management.

KEVIN McHALE (Huddersfield T./Crewe Alex./ Chester) **1**
Thought by many to be the future star of English soccer when making debut as a sixteen year old with the Town. Reckoned to be their finest post war product but soon seemed to be in the shadows of the brilliant Dennis Law, although amazingly had played over 200 league games by 1962/3. Spent the whole of Huddersfield career in the second division, before moving to Crewe, then finishing at Chester. As a boy prodigy, winning schoolboy international honours, he went on quickly to attain England youth status, but then drew a blank settling down to become an efficient team member, probably wondering where he went wrong.

JIMMY McILROY (Burnley/Stoke C. & N. Ireland/Oldham Ath.) **1, 2a, 4**
Made his mark with Glentoran as a highly skilled inside forward before being brought to Turf Moor by Burnley for £7,000. Marvellous scheming player, highly intelligent with great probing ability in opening up the opposition's defence. Had almost telepathic partnership with Danny Blanchflower when playing for Ireland, which he did 55 times. Joined Stoke to mastermind their return to the top league in 1963 after gaining a League Championship medal with Burnley in 1959/60. Played for Great Britain versus Rest of Europe in 1955, which added to his reputation of being able to impart his personality at the highest level. Finished with Oldham Athletic in season 1967/8.

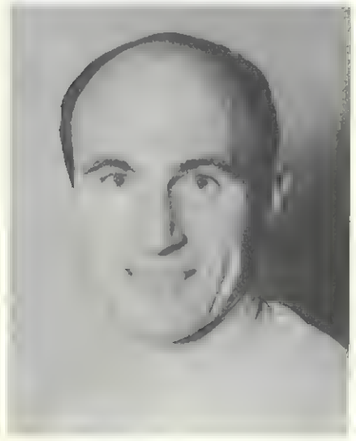
DAVE MACKAY (Tottenham H. & Scotland/ Derby Co./Swindon T.) **5**
One of the great swashbuckling heroes of modern soccer, indomitably surmounting serious injuries which threatened his future who showed tremendous character throughout, finally being recognised as player of the year after joining Derby County. Really a player of several careers, firstly the one with Hearts where initially playing for Scotland, then to Spurs for a giveaway fee, becoming the finest hard tackling wing half in Britain, picking up 3 F.A. Cup winners medals, a Championship medal from the famous double year and European Cup Winners Cup medal from the destruction of Athletico Madrid 1963. His third career was with Derby County when Brian Clough signed him to lead the Rams back to the first division. That being achieved, later managed Derby to the first division title 1974/5.

BOB McKINLAY (Nottm. F.) **1, 2a**
Highly rated centre half of the day, well over 6'0'' tall, with strong build, was recommended to the Forest by his uncle Billy who had played pre-war at the City ground. Surprisingly never played for Scotland, but was highly rated enough to be thought by many, worthy of selection. As an ever present player, was a major factor in Forest achieving promotion to the first division as runners up 1956/7 and two years later was outstanding in the F.A. Cup Final win against Luton Town. Immensely powerful in the air, this great player went on to make 611, plus 3 substitute, appearances in constituting the club's record.

ALF McMICHAEL (Newcastle U. & N. Ireland) **2a, 4**
Red haired, dynamic left full back who, along with George Hannah, was transferred from Linfield to Newcastle United for a combined fee of £20,000 September 1949. This move followed sterling performances back home in the Irish League, but it was not until arriving at St. James' Park that the youngster was capped for his country, going on to become captain and collecting 40 full caps. Won an F.A. Cup winners medal from the wonderful game against Arsenal in 1952. Not terribly tall for a defender, but was tenacious in the tackle, very constructive when in possession and a highly regarded member of the United rearguard, making over 400 appearances during stay with them.

TERRY MEDWIN (Swansea/Tottenham H. & Wales) **4**
When this brilliant player signed from Swansea for a fee of £18,000 in April 1956, the Spurs resolved their right wing problems of the previous season when using seven different men. The fair haired youngster had previously won a regular place at the Veitch field after gaining Welsh schoolboy honours and within two seasons had added a full cap to collection. Signed for Tottenham, predominantly because the Swans were using his skills at centre forward and, although being their leading scorer, he favoured the wing position. Career was unfortunately cut short by injuries, and Terry only played 14 times during the "double" season, but he did collect an F.A. Cup winners medal in 1962 against Burnley before leaving the game with 30 Welsh caps also under his belt.

JIMMY MELIA (Liverpool & England/ Wolverhampton W./Southampton/ Aldershot/Crewe Alex.) **1**
Brilliant scheming inside forward who after winning schoolboy international honours signed professional for his native Liverpool November 1954. Was on the verge of full honours, over a long period being in the shadow of the great Johnny Haynes, but eventually was capped twice by England. With Liverpool he played a leading role in midfield where he was instrumental in them coming back to the top flight as second division champions 1961/2. Had short spell at Molineux trying to revive a once great side, before moving on to Southampton November 1964, and a season later helped them into the top sphere for the first time in that club's history. Before close of career became far more identified in midfield although earlier when with Liverpool had scored a fair number of goals.



JOE MERCER (Everton & England/Arsenal) **5**
A really outstanding wing half with a biting tackle who read the game as well as any other. Joining Everton as a spindly legged youngster from Ellesmere Port, Joe had gained a Championship medal and established himself in the England side before the war clouds came. His many qualities helped in preserving a future which seemed doomed with a knee injury. In one of the great romance stories of the game, Tom Whittaker, Arsenal's ex physio and new manager, took Mercer to Highbury for £7,000, his captaincy being vital to the Gunners right up to 1954 when he broke a leg. In that period two League titles, one winning, one losing F.A. Cup Final and a player of the year award were the bonuses of a man seen by many playing on borrowed time. Later he became a great manager, mainly being remembered for his association with Malcolm Allison and Manchester City.

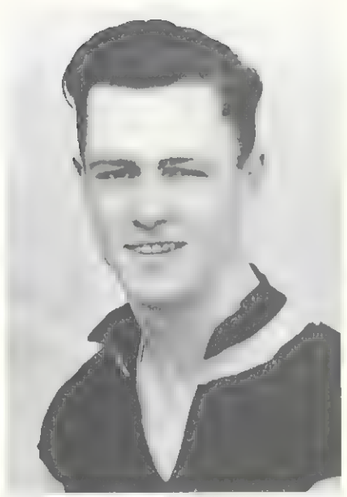
GIL MERRICK (Birmingham C. & England) **2a**
The custodian of the Birmingham City goal immediately after the war, following his idol the great Harry Hibbs. Later, Gil went on to emulate his idol by being capped for England in 1951/2 and then playing a further 22 times. Very cool and composed when on duty, was very unfortunate to have been England's goalie during the 1953, 6-3 thrashing handed out by the marvellous Magyars, Hungary. Standing 6'1", mustachioed and elegant, Gil really looked the part, the City goal remained for long spells intact as positional sense saved the day again and again. Twice helping Birmingham to promotion, he was one of the most loyal servants and will always be remembered as such.

VIC METCALFE (Huddersfield T. & England/ Hull C.) **2a**
Vic was a direct, old fashioned outside left who always looked dangerous, especially after cutting inside the full back. Could also use a fine left foot cross and Jimmy Glazzard must have benefitted tremendously from regular scoring in the Town's promotion drive from Division II in 1952/3. The son of a Yorkshire rugby star, he joined Huddersfield during the war, making his debut immediately on resumption of the normal league programme. Surprisingly, was capped only twice, but one has to remember the surfeit of class wingmen operating at that time. Finally, at the age of thirtysix, he moved on to Hull City to complete within a season or so, a fine career spent mainly at the highest level.

JACKIE MILBURN (Newcastle U. & England) **2a, 3**
Known to thousands of Tynesiders as "Wor Jackie", had rocket-like shooting ability, coupled with tremendous acceleration, which was always used to great advantage. The proud holder of three Cup winners medals, after using Wembley as his own stage — on which he excelled. He won his first cap in 1948, which was followed by a further twelve appearances. He is most remembered for his two Cup Final goals against Blackpool in 1950/1, along with a great headed goal against Manchester City in the 1954/5 Cup Final. Often played at outside right but was really effective down the middle of the pitch; in any event was a danger to the opposition wherever he played.

JIM McNAB (Sunderland/Preston/ Stockport Co.) **1**
Was discovered by Sunderland when playing Scottish junior soccer, signing professional just past seventeenth birthday, June 1957. Within a season had made debut at Roker, becoming a regular 1959/60, missing only 20 games in six seasons. Given the opportunity, developed into a keen tackling half back in the best traditions of the club, and in 1963/4 helped the Rokerites achieve first division status again, making 37 league appearances. Transferred to Preston March 1967, where he collected a third division medal 1970/1, before going on to complete career with Stockport County.

JOHNNY McNICHOLL (Newcastle U./Brighton/ Chelsea/Crystal P.) **1**
One of the unsung heroes of Chelsea's first League Championship win 1954/5; was a typical Scottish inside forward type, having great craft, being constructive and who could really shoot. Not making any appearances with Newcastle, was transferred to Brighton for £5,000, quickly becoming one of the best ball players in the third division south, and when Ted Drake took over Chelsea the first player he signed was McNicholl for £15,000. Had great perception, being an ideal team mate for Roy Bentley and in the title winning season played an invaluable 40 games for the Blues. Was allowed to leave Stamford Bridge in March 1958 playing nearly 200 games for neighbours Crystal Palace before joining their non playing staff.



PETER McPARLAND (Aston Villa/Wolverhampton W./Northern Ireland/Plymouth A.) **4**
Powerful, hard shooting, direct left winger who, after making debut for Northern Ireland against Wales 1953/4, represented his country a further 33 times. Signed by Villa from Dundalk, developed into a goalscoring winger, twice topping their scoring lists before being transferred to close rivals Wolves for £30,000 January 1962. Never settled at Molineux and a year later was on the road to Plymouth before closing career. Remembered for Villa's winning goal against Manchester United in the 1957 F.A. Cup final where, in scoring, he injured the keeper Roy Wood who subsequently was carried off.

WILF MANNION (Middlesbrough & England/ Hull C.) **5**
An inside forward who spent most of his career with Middlesbrough before being transferred to Hull City to spend his twilight years in the game. Developed through the South Bank nursery and really came to the fore after returning from war service with the Green Howards Reg't. He became a magnificent schemer, playing brilliantly for Britain versus Europe in 1947. He seemed to have come to stay, sturdy and fair haired, standing out from the crowd, but unfortunately got himself dragged into seemingly permanent dispute with Middlesbrough, who did not release him. This hindered his career, soon losing his England place. After Hull City, Wilf drifted into the non-league where his star never shone again.

LES MASSIE (Huddersfield T./Darlington/ Halifax T./Bradford Park Av./Workington) **1**
Skilful inside forward who came to the fore with the Town when Bill Shankly became manager in 1956/7, having previously been on the club's books for over three years. Made debut that season with fellow Aberdonian Dennis Law and the other boy wonder Kevin McHale, going on to play over 300 games at Leeds Road. Quite a goalscorer earlier on, when heading the scoring lists for three seasons, but eventually settled into a wing half midfield role producing typical Scottish craft in his play, mixed with good distribution and control. After leaving Huddersfield played out the rest of footballing days in the lower reaches.

STANLEY MATTHEWS (Stoke C./Blackpool & England/Stoke C.) **4**
"The wizard of the dribble", one of the many superlatives used to describe football's greatest living legend, who received a Knighthood whilst still playing. Son of a professional boxer, he started with home town side Stoke City as a brilliant schoolboy prodigy and swept all full backs off their feet as the most tantalising of outside rights. Sensationally transferred to Blackpool in 1947 for £11,500 and getting two cup final runners up medals achieved a life time ambition helping Blackpool beat Bolton in the 1952/3 F.A. Cup Final known as the "Matthews Final". Went home to Stoke, helping them back into the first division and remarkably playing in that league past his fiftieth birthday. The game's most mentioned personality, he will always be remembered for his ball control and body swerve, also as the greatest goal provider in the history of football.

STAN MILBURN (Chesterfield/Leicester C./ Rochdale) **1**
Born and developed in Ashington with three famous footballing brothers – George, Jim and John, alongside cousin Jackie Milburn, it was hardly likely that anything but soccer would suffice. During playing career, he tended to be a good clubman and is most probably the only player to obtain three testimonials from separate clubs. He toured Canada with the F.A. in 1950 and obtained a division two medal with Leicester City in 1954. Will be remembered as the full back who, in trying to clear the Leicester lines, collided with his own defender Jack Froggatt and between them scored a unique double own goal. Always constructive, reliable in the tackle, was unlucky not to progress beyond an England 'B' cap and Football League representative honours.

LEN MILLARD (W.B.A.) **2a**
Signed as an amateur at the Hawthorns in 1939, turning pro in 1942 originally as a forward, became a really reliable full back missing very few games until retiring after breaking the immortal Jesse Pennington's Albion appearance record. The highlight of his career was in leading the Throstles to victory at Wembley in the 1953/4 F.A. Cup Final against Preston. Not a classy player, but a highly efficient one and an object lesson to any aspiring youngster in dedication and perseverance.

ARNOLD MITCHELL (Derby Co./Nottm. F./ Notts. Co./Exeter C.) **2a**
"Play anywhere" clubman who joined Exeter City after being rejected by Derby County and both Nottingham clubs, although he did make an appearance for the County before going on to St. James Park, July 1952. Hard working, enthusiastic, non stop player who appeared in virtually every position for Exeter on way to collecting club appearance record of 495. Was at one time put on the "open to offer" transfer list, a mistake which was quickly rectified, and in 1963/4 Mitchell was instrumental in getting the Grecians promotion into the third division, the highlight of his career.

STAN MORTENSON (Blackpool & England/ Hull C.) **3**
As an inside forward or centre forward, was a great hero of many England games, especially against Italy in Turin 1948 where he achieved acclaim after a wonderful performance. Originally, was nearly rejected for being too slow for the pro. game, but sharpened up during the war. Stan recovered from a Wellington air crash and proceeded to score four goals against Portugal in full cap debut for England. Being a superb opportunist and always imbued with great courage, he will forever be associated with battling fights back and although the 1953 Cup Final is remembered as the "Matthews Final", "Morty" scored a hat trick. Apart from that, he played in two others, not being so lucky and will be remembered for scoring 24 goals in 25 Internationals.

BOB MORTON (Luton T.) **2a**
The closest this terrific clubman came to full international honours was as acting reserve, after representing the England 'B' team. This was scant reward for a highly meritorious career spent wholly in the service of the Hatters, playing just short of 500 league games. Real utility player who could play equally well at centre half, wing half, or centre forward, as proven in 1954/5 with vital goals helping Luton's promotion drive to the first division as runners up, after Jesse Pye had been allowed to move on. A member of the side that lost to Nottingham Forest in the 1959 F.A. Cup Final following the wonderful games in the semi against Norwich City of the third division.

JIMMY MULLEN (Wolverhampton W. & England) **2a**
Brilliant, long-standing outside left, blessed with an extremely powerful shot. He joined Wolves straight from school in 1937 after winning England schoolboy honours, making his debut in 1939 when only 16. Played in two World Cups as well as winning Football League F.A. Cup medals. A perfect foil to Johnnie Hancocks, his long time clubmate, they together helped destory the foreign club invasions of the mid 1950's. He had retired from the hurly burly of league soccer by the end of the 1950's, being rememberd, amongst his other attributes, as a great clubman.

ALAN MULLERY (Fulham/Tottenham H. & England/Fulham) **1**
Very accomplished wing half, complete with football brain and driving aggression, who was capped by England 35 times whilst at White Hart Lane. Started out with Fulham as a junior, establishing himself in their promotion team 1958/9 and making 14 appearances, became a regular and collected England under 23 caps, before signing for Spurs in March 1964 in a £72,000 deal. At Tottenham, Alan slotted into the right half position vacated by the wonderful Danny Blanchflower, naturally taking some time to stamp his own authority on the team, but going on to collect an F.A. Cup winners medal from the less than memorable all London final against Chelsea 1967. Returned to Fulham before going into soccer management.

BERT MURRAY (Chelsea/Birmingham C./ Brighton/Peterborough U.) **1**
Came to the fore at Stamford Bridge when replacing the brilliant Peter Brabrook at outside right, being commonly known to fans and players alike as "Ruby". Collected several England under 23 honours to add to schoolboy and youth international caps before Chelsea allowed the young winger, in a Tommy Docherty clear out, to be signed by Birmingham City. But it was with Peterborough that "Ruby" finally collected a Championship medal in helping the club climb out of the fourth division after being placed there in 1968/9, having had 19 points deducted for offering bonuses to players.

BOBBY MURRAY (Stockport Co.) **2b**
Long service wing half with the County after signing from Scottish juniors Inverurie in November 1951 and going on to play 465 games before leaving Edgeley Park at the end of 1962/3. In that period missed only 40 odd matches, mainly due to injury, consistently playing well and prompting the team. Had a rather less than auspicious start in the F.A. Cup third round 1952/3 when Stockport was the club were beaten 2-1 by the Isthmian Leaguers Walthamstow Avenue who came close in the next round to putting out the mighty Manchester United at Old Trafford.

JIMMY MURRAY (Wolverhampton W./Man. C./ Walsall) **3**
Only 5'9" tall centre forward who fitted in nicely to the Wanderers attacking pattern, replacing the injured Roy Swinburne as regular leader of the attack in 1955/6. Followed great friend Peter Broadbent to Molineux after being spotted by chief scout George Poyser when playing in Dover schools soccer. Became quite a prolific marksman, often being on the end of colleagues, promptings, just adding the final touch but showing no little skill along with verve and dash. Collected two championship medals plus an F.A. Cup final medal from the win against Blackburn in 1959, before signing for Manchester City for £27,000 in November 1963. Holder of England under 23 honours, also represented the Football League.

TERRY NEILL (Arsenal/Hull C. & N. Ireland) **4**
Well built centre-cum-wing half who signed for Arsenal from Bangor, Northern Ireland, December 1959. In the main spent most of career at Highbury as utility player although by 1965/6 had gained a regular place alongside Ian Ure in the heart of the Gunners defence. In July 1970, Hull City provided the young man, who was then chairman of the Professional Football Association, with an opportunity to make his way into soccer management. Before going fully into the manager's chair he had played over 100 league games for the Tigers and had appeared 59 times for Northern Ireland.

JOHNNY NEWMAN (Birmingham C./Leicester C./Plymouth A./Exeter C.) **1**
Tall sturdy defender who in seven years at St. Andrews only made 59 appearances, mainly acting as deputy to the brilliant Trevor Smith. Sensationally on the eve of the 1956 F.A. Cup Final Jack Badham was declared unfit and the youngster stepped up to collect a losers medal from the game against Manchester City. Was transferred to Leicester City before joining Plymouth Argyle January 1960, going on to skipper the Pilgrims and playing just short of 300 appearances in the colours. Was steadfast and durable, ideally suited to the lower divisions where he could exert some influence over younger players before finishing with Exeter City.

JIM NICHOLSON (Man. U./Huddersfield T. & N. Ireland/Bury) **4**
Brilliant United junior star who represented Northern Ireland versus Scotland, November 1960, when only 17 years 8 months old, eventually playing 41 times. That same season made United debut, but not until leaving for Huddersfield Town December 1964 did the young man get regular first team soccer to wet his appetite. In 1969/70 led the Town back to the first division, a brilliant achievement. Was a strong tackler, very sound, collecting 31 caps whilst at Leeds Road.

TOMMY NORTHCOTT (Torquay U./Cardiff C./ Lincoln C./Torquay U.) **1**
Great Torquay discovery who graduated through their junior ranks gaining England youth international honours. Was transferred to Cardiff City, playing in most of their forward positions during stay in the first division, and then signed by Lincoln City, who began to recognise his latent goalscoring touch. A chunky stocky forward with the ability to keep the line moving with accurate passes to both flanks, he finally came home again to Plainmoor November 1957, and in second spell with the club played 347 games scoring 125 goals, arguably one of the Gulls' best products.

MEL NURSE (Swansea C./Middlesbrough & Wales/Swindon T./Swansea C.) **1**
Another of the brilliant Swansea youngsters to come off their conveyor belt, signing professional June 1955 after appearing for the Welsh schools. Nearly 6'2'', of giant stature, made debut very early, but not until 1958/9 did the young centre half gain a regular place, eventually playing over 150 games before being transferred to Middlesbrough for £25,000 October 1962. When signing for the Boro Mel became the fourth player to do duty in the centre half position that season. Only missed a handful of games during the next three years, had stabilising effect on the defence, but on getting restless came back south with Swindon Town on route to South Wales.

GEORGE O'BRIEN (Leeds U./Southampton/ Orient/Aldershot) **3**
Small inside forward, who packed great shooting power in either boot. Became one of the Saints great bargains after not shining too brightly with Leeds United who had purchased him from Dunfermline, was allowed to go to the Dell for a moderate fee in July 1959. Won a third division medal during first season, scoring an invaluable 23 goals, and before leaving Southampton for Orient in March 1966 had scored 154 goals from 243 games. Whilst at the club formed great partnership with the effervescent Terry Paine, together the best duo in the second division.

JOHN O'ROURKE (Chelsea/Luton T./ Middlesbrough/Ipswich T./Coventry C./ Q.P.R./Bournemouth) **3**
Speedy centre forward who was snapped up by Chelsea when freed by Arsenal, where he had been a junior. Never made a league appearance whilst at Stamford Bridge, although got a League Cup debut in a losing game to Swindon. Was allowed to join Luton Town in December 1963 where in three years scored 64 goals from 84 games. Joining the Boro in July 1966, was second in the third division scoring charts with 27 goals, helping the Teesiders to attain second division status, and moving on in February 1968 was able to assist Ipswich Town in returning to the top flight that season. On reflection obviously not such a heavy goalscorer in the first division, but possessing a more than useful record, being capped by England at under 23 level.

SID OWEN (Birmingham C./Luton T. & England) **5**
Was signed for a modest £1,500 from Birmingham City as a wing half in the summer of 1947, developing into one of the great stopper centre halves after being converted by the manager Dally Duncan, who saw in the young man tremendous possibilities. Tall imposing and red headed, Sid became highly polished at the centre of the Town's defence where, reaching apeak in 1954, he was capped 3 times by England in close season on the Continent. Unfortunate in playing for country when England conceded 12 goals without winning any of the three games, he never played again. Retired after having appeared in the losing F.A. Cup Final for Luton against Forest in 1959, going out whilst still at the top.

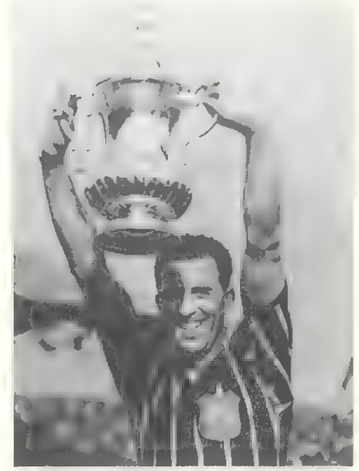
MAURICE OWEN (Swindon T.) **1, 2b**
Blond centre forward of great ability, who was a wartime chindit in Burma under Wingate, and on demob came home to play for Abingdon, the local side. Was soon spotted by Swindon Town, signing professional December 1946 and in making debut against Watford 11th January 1947, the new boy celebrated by scoring a hat trick. Became much sought after as a speedy, fine opportunist with an eye for the goal and many transfer offers were refused. Never developed into an outstanding striker and later in career settled down in the centre of the defence, where his experience was invaluable.

DEREK PACE (Aston Villa/Sheffield U./Notts Co./Walsall) **3**
Nicknamed ''Doc'', rather on the small side for a centre forward, Derek was signed from the Bloxwich Strollers. Was hardy and tough a player as one could wish to see, a real problem for any defender to cope with, but opportunities were limited at Villa, albeit scoring on debut in 1951. After not getting selected for the Villa's, 1957 cup side, he moved on to Sheffield United December 1957 and, beginning to show a real opportunist trait, scored 140 goals in 253 appearances. Was ever present when the club achieved first division status again, scoring 26 goals. Was United's top scorer for six seasons before moving to Notts County, then Walsall.

JACK PARRY (Derby Co.) **2a**
''Play anywhere'' type, Jack, elder brother of Ray, marked his 1948/9 Derby County debut with a goal. A really good clubman, locally born, he was equally effective at wing half. Never attained the heights of brother Ray's career, but went on to make 478 league appearances, a County record. Was a member of the Rams' sides that were relegated from first to third division north within two years, but gained a third division north medal 1956/7. In Championship season, Jack scored 24 goals from 34 games — the most telling feature of the club's successes.

RAY PARRY (Bolton W. & England/Blackpool/ Bury) **1**
Inside-cum-wing forward brilliant schoolboy star who had two brothers, Glyn and Jack, already in league football with Derby County. Another brother, Cyril, followed Ray into the England schools side, later playing for Notts County, but Ray preferred Bolton, signing professional January 1953. Had made debut as the youngest ever first division player versus Wolves on 13th October, 1951, aged 15 years 207 days. Having skilful deceptive left foot, gained 2 England caps to follow under 23 caps and youth caps, and also represented the Football League. Picked up F.A. Cup winners medal 1958 before being transferred to Blackpool October 1960 for £25,000. Later moved to Bury where he became player coach.

ROY PAUL (Swansea C./Man. C. & Wales) **4**
Many times capped Welsh international who joined Manchester City for £25,000 at the age of 27 upon returning from the unsuccessful journey to Bogota in July 1950. Well built, compact and strong; a very constructive wing half who had previously played for Swansea, although in a variety of positions. Whilst at Maine Road had to curb his attacking tendencies to fit the Manchester City ''deep lying centre forward plan'', becoming an inspiring skipper. Captained the City at Wembley two years running; in 1955 losing to Newcastle United, but a year later gaining a winners medal from the ''Trautmann'' final, when the keeper played out the game with a broken neck.



ALAN PEACOCK (Middlesbrough & England/ Leeds U./Plymouth A.) **3**
Prolific goalscoring forward made debut for the Boro in same season as Brian Clough, later forming a double spearhead, but being rather overshadowed by the other man. In 1957/8 began to play regularly and in the next four seasons the partnership produced 219 goals before Clough moved to nearby Sunderland. Over 6'0'' tall, Alan was extremely effective and, on becoming leader of the Teessiders' attack, scored a further 60 goals, also collecting England caps' before being signed by Leeds United February 1964 for £53,000. Unfortunately his career became dogged with injury, and although still scoring heavily, he played less than frequently, eventually leaving for Plymouth Argyle.

STAN PEARSON (Man. U. & England/Bury/Chester) **3**
Manchester United starlet on outbreak of war who had to wait before winning his first England cap against Scotland in 1948. A notable opportunist with good distribution, also a great forger, Stan scored in the winning Cup Final of 1948 against Blackpool. An inside forward who, although unspectacular, was an important cog in the United machine, winning a Championship medal in 1952 before moving to Bury in 1954. Still playing nearly as well at the age of thirtyfive Stan carried on until season 1958/9, finally in the colours of Chester. Played eight times for England, also represented the Football League.

GEORGE PETHERBRIDGE (Bristol R.) **2b**
Terrific little outside right, only 5'4½'' tall, extremely fast and dangerous. Could pack quite a shot for one so small, occasionally playing on the opposite flank. Gained a third division south medal 1952/3 when playing 39 games, and helped the Rovers into the second division for the first time in the club's history. In 1950/51 the club reached the sixth round of the F.A. Cup, with a significant part being played by the dynamic winger, before going out to the eventual winners Newcastle United after drawing the first match at St. James' Park. Will be remembered at Eastville for his effervescent ability and great sportsmanship.

TED PHILLIPS (Ipswich T./Orient/Luton T./Colchester U.) **3**
One of the most prolific goalscoring inside forwards of the post war years; made his debut for Ipswich in 1953/4, but not until 1956/7 did the tall, strongly made player become a regular, scoring 41 goals in as many games. This sensational form was one of the significant factors in getting Alf Ramsey's team out of the third division south that term. The next two seasons Ted surprisingly did not play much, but in 1959/60 he came back ''with a bang'' and the next season scored 30 from 42 appearances, this time collecting a division two winners medal. 1961/2 brought Phillips 28 goals from 40 appearances and this time a League Championship medal for the first division. In his total career, Ted collected just short of 200 league goals with a 57% scoring rate.

FRED PICKERING (Blackburn R./Everton & England/Birmingham C./Blackpool/Blackburn R./Brighton) **3**
Tall, well made player who came through the youth squad at Ewood Park as a full back, signing professional forms January 1958, and making debut the next season in the defence. The Rovers were well served in that department and opportunities for the youngster were limited, but on being switched to leader of the attack he developed into a natural. Transferred to Everton as the answer to their scoring problems March 1964 and the next season collected 27 goals, the best by any Everton player in the first division since Tommy Lawton hit 25 in 1938/9. Unfortunately missed the 1966 F.A. Cup Final against Sheffield Wednesday owing to injury, but later went on to play for three further clubs, retiring on trial with Brighton.

JACK PITT (Bristol R.) **2b**
Highly polished, thoughtful wing half who in eleven post war seasons only missed 37 games. Originally on the books of West Brom but during the war appeared for Bath City, turning professional for the Rovers on resumption of league football. Was finally made skipper in 1955/6 having gained a third division south medal 1952/3 and having played in the Rovers' greatest ever F.A. Cup run three years previously. Enthusiastic in his quest to achieve success at Eastville, Jack was a tough tackler who could produce telling passes. Probably recognised not only as one of the club's most consistent players but also one of their greatest.

RAY POINTER (Burnley & England/Bury/Coventry C./Portsmouth) **3**
Goalgetting, tireless, blond haired centre forward, who was picked up by Burnley from Dudley Welfare in the north east after being turned down in a Blackpool trial. Two months after joining the club in August 1957 Roy made hisdebut winning League Championship medal 1959/60 and going on to play in the losing 1962 F.A. Cup Final against the mighty Spurs. That same year was given 3 England caps but by the next season was no longer a regular at Turf Moor, losing England place into the bargain. Later, not settling with either Bury or Coventry, he moved to Portsmouth, playing more in a midfield role.

HARRY POOLE (Port Vale) **2b**
After playing for Oxford City in the Isthmian League whilst doing national service, Harry went home to the Potteries to sign for Port Vale April 1956. Appeared mainly at wing half in earlier games for the club, later settling down at inside forward. Won a fourth division medal 1958/9 making 35 appearances and scoring 17 goals. Later in career reverted back to wing half, playing over 450 league games.

RONNIE POWELL (Man. C./Chesterfield) **2b**
Was a young Manchester City goalie up from Wales who signed professional November 1948. Played 12 games the next season following the retirement of Frank Swift, but was replaced when Bert Trautmann was discovered with St. Helens and was drafted into the City side immediately. Because it was obvious that the great German keeper was not going to be displaced, Powell was allowed to move to Chesterfield June 1952, where making an initial run of 284 league games without a break. Eventually played 471 times for the Spireites before retiring. Not very tall for a keeper but had great agility coupled with good handling.

EDDIE QUIGLEY (Bury/Sheffield W./Preston/Blackburn R./Bury) **3**
Well travelled player, who at one time was the most costliest when being signed by Preston for a fee of £26,000 December 1949. A real general in midfield, he utilised the crossfield pass to supreme effect and with stocky build was difficult to shake off the ball, always probing the defence in looking for an opening. First made a name with Bury, scoring 5 goals on debut at centre forward, before joining Sheffield Wednesday for £12,000 and collecting 50 goals from 74 appearances whilst at Hillsborough. Never quite made it at Deepdale, quickly moving on to Blackburn Rovers where he was again highly successful in finding the net, before going home to Bury. Highly effective in midfield, with tremendous goalscoring talent, Eddie amazingly only achieved England 'B' honours.

RON RAFFERTY (Portsmouth/Grimsby T./Hull C./Aldershot) **3**
Spotted by Portsmouth playing in the Isthmian league with Wycombe Wanderers, Ron joined the Fratton Park playing staff July 1954. Did not get many opportunities to shine in Pompey's attack and, although he had already impressed the fans as a quicksilver goal snatcher of the future, was allowed to join Grimsby in December 1956. During seven years with the Mariners was a prolific scorer, and his 34 goals in 1961/2 helped the club back into division two as runners up to his old mates, Pompey. The next season the goal touch dried up and he was transferred to Hull City for £10,000 in the summer of 1963, later playing for Aldershot.

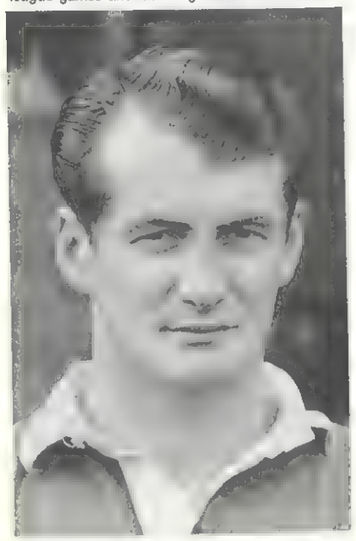
ALF RAMSEY (Southampton/Tottenham H. & England) **4**
Nicknamed ''The General''; a strong, polished, distinguished right back, whose placing of the ball from defence to attack was meticulous. Capped by England 32 times, making his first appearance in 1948 when with Southampton, he played 28 consecutive games internationally. Spurs acquired this brilliant player in May 1949 for a fee of £21,000 and he responded by missing only three games in the two successive seasons, during which the Spurs won first and second division titles. On retiring, had marvellous baptism into league management with little Ipswich, winning three Championships before taking the England job which culminated in the winning of the World Cup 1966. Later knighted for services to soccer.

RONNIE REES (Coventry C./W.B.A./Nottm. F. & Wales/Swansea C.) **4**
One of the outstanding discoveries of 1962/3 by Coventry City, being selected for the Welsh under 23's after only 10 league games. Natural outside left with plenty of flair, speed and a beautiful body swerve. Gained a third division championship medal 1963/4 and a second division one 1966/7, the club going into the top division for the first time in its history. The next season transferred to W.B.A., but on being cup tied did not play in their F.A. Cup winning side and within a year had moved to Forest, later finishing back in native Wales with Swansea. Played 39 times for the Welsh international side; should have been one of the greats at club level.

DEREK REEVES (Southampton/Bournemouth) **3**
Holder of the third division post war scoring record whilst at Southampton 1959/60, collecting 39 goals from 46 ever present games as the Saints went nap gaining promotion to the second division. Not very tall, was a most prolific goalscorer after being picked up from the local Bournemouth Gasworks team in December 1954 and making debut before that season finished as an inside forward. Switching to centre forward, he topped the club's goal charts in four consecutive seasons and becoming explosive around the penalty area picking up any half chance whatsoever. Goals began to dry up in the second division resulting in a transfer to near neighbours, Bournemouth, although Derek never found the net again with such regularity.

TONY RICHARDS (Birmingham/Walsall/Port Vale) **3**
Discarded by local side Birmingham City after signing professional December 1951, was snapped up by Walsall in the summer of 1954. Not tall for a centre forward, but strongly made, he went on to score more goals for Walsall than anyone had done previously, including the legendary Gilbert Alsop. Scoring goals consistently over a period of nine years was probably the biggest single factor in the club advancing its status from division four to the second in 1960/61. Before leaving for Port Vale, Tony had topped the scoring list six times and produced displays of the highest calibre in the art of finishing.

DICK ROBINSON (Middlesbrough/Barrow) **1**
A product of Middlesbrough wartime junior sides, Dick soon made the grade in post-war soccer as a stylist with plenty of dash and stamina. One of the coolest of players, he formed a full back partnership at Ayresome Park with the great George Hardwick, captain of England, and many shrewd judges at the time reckoned he would follow his team mate in that direction, although he did collect Football League representative honours. A nephew of the north east's famous Smith brothers, Jack and Billy, who played for Portsmouth along with the great Seph of Leicester. Completed career in the north west with Barrow, playing a total of 525 league games and finishing as a centre half.



DON REVIE (Leicester C./Hull C./Man. C. & England/Sunderland/Leeds U.) **5**
Came to the fore as one of the vital links in Manchester City's deep lying centre forward plan of the mid 1950's, which really reflected the way the Hungarians were playing. Before that Don had begun with Leicester City, unfortunate in missing the 1949 F.A. Cup Final against Wolves due to injury. From there the call came to help Raich Carter rejuvenate Hull City, going on to Maine Road in 1951. After a less than auspicious start, the advent of Bobby Johnstone from Hibs created the link needed to produce the ''Revie Plan''. One winning Cup Final medal against Birmingham City in 1956 must have compensated for a losers medal against Newcastle the year previous Revie, after calling in on Sunderland, moved on again to become player manager at Leeds United. Latterly managed England but left the post in unfortunate circumstances.

JOHN RITCHIE (Stoke C./Sheffield W./Stoke C.) **3**
Stoke City bargain buy from Southern Leaguer's Kettering Town, June 1962, who took over as leader of their attack in October 1963, soon getting amongst the first divisions leading scorers. 6'1'' tall, strong and purposeful, the young giant cracked in 64 goals before surprisingly being allowed to move to Wednesday for a fee of £70,000 November 1966. Never really settled at Hillsborough, coming back to the Potteries in July 1969 although suspected of being past his best. A rejuvenated Ritchie was instrumental in helping Stoke beat Chelsea in the Football League Cup Final 1972, going on to score a further 71 league goals whilst at the Victoria ground.

BOBBY ROBSON (Fulham/W.B.A. & England/Fulham) **1**
First joined Fulham in 1950, later forming part of the brilliant trio with Johnny Haynes and Bedford Jezzard, for whom Newcastle once offered a record fee which was turned down. Constructive, sound and very stylish, was great going forward excelling either at wing half or inside forward. Transferred to the Albion for £25,000 in March 1956 and was capped two years later, playing 20 times for England before coming home to Fulham in August 1962 for a fee of £20,000. On retiring from league soccer had made 584 appearances, going on to become highly successful manager with Ipswich Town.

ARNOLD RODGERS (Huddersfield T./Bristol C./ Shrewsbury T.) **3**
Made debut at centre forward in the first division for Huddersfield against Charlton Athletic, playing a further 28 times before joining Bristol City in October 1949. Forming a dynamic inside forward partnership with John Atyeo, helped the Robins take the third division south title in 1954/5. Moved on in 1956 to Shrewsbury Town, finishing the season before retiring. Father to David who later played for Bristol City, turning pro in 1969 after winning schoolboy honours.

JOHN O. ROWLAND (Newport Co.) **2b**
Tall, well made wing half who signed for the County June 1958, following prominent displays for Lovells Athletic in the Welsh League. Within a season had been selected for the Welsh under 23's against Scotland, only just qualifying on birthdate. Consistency was the key factor in his football make up, for in a nine season spell until leaving the game at the end of 1968/9, Rowland only missed 18 games, a remarkable achievement. A thoughtful constructive defender who assisted others in scoring rather than putting his own name on the charts.

ARTHUR ROWLEY (W.B.A./Fulham/Leicester C./
Shrewsbury T.) **1, 3**
Younger brother to Jack, of England fame, Arthur made his own reputation as the most prolific English goal scorer of all time, scoring a record 433 in a career stretching from 1946-1965. Hard to understand why England 'B' and Football League honours were not followed by a full cap. Played a leading role in getting first Fulham and then Leicester City into the first division. Beginning as an outside left with the Throstles, did not show to true effect goalscoring possibilities until transferred to Fulham in exchange for Ernie Shepherd in December 1948 and converted to inside forward. Later became player manager to Shrewsbury, still scoring prolifically.

JACK ROWLEY (Wolverhampton W./
Bournemouth/Man. U. & England/
Plymouth A.) **3**
Brother to Arthur, also of goalscoring fame, Jack was prominent for the fact that in six England appearances he occupied all the forward positions except outside right. Really rose to fame with Manchester United as a sharp shooter, being dubbed ''Gunner'' by his supporters who were delighted with Jack's net bulging practices. Not much finesse, but very direct, was ideal for United's post war requirements which were in completing a brilliant attack. Before going to the Argyle as player manager in 1955, Jack had picked up a Championship medal and an F.A. Cup Final medal from the superlative 1947 defeat of Blackpool at Wembley.

RON SAUNDERS (Everton/Gillingham/
Portsmouth/Watford/Charlton Ath.) **3**
Was a brilliant junior at Everton in attaining England youth honours but never achieved stardom, only playing a handful of matches over five years before going out of the league with Harry Leyland to Tonbridge in 1956. Gillingham plucked the sturdily built centre forward from the Southern League and he responded by hitting the net regularly. Portsmouth brought him to Fratton Park September 1958 where, apart from lack of support up front, Ron scored 139 goals in 234 appearances as a busy, chasing, goalscoring type. On leaving Charlton Athletic, he made his way towards Football League management.

JIMMY SCOULAR (Portsmouth & Scotland/
Newcastle U./Bradford Park Av.) **1**
Joined Pompey from Gosport in 1945 after service in the Royal Navy, soon being ranked amongst the first division's most accomplished wing halves; a relentless tackler, tireless and a shrewd passer of the ball. Didn't win first Scottish cap until 1951 versus Denmark, an error soon rectified, being selected a further 8 times. Won two League Championship medals in succession at Fratton Park and then surprisingly was transferred to Newcastle in the summer of 1953 for a fee of £26,000. In 1955 led United, winning the F.A. Cup against Manchester City, and before becoming manager of Park Avenue had played just over 600 league games in a career spanning 18 years.

JACK SELKIRK (Rotherham U.) **2a**
Tall, well built full back who became a great favourite at Millmoor after signing in 1944, winning a third division north medal in 1950/51. Also a member of the side which in the second division 1954/5 shared equal points with the champions and runners up. A regular choice for eleven seasons, sure footed and dependable, Jack was a key factor in Rotherham's finest cup run to the fifth round in 1952/3. Was ever present in the 1950/51 Championship side, waiting until the last game before scoring his first goal direct from a free kick.

GRAHAM SHAW (Sheffield U. & England/ Doncaster R.) **2a**
Classy left back of the highest order, who came through the Sheffield United nursery on leaving school. Whilst at school gained a reputation as an outstanding all round sportsman when winning England Junior A.B.A. boxing title and playing cricket for Yorkshire Colts. Made debut at Bramall Lane March 1952, almost immediately becoming a regular until 1965, thereafter playing only sporadically. Formed longstanding defensive partnership with Cecil Coldwell, during which time gained a second division medal 1952/3. Also played for England on five occasions after representing the Football League and playing for the under 23's. Younger brother Bernard was also a prominent United defender and at one time they partnered each other in the back two.

JOE SHAW (Sheffield U.) **1, 2a**
No relation to Graham, was long term Blades stalwart at centre half, turning professional during the war, but not making debut until 1948, played until 1965/6, appearing 629 times for the one club. Not very tall for a central defender, but made up for lack of inches with terrific recuperative powers; also got up well, but above all was brilliant positionally and utterly dependable. Collected Football League representative honours to go with second division winners medal 1952/3.

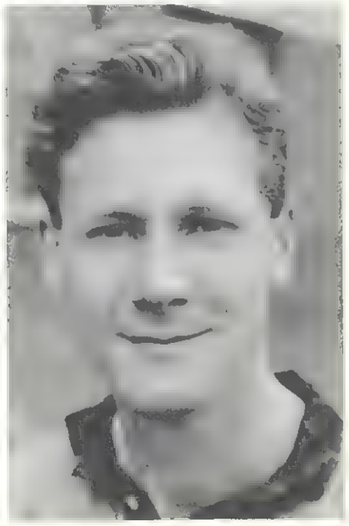
JACKIE SEWELL (Notts. Co./Sheffield W. & England/Aston Villa/Hull C.) **1, 3**
At one time Britain's most expensive player, after Sheffield Wednesday had paid Notts County £34,500 in March 1951. Won his first England cap almost immediately as a direct inside forward of thrusting penetration and speed. Became a really dangerous opportunist helping to get Wednesday back in the top sector as second division champions in 1951/2. Transferred to the Villa in December 1955 for £17,000, collecting an F.A. Cup winners medal against Manchester United in 1956/7. Hull City was Jackie's last club before leaving for Rhodesia to coach. Was capped 6 times in all as well as playing for the Football League.

LEN SHACKLETON (Bradford Park Av./ Newcastle U./Sunderland & England) **5**
The "clown prince of soccer", a live entertainer whose total belief in enjoyment on the field interrupted what would have been a long international future. Began with Park Avenue after supposedly being rejected by the Gunners on the outbreak of war and was very quickly transferred to Newcastle for £13,000. United, having a surfeit of forwards, allowed the ball playing genius to move to close neighbours Sunderland in February 1948 for £20,000. Shackleton's career was often held up by dislike of authority and the chapter on club directors in his autobiography which was blank couldn't have helped. Nevertheless the crowds loved him for giving great value as a "box o' tricks" magical entertainer, being sorry when Len retired with an old ankle injury in 1958.

ALF SHERWOOD (Cardiff C./Newport Co. & Wales) **1, 4**
A great clubman who always seemed to rise to the heights when pulling on a Welsh jersey. Joined Cardiff City during the war, going on to play 41 times for Wales as a fiery, tigerish full back who could use the ball constructively when the situation arose. Even after leaving Cardiff for Newport County in 1956, Alf still managed over 200 league games, also being further selected for the national side even when nearing the end of a long career.

JOHN SIMPSON (Lincoln C./Gillingham) **1, 2b**
6'1" tall, commanding keeper spotted by Lincoln scouts playing for Netherfield in the Lancashire Combination. Took the plunge and signed full time professional March 1957, but after playing only five games for the Red Imps, moved on to Gillingham that summer. Became the club's most oustanding goalkeeper ever, making 571 appearances in all, a club record, and settling down to produce tremendous form over nearly fifteen years. In 1963/4 was an ever present when winning a fourth division medal, conceding only 30 goals, the best defensive record in the country.

BILL SLATER (Blackpool/Brentford/ Wolverhampton W. & England/Brentford) **5**
Fine composed wing half who played as an amateur for Blackpool and Brentford whilst at Leeds University. After gaining amateur international honours, turned pro with Wolves in February 1954 going on to play in 12 full internationals for England. Gained three Championship medals at Molineux, and an F.A. Cup winning medal in 1959/60 when Wolves beat Blackburn, thus making up for a losing one, when an amateur with Blackpool in the 1950/51 final against Newcastle. Never a full time professional due to University career but was still highly effective as a classic and cultured wing half good enough to play for his country.



BOBBY SMITH (Chelsea/Tottenham H. & England/Brighton) **3**
Was one of the first youngsters produced from Chelsea's newly formed youth team, signing professional at 17 for the Pensioners, May 1950, and reckoned by many at the time to be England's greatest centre forward discovery. Somehow lost his way at the Bridge after a terrific start in league soccer, becoming overweight and sluggish, was transferred to Spurs for £18,000 December 1955. There he transformed into a slimline bustling, brave goal grabber of the highest order scoring 28 league goals in the fabulous "double" season and also playing for England on 15 occasions, netting 13 times. Scored in both winning Cup Finals, but seemed to lose the goal touch temporarily until being recalled in 1963/4 by club and country, before finishing at Brighton.

GEORGE SMITH (Man. C./Chesterfield) **3**
Fine opportunist who started career with Manchester City before being injured during the war. Overcame this handicap wonderfully well, settling down as an inside forward at Maine Road on resumption of the league programme and winning second division medal when scoring 23 goals from 38 games. Not on the large side, but used his speed as an effective way of opening up the opposition's defence. A regular for the City until transferring to Chesterfield of the third division north in October 1951, retiring after nearly seven seasons in their colours at the age of 37.

DICK SPIERS (Reading) **2b**
Dependable centre half who played the whole of his Reading career in the third division after signing on at Elm Park in October 1955 and going on to play over 450 times, breaking the club appearance record. Not spectacular but effective, over 6'0" tall, became a regular on returning from National Service. His dominant displays in the heart of the defence endeared him to the locals.

GARY SPRAKE (Leeds U./Birmingham C. & Wales) **4**
Brilliant blond haired 6'0" goalie was discovered by Leeds after playing for Swansea schools, later becoming the youngest ever goalkeeper to appear for Wales when making international debut at the age of 18 versus Scotland, November 1963. Earlier had made debut for Don Revie's side, being called in at the last minute to fly down to Southampton as a 16 year old to play in the club's second division match. Whilst at Elland Road in a twelve year career picked up a League Championship medal, second division, title and F.A. Cup winners medal along with numerous other honours before going to Birmingham City October 1973. In the top flight of keepers, extremely acrobatic, with good handling and excellent judgement.

RON SPRINGETT (Q.P.R./Sheffield W. & England/Q.P.R.) **4**
Brilliant goalkeeper with cat-like reactions, great anticipation and utterly dependable. Was much sought after by the bigger clubs when attracting attention playing in Q.P.R.'s third division south side, resulting in Sheffield Wednesday paying a fee of £10,000 in March 1958 for his services Was a star in the Wednesday promotion team the next full season when the club regained first division status, making debut for England November 1959 and playing in all but one of the next 29 games. In June 1967 was traded in an exchange deal involving younger brother Peter also a Rangers keeper, returning to Loftus Road. In first season back, helped the club gain promotion to the top division for the first time in its history, conceding only 36 goals — the lowest in the league.

ROY SPROSON (Port Vale) **1, 2b**
In July 1949 a young Stoke City amateur joined Port Vale, then managed by Gordon Hodgson the former Liverpool and Aston Villa marksman. Became known in later years as ''Mr. Loyalty''; before retiring Roy played for the Valiants in well over 700 games. Starting as a wing half, later settling down at full back, he even moved grounds with the club from the old Rec. to the new Vale Park. The great highlight of his career must have been the 1953/4 F.A. Cup in which the Vale finally went out in the quarter finals to eventual winners W.B.A. from a penalty scored by their old player Ronnie Allen. Two championship medals are amongst ''Mr. Loyalty's'' proudest possessions.

BILLY STEEL (Derby Co. & Scotland) **4**
Derby County paid £15,000 to Morton of the Scottish league in June 1947 for this comparatively unkown player. His debut for Scotland was against the ''ould enemy'' at Wembley in April 1947 and so impressive was he that, a month later, he was picked at inside left for Great Britain against the Rest of Europe. 5'6'' tall, and lightning-quick off the mark, getting into shooting positions was his speciality. Billy played just over the 100 game mark for Derby before being lifted back north of the border by Dundee for the then record transfer fee of £23,000 paid by a Scottish club. Emigrated to the U.S.A. in 1958 after representing his country 30 times.

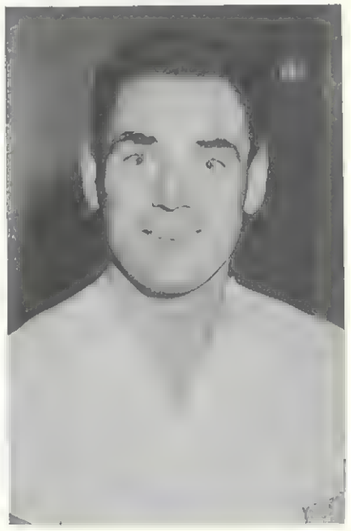
GEORGE T. STEWART (Accrington/Coventry C./Carlisle U.) **3**
Moved from St. Mirren to Accrington Stanley in the summer of 1954 to take up centre forward duties for the then third division north side after heading the Scottish club's scoring charts. In that first season scored 28 goals from 33 games helping to push the Lancashire side up to second in the table, and to becoming the top scorers in the division. For the next three seasons the club was placed in the top three with George getting a further 94 goals before being sold to Coventry City November 1958. Helped that club into a higher placing in the fourth division than Accrington, who in 1961/2 resigned from the league on financial grounds. In his English career the bustling forward scored 160 league goals.

NOBBY STILES (Man U. & England/Middlesbrough/Preston) **5**
Became a national hero, mainly due to the T.V. coverage of the 1966 World Cup exploits of the winning England team which included the indomitable Nobby (real name Norbert) of the toothy grin and unquenchable ''never say die'' spirit. Developed through the United juniors as a ''Busby Babe'' maturing at wing half; in the background of so many great players took a long time to attain a regular place in the side. Gained two Championship medals, and a winners medal from the fabulous game against Benfica in the 1968 European Cup Winners Cup trophy, before moving on to pastures new, eventually going into league management.

EDDIE STUART (Wolverhampton W./Stoke C./Tranmere R./Stockport Co.) **1**
Strapping 6'0'' South African, who joined the Wolves January 1951, from Rangers F.C. Johannesburg, where he had played representative football. Signed as a centre half, actually made debut at centre forward in April 1952 before settling down as a regular in the defence at full back. Collected two League Championship medals from consecutive seasons, only missing 6 games. Moved to Stoke City in the summer of 1962, playing 40 games and getting a second division medal, with the Potters. Finished career in the lower reaches after playing 150 league games.

ROBIN STUBBS (Birmingham C./Torquay U./Bristol R./Torquay U.) **3**
Beautifully built young centre forward, came out with Birmingham City and was seen to be a future international prospect by a good many shrewd judges. Somehow did not utilise the natural talent in his keeping whilst in the first division and was eventually transferred to Torquay United in August 1963. Scored consistently at Plainmoor over six year period collecting 121 goals from 214 appearances before leaving for Bristol Rovers July 1969, later to return to Torquay.

JOHNNY SUMMERS (Fulham/Norwich C./Millwall/Charlton Ath.) **3**
Whole hearted, tough, hard running, power shooting left winger. Could never be left unattended near the opposition's penalty area, always getting amongst the goals in a career that was tragically cut short by a long illness, resulting in his early death. A Londoner, he started out with Fulham as a winger, moving to Carrow Road June 1950, before leaving for Millwall May 1954. At the Den he scored consistently, but it was with his next club, Charlton, that he really made the headlines. Twice whilst at the Valley he scored 5 goals in a match from the wing, the most famous one being against Huddersfield Town 21st December 1957 in a sensational high scoring match.



BARRY SWALLOW (Doncaster R./Crewe Alex./Barnsley/Bradford C./York C.) **1**
6'2'' tall defender, Doncaster born, came out with the Rovers, being produced through their junior sides. Son of early post war Doncaster player who also played for Barnsley. Did not make a mark until signing for York City October 1969, settling into their defence at centre half and becoming a key player in the club's future plans. Promotion was achieved to the third division 1970/71 and to the second 1973/4, and in those seasons, Swallow missed only two games.

FRANK SWIFT (Man. C. & England) **5**
The footballing world was shocked when, in February 1958, the sensational news of the Munich air disaster also uncovered the fact that the ''genial giant'' Frank Swift, who was travelling as a reporter, had also been killed. As a nineteen year old, he had collapsed at Wembley in a faint after helping City to win the 1934 Cup Final against Portsmouth. Became a great showman, extremely popular with the terraces. Possesing tremendous ability between the posts, Frank even went on to even captain England from that position. Held in great esteem, he would undoubtedly rank as one of the finest goalminders ever, even if the occasional showmanship did not benefit. At the age of 36 Frank bowed out of the game he had for so long graced meritoriously.

BOBBY TAMBLING (Chelsea & England/Crystal P.) **3**
One of the famous ''Drake's Ducklings'', Bobby Came straight out of the Chelsea star studded junior side after gaining schoolboy international honours. Replaced the legendary Jimmy Greaves when the latter went to Italy, he converted into an inside right of terrific power, able to contend with a heavy work rate, and had the ability to get on the end of goal chances with a rocket like left foot. Once scored 5 goals from the left wing against the Villa in 1966 and amassed 164 league goals at the Bridge before leaving for Crystal Palace. Represented England on three occasions and collected an F.A. Cup losers medal from the all London Final against Spurs 1967

COLIN TAYLOR (Walsall/Newcastle U./Walsall/Crystal P./Walsall) **1**
Powerful shooting outside left, with one of the hardest shots in league soccer, developed into one of the highest scoring wingmen of the post war game with speed and an ability to cut inside the full back. Before being transferred to Newcastle for £10,000 June 1963 had missed only two games in the five years since debut. scored 93 goals, collecting a fourth division winners medal and helping the club a season later into the second division as runners up. Couldn't seem to stay away from Fellows Park for long and signed for Walsall on three separate occasions, having failed to settle in the colours of his other teams.

PAT TERRY (Charlton Ath./Newport Co./ Swansea C./Gillingham/Northampton T./ Millwall/Reading/Swindon T./Brentford) **3**
Much travelled centre forward, tall, well built with an eye for the goal, arrived at Charlton from Eastbourne and went on to play in all four divisions, scoring over 200 league goals. Only on one occasion played in a side that gained promotion, when with Millwall 1961/2, after being signed from Northampton Town to score valuable goals — which he did, netting 13 from 17 appearances. In a career of fifteen seasons with nine clubs, the longest period spent was where he collected 60 goals. Just under three seasons at Gillingham.

GEOFF THOMAS (Nottm F.) **2a**
Full back who played for Derby schools before joining Forest as a fifteen year old, making league debut at the age of seventeen. Originally a wing half, he settled down well at the back before playing over 400 games for hisonly club. Won a third division south medal in 1950/51 followed by promotion with Forest to the first division as runners up in 1956/7. Played last league game in 1959/60, a year after not being selected for the winning Cup Final team that beat Luton Town at Wembley.

BERT TINDILL (Doncaster R./Bristol C./ Barnsley) **1, 2a**
Great clubman for Doncaster Rovers who could operate on either wing or inside to great effect and scored quite consistently for a scheming, clever player with general midfield skills. Was picked up during the war and later blossomed under the guidance of the legendary Peter Doherty, later becoming skipper of the side. Collected a third division north winners medal 1949/50 and missed less than a dozen games over the next seven seasons, being one of the Rovers' most consistent post war players. Went on to play for Bristol City, then Barnsley.

BARRIE THOMAS (Leicester C./Mansfield T./ Scunthorpe U./Newcastle U./Scunthorpe U./ Barnsley) **3**
Natural goalscorer even when with Leicester City, where gaining England youth honours, but with Bill Gardiner scoring consistently the youngster was allowed to leave for Mansfield Town. This turned out to be a costly mistake, for after two seasons with that club and a further two with Scunthorpe United, he had scored 115 league goals before being transferred to Newcastle United January 1962 for a fee of £40,000. At Newcastle he suffered from injury, which restricted first team appearances, before being transferred back to old club Scunthorpe, later playing for Barnsley. As a tough, hard running, bustling, centre forward Barrie scored over 200 league goals.

TOMMY THOMPSON (Newcastle U./Aston Villa/ Preston & England/Stoke C./Barrow) **3**
Known as "toucher" to team mates, was developed by Newcastle after the war and transferred to the Villa in 1950, very quickly being capped for England. A diminutive 5'5" scheming, probing inside forward, a specialist in the sharp break through to boot. He became quite a prolific goalscorer, especially after signing for Preston North End in 1955 where he formed a great partnership with the legendary Tom Finney. Troubled by an old cartilage operation — which must have hampered him considerably — throughout his career. Again capped in 1957 and later assisted the Stoke City veterans to climb back to the first division in 1962/3, after which he moved on to Barrow, ending his footballing days at the age of 35 in the fourth division.

EDDIE TOWERS (Brentford/Q.P.R./Millwall/ Gillingham/Aldershot) **3**
Another journeyman centre forward that the lower leagues seem to produce in abundance; powerful and direct hustler who spelt danger to all opposing goalies. It was really at Brentford that he made his mark, being a product of the junior sides, and hedeveloped into their record goalscorer. Set up remarkable partnership with George Francis (father of Gerry) and together they came to be known as the "terrible twins" In six full seasons before Eddie transferred to Q.P.R. May 1961, these two scored 244 goals between them for the Bees. Again in January 1963, when signing for Gillingham, the duo paired up again, but only until the end of that season when Eddie again moved, this time to Aldershot.

BERT TRAUTMANN (Man. C.) **1, 2a**
Footballer of the year following his wonderful display in the 1956 winning F.A. Cup Final against Birmingham City, when the blond goalie sustained a broken neck in the cause of Manchester City and insisted on completing the match. The winners medal from that match was sufficient recompense for the loss at the hands of Newcastle United a season earlier. Made a meteoric rise to fame as a league goalie when signed by the City from St. Helens, November 1949, to replace the illustrious Frank Swift. The tall powerful keeper had been a German para and was in a P.O.W. camp when spotted by the non league side. The only German to represent the Football League. He played over 500 league games whilst at Maine Road.

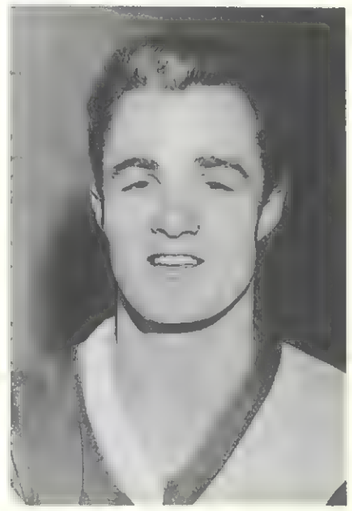
BRIAN TURNER (Bury/Oldham Ath.) **2a**
Long service member of Bury, turning professional February 1957 before going on to play over 450 league games for the Shakers by August 1970. Tall and well built, he gave consistent displays in the half back line throughout career, the finest moment being when winning a third division medal 1960/61. Again in 1967/8 was a member of the side that regained second division status, having lost it only a season earlier, once again an ever present. Played less than a dozen games for Oldham before leaving league soccer.

GORDON TURNER (Luton T.) **2a, 3**
Goalscoring inside forward, son of a former Hull City star who had played alongside Dally Duncan, the then manager of Luton Town, who wasted no time in signing up Gordon in March 1950. Before retiring had become Luton's record goalscorer with a total of 243. Well built, very quick off the mark, was a real sharpshooter in either boot, netting 32 goals when the Town attained promotion to the first division 1954/5. His best season was 1957/8 when scoring 33 and helping the Hatters to their highest ever first division placing, 8th. Did not play in the losing F.A. Cup Final against Forest 1959, a great disappointment, but represented the Football League on one occasion.

ROY VERNON (Blackburn R./Everton/Stoke C. & Wales) **4**
Magical, skilful inside forward was a Blackburn bred youngster, joining the ground staff from school. Developed along the right lines, making debut 1955/6, becoming a regular the next season. Transferred to Everton in February 1960 for £20,000, not being with the Rovers when they reached Wembley for the F.A. Cup Final in May. Interestingly, Roy had declined to sign for Everton when leaving school. Gained a League Championship winners medal 1962/3 before leaving for Stoke City, March 1965. A supreme architect of an inside forward he was very expressive, full of control, and ideal in taking over the City mantle from the great Jimmy McIlroy. Played for Wales 32 times.

KEN WAGSTAFF (Mansfield T./Hull C.) **1, 3**
Two footed, strongly made goalscoring centre/inside forward who, in only third season of league soccer, scored 34 goals from 44 appearances when assisting Mansfield Town in achieving third division status. Transferred to Hull City in November 1964 and in first full season with the Tigers won third division medal as an ever present with 27 goals to his credit. At Boothferry Park struck up a great partnership with Chris Chilton and, in scoring 173 league goals on completion of career, closely rivalled Chilton as the greatest Hull City scorer of all time.

DAI WARD (Bristol R./Cardiff C. & Wales/ Watford/Brentford) **3**
Whilst with Bristol Rovers gained reputation as a goalscorer when following the great Geoff Bradford into the side, although having previously made debut 1954/5 after being signed from Barry Town. Was an instant success, equalling the 'Pirates' record by scoring in eight consecutive games and before signing for Cardiff City who paid £11,000 for his services in February 1961. Collected 90 goals from 174 league appearances. After settling in at Ninian Park, got a second Welsh cap, having played for his country at centre and inside forward. Clever, with penetrating ability, Dai could have scored many more first division goals if Cardiff had persevered with his thrusting play.



CHARLIE WAYMAN (Newcastle U./ Southampton/Preston/Middlesbrough/ Darlington) **3**
Diminutive goalscorer and creative centre forward was a United discovery, but left suddenly when being dropped from the semi-final team. Went to Southampton for £19,000, but in 1950, because of his wife's health, was transferred to Preston where he continued to score freely. Played a great part in getting North End through to the 1954 Cup Final where they lost in a nail biting game to W.B.A., earning the rare distinction of scoring in every round of the cup including the Final itself. At the end of that season was transferred to Middlesbrough, playing with the young Brian Clough. Finally moved to Darlington before retiring at the age of 36.

LEN WEARE (Newport Co.) **1, 2b**
Nearly 6'0" tall, well built, talented custodian of the Newport County goal for over fifteen seasons. Was the reserve keeper for Wales in the World Cup 1958, but because of the brilliant Jack Kelsey did not get a chance to play. Once highly rated enough to be considered by many to be worthy of first division status, but remained loyal to the needs of County which was nearly always having to stave off relegation one way or another. A fine servant who played 524 games, being ever present on four occasions.

DUNCAN WELBOURNE (Grimsby T./Watford/ Southport) **1**
Had five seasons with Grimsby Town, helping them regain second division status in 1961/2 before losing form and first team place. Transferred to Watford November 1963, immediately gaining a regular place in the side at wing half. For five consecutive seasons was an ever present player, a truly remarkable record, and was instrumental in the club's success when gaining a third division medal 1968/9. The next season, was a valued member of the side that produced the greatest performance in Watford's history when reaching the semi-finals, losing gloriously to Chelsea, the eventual F.A. Cup winners. Finished playing days at Southport.

LEN WHITE (Rotherham U./Newcastle U./ Huddersfield T./Stockport Co.) **3**
Sturdy forward only 5'7" tall, very stocky and difficult to dispossess; crafty, with a great turn of speed. Came out with Rotherham United, playing on the right wing, and was signed by Newcastle United February 1953. Played sporadically at first, mainly in forward utility role, but became a regular in 1954/5 gaining an F.A. Cup winners medal from the game against Manchester City where Jackie Milburn scored the first goal within seconds from his corner kick. When "Wor Jackie" retired, Len was moved to lead the attack with great success, scoring quite heavily and picking up Football League representative honours. Later moved to Huddersfield Town, still effective, but used more at inside forward. Finished career with Stockport County in the fourth division.

RAY WILCOX (Newport Co.) **2b**
Constructive centre half signed during wartime by Newport County from his local club Treharris, the Welsh League side. Not very tall for a defender, made up for distinct lack of inches with strong positional play befitting the pivot of the defence, with well placed passes allied to tough, strong tackling. From 1946-1960 Ray made 489 appearances, a record for the club, being one of their greatest servants.

ALAN WILLIAMS (Bristol C./Oldham Ath./ Watford/Newport Co./Swansea C.) **1**
Strong "no nonsense" centre half who started out with native Bristol City, coming through their junior sides. Developed into a more than capable defender who was allowed to sign for Oldham Athletic June 1961 after spending six years at Ashton Gate. Became one of the Latics most consistent players, missing only twelve games in four seasons as the pivot of their defence, being ever present when promotion was attained to the third division 1962/3. Had short stays at Watford and Newport before signing for Swansea October 1968, going on to help the South Wales club achieve third division status 1969/70 before hanging up his boots.

BERT WILLIAMS (Walsall/Wolverhampton W. & England) **5**
Joined the Wolves for a fee of £3,500 from Walsall in 1945, after shining in wartime football, where his goalkeeping agility stood out. Sometimes known as "the cat", Bert created a tremendous impression at international level when succeeding the great Frank Swift. The holder of cup & league medals, he also won many sprint titles away from the soccer pitch. When superseded by Gil Merrick in the England side, the still not-too-old goalie had opened several sports shops in his native Bilston, preparing the way for retirement. Recall to the national side came in 1955 after keeping in brilliant fashion, the selectors once again opting for the spectacular, even at the age of 35. Then quickly retired, leaving his Wolves jersey to the up-and-coming Nigel Sims who had understudied him for eight years.

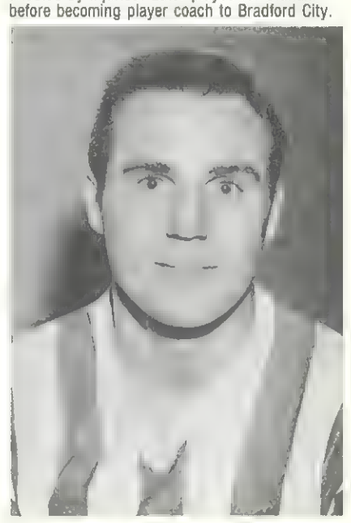
DANNY WILLIAMS (Rotherham U.) **2a**
Another truly great clubman who later in life took those qualities into Football League management. A local signed from Silverwood Colliery during the war, he came out as an inside forward and played nearly fifteen seasons in the Merry Millers' colours, showing great consistency and settling down as a wing half before finally managing the club. Was originally a miner, like several of his team mates, and these dour professionals nearly gained Rotherham promotion to the first division in 1954/5.

HERBIE WILLIAMS (Swansea C. & Wales) **2a**
Started out with his local club Swansea as an inside forward May 1958, but soon converted to half back where his height was invaluable to defensive situations. Able to attack equally well, he was a highly constructive player who loved to break out of defence on surges upfield. Was rewarded with 3 Welsh full caps in recognition of outstanding club form, which followed several under 23 honours. Later in career alternated in varying positions, scoring considerably for a midfield type, and but for talented competition would have played for more games for his country. Great wholehearted player who always gave of his best.

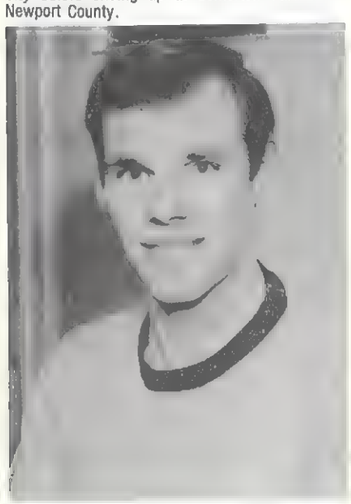
STUART WILLIAMS (W.B.A./Southampton & Wales) **4**
Son of a Wrexham director, started out as an amateur at that club playing half a dozen games after the war until being signed professionally by the Albion, February 1951. After performing in several varied positions, settled down as a very strong full back of some quality, being capped by Wales initially against Austria May 1954, the first cap of 43. Difficult for any winger to master, he had a most tenacious recovery rate, also being an extremely tough tackler who didn't waste the ball often when in possession. Before retiring he joined Southampton where, in his last season of league soccer he helped the Saints in their rise to the first division for the only time in that club's history.

JOE WILSON (Workington/Nottm. F./ Wolverhampton W./Newport Co./Workington) **1**
Born in Workington and signed for his local club in January 1956, settling down at full back and producing some great displays in their colours before Forest enticed him to the City ground in 1962. Not very tall, but stocky and very difficult to dispossess Joe became utility defender, later signing for the Wolves, then of the second division. After a season at Newport, only missing 5 games, he came back home to Workington, playing a further 168 league games before leaving soccer.

RAY WILSON (Huddersfield T./Everton & England/Oldham Ath./Bradford C.) **4**
One of the most brilliant of home grown products, considered by a great many experts to be the most outstanding left back in the World after helping England beat Germany in that marvellous 1966 World Cup epic at Wembley. Surprisingly started out with Huddersfield Town August 1952 as an outside left, before being converted to full back with great success by Bill Shankly, then Town's Manager. Fancied by many a club, Roy was signed by Everton in July 1964, later collecting an F.A. Cup winners medal from the game against Sheffield Wednesday 1966, and before leaving Goodison had played for England 63 times. A great stylist, terrific tackler and very constructive when on the ball, he was unfortunately badly affected by injuries. Later played for Oldham before becoming player coach to Bradford City.



BOBBY WOODRUFF (Swindon T./Wolverhampton W./Crystal P./Cardiff C./Newport Co.) **1**
One of Swindon Town's great local discoveries of the late 1950's, he joined the club straight from school and impressed when coming out as an attacking wing half with great flair. A member of the Town side that gained second division status for the first time in its history 1962/3, he became much sought after by the bigger clubs, eventually signing for Wolves. After spending nearly two years at Molineux, he rejoined former manager Bert Head, then at Crystal Palace where, in 1968/9, he achieved first division status with that club. Later played nearly 150 games with Cardiff City before ending up at Somerton Park with Newport County.



BILLY WRIGHT (Wolverhampton W. & England) **2a, 4**
The fair haired star of the immediate post war soccer scene, Billy had begun with the Wolves straight from school, nearly being sent home for not being big enough. Became an inspiring captain for both club and country, making international debut for England against Belgium in 1946 and going on to play a record 105 appearances, including a run of 46 consecutive matches. Holder of three League Championship medals, also captaining Wolves in winning the 1949 Cup Final against Leicester City. Although only 5'8" was converted to centre half, being a great success by keeping the ball on the ground to his advantage wherever possible. Was the player of the year in 1951/2, adding to his many honours.

CHARLIE WRIGHT (Workington/Grimsby T./Charlton Ath./Bolton W.) **1**
After playing 28 reserve games for the great Glasgow Rangers, Charlie decided that a move south might benefit and, on being granted a free transfer, Workington moved in for the young goalkeeper in June 1958. Upon National Service in 1960, Charlie actually played for Hong Kong while stationed there, saving a penalty against Peru and becoming their footballer of the year. On return to League Football was soon transferred to Grimsby and in March 1963 to Charlton Athletic. A real character, he was really appreciated at the Valley by fans who could still remember the great Sam Bartram. By the time Charlie played his last game for Bolton Wanderers in 1972/3, he had amassed nearly 550 league games.

RON WYLIE (Notts Co./Aston Villa/Birmingham C.) **1**
One of the most clever of inside forwards, signed by Notts County from Clydesdale, the Scottish junior side, Ron made his debut at Doncaster in October 1951, aged 18. Remained eight years in the second division with County as their key player, very constructive and with great vision, before transferring to Aston Villa November 1958, where playing just short of 200 league games. Collected a second division winners medal 1959/60 and surely would have played for Scotland if he had moved to a top club when younger and at the height of his excellence. Finished with Birmingham City at the age of 36, after playing nearly 550 league games.

Biographies and Players Records

1976 – 1981

This part of the book details the league record of every player making at least one first team appearance between 1976 and 1981, and naturally includes every current player in the league up to the end of the 1981 season. It records some outstanding individual performances in the biographical pages; use the key codes on the following page to explain the abbreviations.

Key Codes to Biographical Section 1976 – 1981

1	**LEAGUE APPEARANCES**. Total Exceeding 500
2 a b	**LEAGUE APPEARANCES FOR ONE CLUB** Total Exceeding 400 (1st/2nd Division Sides) Total Exceeding 450 (3rd/4th Division Sides)
3	**LEAGUE GOALSCORERS** (Qualification 150 Goals) 40% + RATIO
4	**INTERNATIONAL APPEARANCES**. Exceeding 30
5	**MISCELLANEOUS** (Includes other record breakers, Players of the Year, Legendary players etc).

Key Codes to Statistical Section 1976 – 1981

PLAYERS NAMES – ● Indicates extra information, and illustration in biographical section

BIRTHPLACE –

BIRTHDATE – DAY/MONTH/YEAR

PREVIOUS CLUB – PRIOR TO JOINING FOOTBALL LEAGUE, INCLUDES NON LEAGUE/AMATEUR/SCOTTISH LEAGUE/JUNIOR LEAGUES/FOREIGN LEAGUES, ETC.

CODES

APP.	–	Apprentice signing.
JNRS	–	Junior (players signed amateur forms prior to 17th birthday or directly from school/college).
TR	–	Transfer (including free transfers).
L	–	Loan transfer shown only where appearances have been made.

DATE SIGNED – PROFESSIONAL SIGNING DATE – YEAR/MONTH
LOAN TRANSFER DATE SHOWN IF PLAYER IS LATER SIGNED.

CODES

*	–	Pre-war signing
+	–	War time signing
N/C	–	Non Contract player
N/L	–	Non league signing
AM	–	Amateur player

SEASONS PLAYED – SEASONS SHOWN AS EARLIEST YEAR OF THE PERIOD IE:– 1946 WOULD BE 1946/47.

CAREER RECORD – DOES NOT INCLUDE LEAGUE APPEARANCES MADE PRIOR TO 1946/47.

REMARKS COLUMN – SHOWS PLAYING POSITIONS IE:–

(F) forward (D) defender (G) goalkeeper (M) midfield (IF) inside forward
(FB) full back (HB) half back (WH) wing half (CF) centre forward (W) winger

SHOWS INTERNATIONAL APPEARANCES IE:–

EI – Eire, E – England, NI – Northern Ireland, S – Scotland, W – Wales
SHOWS ANY OTHER RELEVANT STATISTICAL DATA TO HAND.

General Note – Players records shown span Football League careers only.

OSVALDO ARDILES (Tottenham H. & Argentina) **5**
Sensationally signed for Spurs in July 1978 for £325,000 after being a key player in the Argentinian side that lifted the World Cup. When coming to White Hart Lane "Ossie" did not speak very good English, but his soccer style was unmistakably that of a master. Ardiles and his compatriot, Villa, who signed at the same time, seem to have made all the difference to the younger players in the side, and the heady days of several decades ago are being rekindled. Spurs are now on the verge of greater glories, with Ardiles achieving a major ambition in collecting a winners medal from the 1981 F.A. Cup Final classic against Manchester City where his great friend Villa scored the decider with the goal of a lifetime.

GEORGE ARMSTRONG (Arsenal/Leicester C./ Stockport Co.) **1, 2a**
Little left winger from the North East who Arsenal snapped up in August 1961 and went on to give the Gunners sterling service, covering nearly 500 league games before joining Leicester City in 1977. A specialist taker of corner kicks, he was perpetual motion in action, buzzing here, there and everywhere, a constant thorn to any defence. Gained England under 23 honours, but surprisingly did not follow up with full caps. Memorably associated with the Arsenal "Double" side of 1970/71 after winning European Fairs Cup medal the previous year. Final season of league soccer was 1978/9 with Stockport County.

LEN BADGER (Sheffield U./Chesterfield) **1, 2a**
Brilliant full back prospect when arriving on the soccer scene in 1962/3 with local club Sheffield United, also being a member of the England mini World Cup winning side that achieved such prestige that year. In setting up a very effective partnership with Bernard Shaw, Len became one of the youngest captains in the club's history after becoming a regular in season 1964/5. Over a period of eleven seasons he missed only 30 league matches—a tremendous record of consistency, which was matched by keen positional play, adroit tackling and a passion to use the flank to its full advantage. Finished career at Chesterfield.

MIKE BAILEY (Charlton Ath. & England/ Wolverhampton W./Hereford U.) **1**
Was a product of Charlton juniors, signing for the London club on leaving school, very quickly developing into a really tough tackling, ambitious wing half who surprisingly only played twice for England in the early 1960's. Wolves, trying to recapture former glories, saw him as the man to lead them from the second division wilderness back into the big time, a mission accomplished 1966/7. Injury apart, Mike was a regular for eleven seasons before trying his luck in the U.S.A., later coming back into league soccer as player manager with Hereford United. A first class player in his heyday who would have graced any side in the country.

ALAN BALL (Blackpool/Everton/Arsenal & England/Southampton/Blackpool/Southampton) **1, 4**
5'6" tall redhaired midfield terrier of a player who started out on the right wing for Blackpool in 1962 and had been a victorious member of the famous World Cup side before signing for Everton in August 1966 at a fee of £110,000. With the Toffees he collected a Championship medal in 1970, later signing for the Arsenal in December 1971 for £220,000. Played for Southampton until going back to Blackpool as player manager in July 1980, where unfortunately things did not go to plan, and he finished the season back at the Dell. Son of an ex professional player, the little dynamo was earmarked for stardom as a youngster and his career certainly vindicated that early praise.

COLIN BELL (Bury/Man.C. & England) **4**
Perpetual motion player who became a great all rounder, before having to leave the game rather prematurely through injuries after winning 48 England caps and promising to control the national side's midfield for years to come. Was discovered by second division Bury playing for Horden Colliery Welfare and made quite a reputation before joining Manchester City in a then club record £45,000 deal. Effectively the key member of the City side in winning the Football League, F.A. Cup, European Cup Winners Cup and League Cup within four highly successful years. Standing nearly 6' tall, well built, he stood out mainly for exceptional non-stop running, playing just short of 400 games for the City.

GEORGE BEST (Man.U. Fulham & N.Ireland) **4, 5**
Undoubtedly the greatest individual player of the modern British football period; outstanding ball control, with a genius to discover a scoring possibility, made him the most exciting man the game had to offer. Was only 17 years 4 months when making first division debut for Manchester United in 1963, playing for Northern Ireland just six months later whilst still a month short of eighteenth birthday. The obvious peak of career must have been in 1968 when picking up the British and European footballer of the year awards after gaining a European Cup winners medal to go with 2 Championship winning medals. Apart from brief displays with Fulham in the mid 1970's, now plays his soccer in the U.S.A. During a brilliant career which unfortunately expired before maturity was attained, he won 37 full caps, scoring nearly 150 league goals.

STUART BOAM (Mansfield T./ Middlesbrough/Newcastle U.) **1**
6' 1" tall centre half, found in local junior football by Mansfield Town. Missed only 10 games over 4 seasons whilst at the Field Mill ground, showing great potential at the heart of defence. Middlesbrough recognised this when signing the young man in June 1971 to form a vital partnership with Willie Maddren which was vindicated when the Boro gained promotion back into the first division 1973/4. Before joining Newcastle United in August 1977, Stuart had played nearly 500 league games and looked to be a key player in any plans the Tynesiders might have in achieving first division status once again.

BILLY BONDS (Charlton Ath./West Ham U.) **1, 2, a**
Extremely competitive half back and captain who leads by inspiration as the driving force in face of all opposition. Was an apprentice at the Valley where he played just short of 100 league matches before joining West Ham in May 1967 for a bargain, by today's standards, of £50,000. Has twice led the Hammers at Wembley in collecting two winning F.A. Cup medals, but has yet to play for his country—an omission that could soon be rectified as Ron Greenwood looks to instil aggression to a lack-lustre England side. Currently instrumental in helping the Hammers back to the first division, with a runaway title victory during a season which was also distinguished by two wonderful League Cup Final games, when the Cup was claimed by Liverpool at the second attempt.

PETER BONETTI (Chelsea & England) **1, 2a**
Nicknamed "The Cat", son of a Swiss born restauranteur, Peter came to the forefront when in 1959/60 Chelsea found themselves without a first team available keeper. The seventeen year old youth side choice was drafted in against Manchester City, who were fielding their new signing Dennis Law. Unfortunate to be in the wings of the great Gordon Banks, he collected only 7 England caps, but with Chelsea was a great hero of many great victories, notably the 1970 Cup Final where, after the first replay in history, the Blues beat Leeds United. Made 600 league appearances, also winning European Cup Winners Cup medal before taking his family to the Isle of Mull, where he occasionally still turns out for Scottish League sides.

PHIL BOYER (Derby Co./York C./ Bournemouth/Norwich Co. & England/ Southampton/Man.C.) **1**
Started out with Derby County, but moved on to York City without even getting a first team game at the Baseball Ground. It was with the Minster Men that he first formed the famous scoring partnership with another reject, Ted McDougall, where initially the smaller man, only 5' 8", was rather overshadowed by the Scot in goalscoring feats. In playing later for Bournemouth, Norwich and Southampton, amazingly, Boyer followed McDougall again and again in setting up their formidable partnership. Whilst with Norwich succeeded in gaining one and only England cap, against Wales in 1976. Transferred to Manchester City to link up once again with Manager John Bond in November 1980, the striker would consider himself unlucky to have missed the 1981 F.A. Cup Final due to injury.

BILLY BREMNER (Leeds U. & Scotland/Hull C./ Doncaster R.) **1, 2a, 4, 5**
Small, redhaired, veritable human dynamo, with fiery temperament to match, currently the manager of Doncaster Rovers. Made debut as a seventeen year old winger alongside Don Revie for Leeds United against Chelsea in 1960, eventually becoming a key factor in the club's great successes under former playing partner. Numerous honours include 2 Championships and an F.A. Cup winners medal adding to the European Fairs Cup triumph against Juventus of 1971. Many setbacks in career, notably losing three F.A. Cup Finals from four played, but had the satisfaction of appearing for Scotland on 54 occasions. Player of the year in 1970.

TREVOR BROOKING (West Ham U. & England) **2a, 4**
Developed into a fine midfielder, starting out as a professional with the Hammers in May 1966 after coming through the apprentice ranks and now recognised as an outstanding craftsman. Noted for precision passing, deft touches, with immaculate crosses to near and far posts alike, he is one of the top exponents of the set piece in the modern game. Has played for England on over 40 occasions adding to Football League and junior international honours. Has twice played in an F.A. Cup Final at Wembley, firstly when helping West Ham to defeat Fulham in the second all-London final 1975 and again in 1980, this time scoring the only goal of the match in the defeat of Arsenal.

TONY BROWN (W.B.A. & England) **1, 2a**
Real hot shot who scored 217 league goals before going off to finish his soccer days in the U.S.A. Joining Albion straight from school, Tony developed into a dynamic inside forward who possessed the ability to take on defences in all out assault. Collected only 1 England cap; strange reward indeed for many positive club displays, during which he gained an F.A. Cup winners medal from the 1968 defeat of Everton, a mighty goal from Jeff Astle deciding the day. In a seventeen year career became the proud possessor of both W.B.A.'s appearance and goalscoring records.

MARTIN BUCHAN (Man.U. & Scotland) **4**
Born and bred in Aberdeen, captained the local side at the age of 20 in the winning Scottish Cup Final of 1970. In transferring to Manchester United in March 1972, it cost a then club record fee of £125,000 to secure the young man's services. A regular performer and skipper since that occasion, now recognised as one of the top quality defensive players of the modern game, who believes in playing from defence rather than clearing the lines. Led United back to the first division in 1974/5 after the traumatic drop into the second division and to 3 F.A. Cup Finals in 4 years, gaining a winners medal in 1977 against Liverpool. Holder of over 30 Scottish international caps.

KENNY BURNS (Birmingham C./Nottm.F. & Scotland) **5**
Started out life with Birmingham City, mainly as an effective striker, but seemingly his career was held up, mostly by disciplinary actions rather than ability. In July 1977 the Nottingham Forest management duo, in preparing for first division action, signed Kenny, promptly converting him to central defence alongside Larry Lloyd. Forest again confounded the critics and in doing so their new signing collected a Championship medal in missing only one match, also gaining the player of the year award. These honours were followed by 2 European Cup winning medals in succession and he looks assured of adding many more Scottish caps to his collection in the seasons to come.

IAN CALLAGHAN (Liverpool & England/ Swansea C.) **1, 2a, 5**
First figured in the great Liverpool sides of the 1960/70's mainly as a skilful right winger, but settled down latterly in midfield where achieving great acclaim. Only appeared 4 times for England, which was scant reward for sterling club performances which included 5 first division Championship winning medals as well as 2 F.A. Cup, 2 European Cup, UEFA Cup and Super Cup winners medals. Left the Reds in August 1978, immediately helping his old team mate John Toshack lift Swansea City out of the third division. Greatest asset was ability to beat defenders and centre accurately. Player of the year in 1974.

MICK CHANNON (Southampton/Man.C. & England/Southampton) **1, 2a**
Strong running, powerful striker who made debut for Southampton during Easter 1966 and really came to the fore when forming a double spearhead with the awesome heading of Ron Davies, after Martin Chivers had moved on to Spurs. Apart from a two year spell at Manchester City during the Malcolm Allison reign, Mick has remained a Saint playing nearly 500 times in their colours and scoring not far short of 200 league goals. The highlight of his career, not forgetting 46 full England caps, would have to be Southampton's marvellous F.A. Cup Final victory over Manchester United 1976, when against all the odds victory was attained with a Bobby Stokes goal.

TREVOR CHERRY (Huddersfield T./Leeds U. & England) **1**
Since leaving Huddersfield Town for Leeds United June 1972, in a £100,000 deal, has missed less than 40 league matches in 9 seasons, a testament to his consistency. With the Town, played mainly in the centre of the defence alongside Roy Ellam, but on going to Elland Road settled down at full back. Achieved England international status 1976, in all collecting 27 caps. In first season with Leeds played in the 1973 F.A. Cup Final defeat by Sunderland, but the following season picked up a League Championship medal. Steady and reliable, Trevor is a cornerstone of the defence, seldom at fault, consistent to the utmost.

MARTIN CHIVERS (Southampton/Tottenham H. & England/Norwich C./Brighton) **3**
6' 1½" tall, strongly built forward scored well over 200 league goals in a career that started at Southampton in September 1962 before playing only a handful of games for Brighton and finally leaving the top class soccer scene 1979/80. This most prolific goalscorer was allowed to leave the Dell after the arrival of Ron Davies, when signing for Spurs for a fee of £125,000. Was an outstanding success at White Hart Lane, overcoming serious knee trouble and being capped 27 times by England before leaving for Servette of Switzerland. Came back briefly with Norwich, then Brighton, and but for his injuries would have played many more times for his country.

ALAN CLARKE (Walsall/Fulham/Leicester C./ Leeds U. & England/Barnsley) **1, 3**
One of 5 brothers who all played league soccer, Alan was the outstanding member of the family. Started out as a youngster with Walsall, was still learning the trade when Fulham snapped him up in March 1966 for £33,000. In June 1968 he moved to Leicester City for £150,000 and a year later Leeds United enticed the elegant striker to Elland Road for only £165,000 after gaining an F.A. Cup losers medal for Leicester City against Manchester City. Won a Championship medal in 1973/4 and scored the only goal against Arsenal in 1972 when collecting an F.A. Cup winners medal. An outstanding forward who played 19 times for England and formed brilliant double spearhead at Leeds with Mick Jones. Went on to football management with Barnsley and his old club Leeds United.

RAY CLEMENCE (Scunthorpe/Liverpool & England) **1, 2a, 4**
One of the great modern day goalies whose career internationally coincided with Peter Shilton's; Ray would otherwise have gained even more than the 50 plus England caps. Plays behind a highly organised defence at Liverpool where, since being signed from Scunthorpe June 1967, has won 5 Championship, 1 F.A. Cup Final and 3 European Cup winners medals, quite an achievement for a player who started out in the lower reaches of league soccer. Turned professional with Scunthorpe after being a Notts County amateur, and when signed by Liverpool, for several seasons was a deputy to their regular choice Tommy Lawrence, but has hardly missed a match in the last 10 seasons.

MICK COOP (Coventry C.) **2a**
Has now played over 400 league games for Coventry City in the full back position since first signing professional as a young seventeen year old back in January 1966. A true Sky Blue right from word go, he became a regular in the side in 1968/9 going on to captain the club, also specialising in spot kicks. Appeared on over 30 occasions last season, proving that the wealth of first division experience picked up over the period has not deserted him. By far the most senior player on Coventry City's books, it is to his cool head that the youngsters coming through the ranks look for guidance.

JOE CORRIGAN (Man.C. & England) **2a**
Brilliant 6' 4" tall goalkeeper who proved himself outstanding in the 1981 losing F.A. Cup Final against Spurs, where on the basis of two games he collected the "man of the match" award. Joe turned professional for Manchester City January 1967 where, apart from being temporarily replaced by Keith MacRae in the mid 1970's, he has consistently guarded the Citizens net. Obviously unlucky not to have played more than a handful of games for England due to Shilton and Clemence being in good form, the tall custodian seems set to bar opponents' attacks on the City goal for many years to come. Won a European Cup Winners Cup medal in 1970.

GRAHAM CROSS (Leicester C./Brighton/ Preston/Lincoln C.) **1, 2a**
Central defender who spent most of his career at Leicester City after signing from the junior ranks in November 1960. Was highly effective in partnership with John Sjoberg where the pair formed a defensive barrier to opponents for many years, and was considerably unlucky to play in 2 F.A. Cup Finals without collecting a winners medal. As a cricketer was an all-rounder with Leicestershire, without making due progress, a problem that was highlighted by football commitments. After Leicester, where making just under 500 appearances, Graham played for Brighton, Preston and Lincoln City, whom he joined after a short stay outside the league with Endersby.

TONY CURRIE (Watford/Sheffield U./Leeds U. & England/Q.P.R.) **5**
Classic, well built, fair haired, scheming midfield player who combines flair with a good work rate as befitting the modern game and is always likely to score important goals, often from long range. Signing for Watford at 17 years of age, after briefly playing as a junior for Chelsea, was snapped up by Sheffield United only 9 months later for the bargain basement fee of £27,000 and after rendering over 8 years' invaluable service to the Blades was transferred to Yorkshire neighbours Leeds United, adding artistry to the club's hope of emulating past triumphs. After appearing 17 times for England, the Londoner came home in August 1979 to Q.P.R.

KENNY DALGLISH (Liverpool & Scotland) **5**
When Kevin Keegan left Liverpool in the Summer of 1977 bound for S.V. Hamburg, many footballing experts wondered how irreplaceable he would be. However, in August 1977 the Reds looked no further than Celtic's young goalscorer with a Scottish record of a goal a match from over 200 league games. Within months the Kopites were charmed as the Liverpool machine rolled on regardless of change, and in 4 seasons Kenny has gained 2 League Championship, an F.A. Cup Winners Cup and 2 European Cup winners medals. Still only 30 years of age, has played nearly 80 times for Scotland, was player of the year 1979 and shows plenty of fire for the future.

WYN DAVIES (Wrexham/Bolton W./ Newcastle U./Man.C./Man.U./Blackpool & Wales/Stockport Co./Crewe Alex.) **1, 4**
Born in Caernarvon, came out with Wrexham developing into a most powerful centre forward who at 6' 1½" tall became one of the most dangerous strikers in the air. Bolton spotted his potential, signing the youngster in March 1962, and his talent gained him in 1964 the first of 34 Welsh caps. With Wales, formed highly successful double spearhead with the equally brilliant Ron Davies. Signed for Newcastle October 1966 for an £80,000 fee, later playing for both Manchester clubs in the space of 2 years. Became an ideal target man who laid on chances effectively for others, before closing his playing account with Blackpool, Stockport County and finally Crewe in 1978.

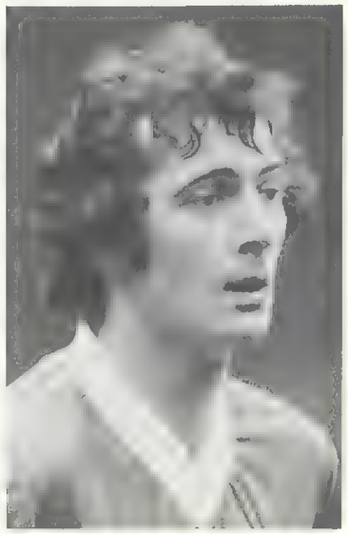
STEVE DEATH (West Ham U./Reading) **2b**
Standing only 5' 8", one of the smallest of league keepers, Steve has given outstanding service to Reading since joining them in November 1969 from West Ham. Still going strong, he looks likely to contend any change between the Reading posts for a few years yet. Highly efficient in handling, he makes up for lack of inches with shrewd positional play. Was originally signed by West Ham in the summer of 1966 after starring for England schoolboys, playing just once for the Hammers before being released.

PETER DOWNSBOROUGH (Halifax T./Swindon T. /Bradford C.) **1**
Came out with his local side Halifax, making debut in season 1959/60 creating a great impression almost immediately as a goalie of the future, which was later substantiated although he was never to play in the first division. Joined Swindon Town August 1965 helping the Wiltshire side gain promotion to the second division in 1968/9, but his and the club's greatest moment came during that same season, when the little third division side reached Wembley, eventually beating mighty Arsenal in the League Cup Final 3-1 in one of the greatest upsets of modern times. Downsborough was outstanding during this famous cup run, obviously the pinnacle of his career; left to play for Bradford City and in all made over 650 total league appearances before leaving the game.

MICK DOYLE (Man.C. & England/Stoke C.) **1, 2■**
A Mancunian who worked his way through the Manchester City junior sides before turning professional May 1964 and some 17 years later is still going strong with Stoke City. After becoming a City regular, within a season had made several appearances for the England under 23 side, a forerunner of 5 full caps gained later. Became a commanding midfield star being instrumental in driving the City out of the second division into a highly prestigious period of the club's history, when in four years collected League Championship, F.A. Cup, League Cup and European Cup Winners Cup medals. Was allowed to join Stoke City in the summer of 1978.

BRIAN FLYNN (Burnley/Leeds U. & Wales) **4**
Small, only 5'3" tall, but stocky and durable player who has developed into an outstanding midfielder and is well on the way to collecting 50 Welsh international caps. Was produced by the famous Burnley nursery, following a long line of highly individualistic midfield artists, and signed professional in October 1972 after starring in the Welsh schoolboy side. In November 1977 was allowed to leave Turf Moor for Leeds United, who were looking to replace their long standing midfield partnership. The Welshman now has a new partner, Tony Currie having since departed, as Leeds strive desperately to recapture former glories.

DUNCAN FORBES (Colchester U./Norwich C.) **1**
Strong, craggy, well made centre half who came south from Musselburgh to join Colchester in September 1961 as lynch pin in their defence, a job which was effectively if not uncompromisingly achieved without too much fuss. After signing for Norwich City in 1968, played a formidable part in getting the Canaries into the first division and then keeping them there by dint of hardness coupled with utmost endeavour, both highly effective qualities. Very consistent over the years in playing nearly 550 league matches, was still competing last season, way into his 39th year, as the oldest first division player.



TREVOR FRANCIS (Birmingham C./Nottm.F. & England) **5**
Nottingham Forest splashed out £1,000,000 for this highly skilled forward in February 1979, when recruiting him from Birmingham City to assist in the winning of further club honours. Three months later he scored the only goal which decided the European Cup Final against Malmo of Sweden and the following year was a member of the Forest side that achieved success once again in winning the European Cup for the second year running. A regular member of the England side, injuries permitting, he did not gain first cap until 1977, an indictment on the state of English soccer which often suppresses the individual creativity within the team format.

ARCHIE GEMMILL (Preston/Derby Co./Nottm.F./ Birmingham C. & Scotland) **4**
Ebullient, aggressive, midfield dynamo only 5'5" tall but making up for lack of inches with inspired generalship and determination. Came to the fore when Derby County obtained his services for a fee of £60,000 in September 1970 from Preston, who had brought him into English soccer from St.Mirren 3 years earlier. Collected 2 Championship medals in a magical spell at the Baseball Ground, later played for Nottingham Forest September 1979, again under Brian Clough, again winning a Championship medal immediately, this time followed by 2 European Cup winners medals. Surprisingly was allowed to leave the City ground for second division Birmingham City in August 1979, where being instrumental in promotion achieved in third place. Has played many times for Scotland.

JOHNNY GILES (Man.U./Leeds U./W.B.A. & Eire) **1, 4**
Product of Home Farm, signed for Manchester United in November 1957 as a right winger, but later settled down in midfield as an old fashioned inside forward. After winning an F.A. Cup medal for United in 1963, was almost immediately transferred to Leeds United to act as their playing supremo under the reins of Don Revie. Became recognised as a great player in his own right at Elland Road, when taking over from Bobby Collins, in collecting 2 Championship medals and an F.A. Cup winners medal from the match against Arsenal in 1972. Later moved on to W.B.A. to play out the autumn of a highly meritorious career before going on to international management.

ARFON GRIFFITHS (Wrexham/Arsenal/Wrexham & Wales) **1**
Really tricky ball player who, after coming out with Wrexham, was soon transferred to Arsenal for £14,000 in February 1961. Never settled at Highbury and, after making few first division appearances, was sold back for a club record fee of £12,000. International recognition came rather late in life at the age of thirty, but the crop haired schemer made up for lost time in going on to collect a further 16 caps. Masterminded Wrexham's promotion from the fourth division in 1969/70 and was the key player in winning a third division medal 1977/8. Won an M.B.E. for services to soccer before becoming the manager of his beloved Reds.

PETER GRUMMITT (Nottm.F./Sheffield W./ Brighton) **1**
Not tall for a keeper, Peter came to the fore as a teenager mainly for his agility and handling ability. Soon came in line for international honours, which ultimately passed him by. Forest signed the youngster from Bourne Town, his place of birth, and he went on to play over 300 league games before signing for Sheffield Wednesday, January 1970, where again he displayed all the attributes of a top class keeper. Finished career helping Brighton out of the third division before retiring from the game, being honoured at England under 23 level and gaining Football League representation.

RON HARRIS (Chelsea/Brentford) **1, 2a**
Uncompromising, tough tackling half back, affectionately known as "Chopper"; although to be fair to his opponents, they did not appreciate his talent as did the Chelsea "shed". After captaining England schools, Ron turned professional for the Blues in November 1961, later leading England youth to its first winning World Cup Final. Became a key member of Tommy Docherty's rebuilding plans at Chelsea which eventually culminated under Dave Sexton in the winning of the 1970 F.A. Cup Final against Leeds United, followed by a European Cup Winners Cup Final win against the mighty Real Madrid a year later. Great Chelsea clubman who played 646 games for the Blues before going to Brentford as a player coach.

ASA HARTFORD (W.B.A./Man.C./Nottm.F./ Everton & Scotland) **4**
Great midfield dynamo, who made the headlines being dramatically turned down by Leeds United after virtually signing from W.B.A. when it was discovered that the player had a heart ailment. Asa was not too disheartened and, quickly recapturing his form, went on to complete five years with Manchester City before spending a few weeks in the 1979 close season at Nottingham Forest. In August 1979 the chunky Scot signed for Everton and has become a key factor in Gordon Lee's side's resurgence towards recapturing former glories. Has been capped many times by Scotland, surely an indictment to the Elland Road medical advice.

TONY HAZELL (Q.P.R./Millwall/Crystal P./ Charlton Ath.) **1**
One of the unsung heroes of the lower divisions, albeit some of his soccer was played out in the first division and early in career was tipped for future stardom. Turned professional with Q.P.R. after graduating through their junior ranks, gaining England youth honours as a sound defensive destroyer. Played a great part in Rangers' rise to glory in the mid 1960's, when in 1966/7 collected a third division medal to go with a great winning Football League Cup Final against W.B.A. The following season assisted the club into the first division, remaining a regular member of the side until moving on to Millwall in December 1975. Latterly with Crystal Palace, and currently with Charlton, has made over 550 league appearances.

KEVIN HECTOR (Bradford Park Av./Derby Co. & England) **1, 2a, 3**
Started out as a teenager with Bradford Park Avenue, signing professional in July 1962, where he scored over 100 goals in four seasons before coming to Derby for a fee of £40,000 as an all round forward player of the future. Although only 5'8" tall, size had not been a problem when breaking the Bradford goalscoring record with 44 league goals the season prior to joining the Rams, and it proved not to be a problem in the higher divisions as the Brian Clough machine rolled forward in quest of the games major honours. Playing twice for England was some return for goalscoring endeavour, along with 2 Championship medals with Derby. Recently, after a period in the States, Kevin made a successful return to the Baseball Ground showing that he could still find the net on occasion.

JOHN HOLLINS (Chelsea & England/Q.P.R./Arsenal) **1, 2a**
A quicksilver midfield player, currently with Arsenal, who still delights in going forward and being able to use a rocket-like shot whenever the chance arises. Made debut in league football with Chelsea as another of the endless stream of brilliant juniors coming off the Stamford Bridge assembly line. Gained an England cap against Spain 1967 which was unusual because brother Dave was already a Welsh International goalie. Helped Chelsea in gaining an F.A. Cup winners medal from the game against Leeds United 1969/70 and a year later picked up another winners medal from the memorable European Cup Winners Cup Final against the legendary Real Madrid. After leaving Stamford Bridge in June 1975, had four years with Q.P.R. before going to Highbury.

EMLYN HUGHES (Blackpool/Liverpool, Wolverhampton W. & England) **1, 2a, 4, 5**
Son of a Welsh rugby league star who turned professional for Blackpool September 1964 and transferred to Liverpool for £65,000 in March 1967, eventually going on to play 62 times for England, mainly as a defender. Nicknamed ''Crazy Horse'' for his many forays deep from defence into enemy territory, became captain of Liverpool and England, winning just about every honour the game has to offer including 4 Championship medals. On signing for Wolves in August 1979, the only trophy he was still looking to attain was the Football League Cup, which remarkably was won against Nottingham Forest that season. A really tough-tackling-no-holds-barred defender who could also play in midfield when required, Emlyn was selected as player of the year, an honour shared with Kenny Burns in 1978.

NORMAN HUNTER (Leeds U. & England/Bristol C./Barnsley) **1, 2a**
Tall, stylish, left footed player who developed with Leeds United into a fierce competitor in the Wilf Copping mould. Nicknamed ''bite yer legs'' by the Elland Road locals because of his tackling ability, Norman came to the fore in the early 1960's under Don Revie when United were malingering in the second division, and became an integral part of the great successes, which culminated in the winning of first and second division medals to go with F.A. Cup, League Cup, Fairs Cup winners medals. Played 28 times for England before transferring to Bristol City in October 1976. Still plays the occasional match as player manager of Barnsley.

JOHN JACKSON (Crystal P./Orient/Millwall) **1**
First class custodian for three London clubs since coming into league soccer with Palace in March 1962, on leaving Westminster School. Replaced Bill Glazier as the regular keeper in 1964/5 and in the following 8 seasons missed only 12 matches, a remarkable testament to his consistency which was rewarded by Football League representative honours. Joining Orient in October 1973, this sterling player carried on once again where he left off, not missing a game before signing for Millwall August 1979. Still currently playing at the age of 38, has played over 650 league matches in a career spanning nearly 20 years.

LEIGHTON JAMES (Burnley/Derby Co./Q.P.R./Burnley/Swansea & Wales) **4**
One of the most brilliant of outside lefts, who is quite capable of scoring invaluable goals as well as setting up chances for others. Another of the Burnley discoveries who signed for the club following Welsh schoolboy international honours, which have since been supplemented by close on 50 full caps. Allowed to leave Turf Moor for Derby County October 1975, helping the Clarets balance their books once again by selling rather than buying. Never really settled before playing for Q.P.R. and again Burnley, later going home to Wales with Swansea City. A major influence in helping John Toshack's side to the first division for the first time in the club's history.

PAT JENNINGS (Watford/Tottenham H./Arsenal & N. Ireland) **1, 2a, 4, 5**
Brilliant 6' tall custodian of the Arsenal goal, with the largest hands in soccer, surprised the football world when in August 1977 was allowed to join the Gunners from fellow neighbours Spurs. Holder of the Irish appearance record, nearing 90 caps, Pat has gone on whilst at Highbury to collect another F.A. Cup winners medal from the sensational 1979 game against Manchester United, which was won in the dying seconds. Starting out with Newry Town, he joined Watford in 1963, but within a year had transferred to Tottenham where he collected an F.A. Cup winners medal 1967 when Spurs defeated Chelsea. Must surely be rated one of the outstanding keepers of the world, and was honoured as player of the year 1973

JOE JORDAN (Leeds U./Man.U. & Scotland) **4**
Tough centre forward who is used primarily as a target man to provide others with chances, his personal scoring rate being around a goal every four matches played. Warranted a then record fee for Manchester United of £350,000, to obtain his purchase from Leeds United in January 1978. Was originally brought to Elland Road from Morton of the Scottish League in 1970, at the age of twenty, but had to sit in the shoes of Mick Jones for quite some time before establishing a regular place in the side. With the Reds has collected a losers F.A. Cup Final medal, from the game against Arsenal 1979, and has now gained close on 50 Scottish international caps. Whole-hearted battler over any 90 minute period, often engulfed in the white hot element of the game.

KEVIN KEEGAN (Scunthorpe/Liverpool/Southampton & England) **4, 5**
One of the great favourites of the modern game, now a soccer ''millionaire'', who sets an example to all aspiring youngsters who need to work at the business of football. Plucked by Bill Shankly's Liverpool from Scunthorpe for a fee of £35,000 May 1971, he became an immediate success, making a rapid rise to full England international status. With the Pool won 2 League Championships, an F.A. Cup Final and a European Cup winners medal. Left Liverpool during the summer of 1977 for S.V. Hamburg, Germany, becoming European footballer of the year two years in succession. Returned to England with Southampton in July 1980, having a moderate season; currently England's captain and has virtually achieved everything the game has to offer.

KEVIN KEELAN (Aston Villa/Stockport Co./Wrexham/Norwich C.) **1, 2a**
6' tall goalkeeper born in India, where his father served as an Army Warrant Officer, moved back to England at an early age signing for Aston Villa July 1958, after being a junior. Because of the lack of opportunity at Villa Park where Nigel Sims was a regular, Kevin was allowed to move on to Stockport. In July 1963 he was snapped up from Wrexham by Norwich City for £7,000 after showing great form for the Welsh side. Won a second division medal in 1971/2 and later collected two Football League Cup runners up medals before leaving the Norfolk side, having made nearly 600 appearances in their colours.

HOWARD KENDALL (Preston/Everton/Birmingham C./Stoke C./Blackburn R.) **1**
Brilliant midfielder who became an overnight sensation when being the youngest player at the time to appear in a Wembley Cup Final, where his side Preston lost to West Ham in 1963/4. Again, another player unlucky not to have been capped, although collecting Football League representative honours and England under 23 awards. Transferred to Everton for £80,000 March 1967, became part of the great midfield trio comprising Colin Harvey and Alan Ball, winning a Championship medal in 1969/70 to follow a losing F.A. Cup Final against W.B.A. two years earlier. Became player manager of the very successful Blackburn Rovers, seemingly having a new lease of life, before entering full management with Everton.

BARRY KITCHENER (Millwall) **1, 2a**
Long serving Millwall defender who signed professional August 1965, after being an apprentice, and has now played over 500 league matches. Nearly 6' tall, weighing in near the 15 stone mark, has been a formidable barrier to opposing forwards for many years and in 12 seasons from becoming a regular in the side has missed only 24 games. A leading member of the side that nearly gained promotion to division one in 1971/2, failing by only 2 points, the highest position in the Lions history. When first making the side, played a part in the longest unbeaten home run from August 1964 to January 1967.

FRANK LAMPARD (West Ham U. & England) **2a**
Another of the long serving West Ham academy, this highly dependable full back ventures on many forays well into the opponents half searching for a shot on target or at the least an accurate cross. Started out in the apprentice ranks, turning professional in 1965 and going on to collect many honours, including two full England caps. The proud holder of 2 F.A. Cup winners medals, he was probably more satisfied with the 1980 win against Arsenal where it was his semi-final goal against Everton which decided that the Hammers future lay at Wembley.

BOB LATCHFORD (Birmingham C./Everton & England) **3**
Strong, bustling centre forward, who technically has more skill than often credited, first came to the fore with Birmingham City after turning professional in August 1968. Played for England under 23 side whilst at St. Andrews, but it was not until joining Everton in February 1974 that full England recognition was finally achieved. From a footballing family, with brothers Dave and Peter all playing for Birmingham, Bob has scored 174 goals from 392 league games, one of the highest ratios amongst modern forwards.

CHRIS LAWLER (Liverpool & England/ Portsmouth/Stockport Co.) **2a**
Liverpool right full back for some fifteen years after signing in October 1960, being noted for overlaps down the Reds flank, which resulted in him scoring over 40 league goals. Tall and commanding, was very quick, being highly effective at the heart of the defence, where playing over 400 games under Bill Shankly, the legendary manager. Played for England on 4 occasions, adding to Football League and Cup medals attained, before travelling to Portsmouth where he played under the managership of former team mate Ian St. John. Finished soccer career with Stockport County at the age of 35.

PETER LORIMER (Leeds U. & Scotland/York C.) **2**
Famous for scoring rocket-like goals, mainly from set pieces outside the penalty area for Leeds United, where, rather more often than not, he was the club's leading scorer. Signed professional for United December 1963 after being one of the youngest players to play league soccer, following up Scottish schoolboy international honours. 2 League Championships and 1 F.A. Cup winners medal were amongst the dark haired forward's pickings from a highly proficient career. He was directly associated with one of the amazing episodes of F.A. Cup dramas when he smashed a free kick into the Chelsea net during a semi final, only to be told that it would have to be retaken due to the whistle not having been blown—a match, needless to say, which Leeds lost.

TERRY McDERMOTT (Bury/Newcastle U./ Liverpool & England) **5**
Came to the fore with Bury after serving as an apprentice at Gigg Lane, before Newcastle United took more than a passing fancy when signing the wing half in February 1973. Roughly 18 months later McDermott was signed by Liverpool as a future key member of their record breaking squad and by 1976/7 had become a regular in the side. The transformation was complete on becoming a master of his trade, with classical passing and long range shooting his forté, which resulted in the winning of the 1980 footballer of the year award. Club honours include 3 Championship and 3 European Cup winners medals to make up for 2 losing F.A. Cup Final appearances, one for Newcastle, the other for the Reds, along with several England caps.

MALCOLM MacDONALD (Fulham/Luton T./ Newcastle U. & England/Arsenal) **3**
Started out soccer life as a full back for Tonbridge then signed by Fulham who, although converting him to centre forward, allowed him to join Luton a year later in July 1969. His form in that position at Kenilworth Road was nothing short of sensational and after 2 seasons the Hatters were forced by economics to sell the new ''Supermac'' to Newcastle United for a club record fee of £185,000. Amazingly, in 14 England appearances he only scored on 1 occasion, but netted 5 times against Cyprus in that match. Arsenal signed this still dynamic sharpshooter in August 1976, but within 3 years injuries had forced him finally onto the sidelines, and later into soccer management with his first club Fulham. In a career of 269 league appearances, ''Supermac'' notched up 191 goals, a sensational achievement by today's standards.

TED McDOUGALL (Liverpool/York C./ Bournemouth/Man.U./Norwich & Scotland Southampton/Bournemouth/Blackpool) **1, 3**
Discovered by Liverpool, Ted signed for the Reds January 1966, but a year and a half later having not made an appearance found himself transferred to York City. It was at Bootham Crescent that the well made centre forward first struck up twin striking partnership with Phil Boyer, who eventually followed Ted to other clubs in search of goals. When with Bournemouth he scored even more prolifically, once getting 9 goals in an F.A. Cup tie, a record. At first division level could never reach the same heights, although when at Norwich showed up enough to gain 7 Scottish caps.

ROY McFARLAND (Tranmere R./Derby Co & England) **2a**
Classic type centre back, who has been likened by many to Neil Franklyn of early post war fame, and if not for injury would have played for England on many more occasions adding substantially to his 28 caps. Started out with Tranmere Rovers, spending just one season before Brian Clough saw in him a future with Derby County, who were struggling to achieve first division status. In his second season at the Baseball Ground a second division medal was attained and in 1971/2 the first of two league Championship medals was won. Although playing for Derby last season, Roy would probably now be looking more to the non-playing side of soccer management where his tremendous experience would be used to good advantage.

SAMMY McILROY (Man.U. & N.Ireland) **4**
Who will ever forget the goal this magical Irishman scored for Manchester United against Arsenal at Wembley in the 1979 F.A. Cup Final where United after being pronounced dead and virtually buried came back to the living with two goals in the remaining moments of the game. On his day must rank with the best of traditional midfield players, often scoring invaluable goals as already portrayed, and has played well over 40 times for Northern Ireland since signing for the Reds in August 1971.

FRANK McLINTOCK (Leicester C./Arsenal & Scotland/Q.P.R.) **1, 5**
After signing for Leicester City from Shawfield juniors January 1957, spent several seasons in the reserves before becoming a regular member of the club's half back line. Was an outstanding performer in gaining an F.A. Cup Final losers medal against the cock-a-hoop Spurs in 1961. Two years later the young Scot was back at Wembley for another losing F.A. Cup Final, this time against Manchester United. In October 1964, as a shrewd tactical wing half, was signed by Arsenal for £80,000, where he later settled down as captain and eventual centre half, winning the coveted ''Double'' medals of 1970/71. On joining Q.P.R. was instrumental in taking the club to its highest ever league position of 2nd in the first division 1975/6, before retiring gracefully. Represented Scotland on 9 occasions and was footballer of the year 1971.

RICHARD McNEIL (Leicester C./Exeter C./ Northampton T./Lincoln C./Hereford/ Wrexham) **3**
Much travelled, bustling, goalscoring centre forward known to all and sundry throughout the footballing fraternity as ''Dixie''. Turned professional with Leicester City, but after eighteen months without debut, moved to Exeter City June 1966, later playing for Corby Town of the Southern League. Northampton spotted his talent, signing him in May 1969, and ''Dixie'' responded with goals. Later moved to Lincoln City before being part of Hereford United's fight for higher Football League status, scoring 85 goals in 3 years. Is now with Wrexham, and although the goal rate may have slowed somewhat, his wise head sets up chances for others.

PAUL MADELEY (Leeds U. & England) **1, 2a**
Leeds never regretted the day when they signed this upstanding defender-cum-utility player as a professional in 1962. Became a highly valued member of Don Revie's club plans of the future, also going on to play 24 times for England as an accomplished master of the modern defensive game. Leeds born and bred, Paul collected many honours with only club, including 2 Championship medals, 7 EUFA Cup winners medals and an F.A. Cup winning performance against Arsenal 1972. Had the disappointment of an amazing run of near misses such as two other losing F.A. Cup Finals and Championship runners up awards.

DON MASSON
(Middlesbrough/Notts.Co./Q.P.R./ Derby Co. & Scotland/Notts.Co.) **1**
Little midfielder who started out with Middlesbrough after starring in their junior side, but, on never becoming a regular, transferred to Notts County in September 1968, helping them from the fourth to second division. During that period, Don scored over 80 league goals, an invaluable asset for a midfield player, showing himself to be adept at free kicks and other set pieces. Signed for Q.P.R. in December 1974 before going to Derby County for a brief sojourn and during this period played 17 times for Scotland. Returned in August 1978 to Notts County to mastermind their battle to achieve first division status which was finally accomplished as runners up to West Ham, 1980/81.

MICK MILLS (Ipswich T. & England) **1, 2a, 4**
Has now settled down in the Ipswich Town defence as a stocky, naturally left sided full back, having originally played in midfield after being released by Portsmouth in February 1966 when Pompey abandoned their youth policy. Mick went on to captain both Ipswich and England. Always likely to score the odd goal in forward surges, a good safe tackler, seldom ruffled, he has captained the Town in winning two Championships and in gaining an EUFA Cup Final medal. Has now played nearly 550 league games, along with 30 plus England caps, highlighting his career when he lead Ipswich to victory in the 1978 F.A. Cup Final against the Arsenal.

JIM MONTGOMERY (Sunderland/ Birmingham C./Nottm.F./Sunderland) **1, 2a**
Another of the top class young goalkeepers of the 1960's who were kept out of the international team only by the brilliance of Gordon Banks. Signing for his local team Sunderland on 17th birthday in October 1960, went on to gain firstly England youth honours and then England under 23 caps, also helping the Rokerites out of the second division in season 1963/4. Greatest moment of glory came when, against all the odds as a second division side, Sunderland won the F.A. Cup Final against Leeds United with an Ian Porterfield goal in 1973. The game was highlighted by a memorable double save by the brilliant Jim Montgomery which effectively won the match. Moved on to Birmingham City in February 1977 and since then has understudied Peter Shilton at Nottingham Forest.

BOBBY MOORE (West Ham U. & England/ Fulham) **1, 2a, 4, 5**
Brilliant schoolboy prodigy in the central defender's position who, after being capped at schoolboy level, joined nearby West Ham, signing professional in June 1958. Developed into one of the finest wing halfs in England, captaining club and country through almost every level of soccer culminating in 108 full caps. Collected an F.A. Cup winners medal against Preston in 1964, but when playing for Fulham in the twilight of career was on the losing side at Wembley in 1975 against his old team mates West Ham. Footballer of the year in 1964, on retiring had achieved over 650 league appearances with a world wide reputation as a master of his craft.

WILLIE MORGAN (Burnley/Man.U. & Scotland/Burnley/Bolton W./Blackpool) **1**
Tricky winger, fast and magical, who later in career operated more in midfield as a provider of chances for others. Turned professional with Burnley October 1961 making debut in 1962/3, later being selected for Scotland, the first of 21 appearances coming in 1968 against Northern Ireland. Shortly after, was transferred to Manchester United for a fee of £100,000 in August 1968. With United, was a member of the team that was relegated to the second division, but made 32 appearances the following season in gaining a second division Championship medal as United returned at the first time of asking. After a short spell back at Burnley, Willie moved on to Bolton where he won another second division medal in 1977/8. Now plays for Blackpool.

KEN MULHEARN (Everton/Stockport Co./ Man.C./Shrewsbury T./Crewe Alex.) **1**
6' goalie from Merseyside who failed to make the grade at Everton before having two seasons with Stockport County where he gained a fourth division medal 1966/7. Manchester City had noted the young man's progress carefully, and signed him immediately following the County's promotion campaign. Was later transferred to Shrewsbury in March 1971, after not gaining a regular place at Maine Road due to the advent of Joe Corrigan, but with the Town went on to gain a third division championship medal, also creating a club record 370 league appearances. Now with Crewe Alexandra.

KEITH NEWTON (Blackburn R./Everton & England/Burnley) **1**
Cool, cultured full back with astute passing ability, inclined to use the ball to greatest advantage. Turned professional with Blackburn Rovers starring in their F.A. Youth Cup side of 1959 alongside other youngsters such as Fred Pickering and Mike England. After playing over 300 league games for the Rovers, Keith signed for Everton December 1969 in an £80,000 deal, just in time to collect League Championship medal. After playing in the 1970 World Cup, but missing the Brazil match, closed his England account with 27 caps. Transferred to Burnley in the summer of 1972, again in time to collect a second division medal.

CHRIS NICHOLL (Burnley/Halifax T./ Luton T./Aston Villa/Southampton & N.Ireland) **4**
6' 2" tall central defender, who now partners Dave Watson in the middle of Southampton's defence and brings to the game a wealth of experience gained from playing in all four divisions of the Football League. Started as a junior with Burnley before dropping out with Witton Albion of the Cheshire League. Halifax signed him in June 1968 where he spent a season before joining Luton Town on route for Aston Villa, achieving the first of many Northern Ireland international caps with parental qualification. Has a brother Terry currently playing league soccer for Gillingham.

ALAN OAKES (Man.C./Chester) **1, 2a**
Made debut for Manchester City in 1959, still going strong 22 years later as player manager of Chester. Boundless enthusiasm with strength in pushing forward with precise passing made the tall blond young man one of the top players of the 1960/70's. With City was one of the cornerstones in the great side of Mercer and Allison, which in a four year period collected the Football League title, F.A. Cup, European Cup Winners Cup and the Football League Cup. Represented the Football League before joining Chester in July 1976, where he is now in pursuit of third division honours.

MARTIN O'NEILL (Nottm.F./Norwich C. & N.Ireland) **4**
Signed by Nottingham Forest from Derry in October 1971 to facilitate their midfield—a job he did most effectively. Like many Forest players of the period, it was not until Brian Clough and Peter Taylor took hold of the helm that their success was achieved at club level. As a strong, tough, tackling terrier of a player he fitted directly into the new Forest plans which immediately culminated in promotion to the first division 1976/7. In setting up a great playing relationship with Archie Gemmill, the winning in 1977/8 of the first division was followed by 2 European Cup winning medals to add to many Irish international caps on the shelf. In February 1981 transferred to Norwich City in an unavailing bid to stave off relegation.

TERRY PAINE (Southampton & England/ Hereford U.) **1, 2a**
Became one of the finest wingmen in the land after being signed by Southampton from Winchester City in February 1957. Collected a third division medal with the Saints in 1960, prior to gaining the first of 19 England caps 3 years later, and as a key member of the Southampton side helped them into the first division for the first time in the club's history, 1965/6. Fast, tricky, and elusive being two footed, scored over 150 league goals, adding to already invaluable goal making qualities. Signing as player coach at Hereford, August 1974, the still elegant soccer artist played over 100 further league games before ending a long and meritorious career.

DEREK PARKIN (Huddersfield T./Wolverhampton W.) **1, 2a**
Left back who followed a long line of classic Huddersfield defenders, spending three seasons at Leeds Road before signing for Wolves, February 1968, in an £80,000 deal, which was a record fee at the time for a full back. A very consistent player, he overcame suspected heart trouble in 1972 coming back immediately to find top form. Hasn't claimed any of the game's major honours at Molineux in nearly 500 league appearances, but has won 2 League Cup winners medals to add to representative honours at England under 23 level and Football League representations. When starting out at Huddersfield formed a full back partnership with Chris Cattlin in following Ramon Wilson and Bob McNab

MARTIN PETERS (West Ham U./Tottenham H. & England/Norwich C./Sheffield U.) **1, 4**
One of the great talents of the modern game, of whom the then England team manager Alf Ramsey said, "he was 10 years ahead of his time". Beginning as a West Ham apprentice, soon came to the fore in the early 1960's settling down brilliantly in midfield with fine passing skills, but known mainly for scoring many goals by ghosting into good forward positions. Was a valued member of the World Cup winning side before signing for Spurs in March 1970, becoming Britain's first £200,000 player. Later gave valuable service to Norwich before going as player manager to Sheffield United in 1980. Never won a league medal but has picked up European Cup Winners Cup and UEFA Cup winners medals to add to 67 England caps.

PAUL REANEY (Leeds U. & England/Bradford C.) **1, 2a**
Small, dark haired right full back served Leeds United admirably for over fifteen seasons, although being a Londoner, having signed professional in October 1961 after playing in the junior sides. A specialist in the art of overlap, possessing good positional sense with great recovery, was a perfect foil for full back partner Terry Cooper. Won two League Championship medals and an F.A. Cup winners medal from the game against Arsenal in 1972. Played 550 league games for Leeds before leaving in June 1978 for fellow Yorkshiremen, Bradford City. 3 England caps to his credit.

WARWICK RIMMER (Bolton W./Crewe Alex.) **1, 2a**
Nephew of the famous England international Ellis Rimmer of Sheffield Wednesday fame, picked up England schoolboy international honours before turning professional with Bolton Wanderers in March 1958. Became a regular member of the side by 1961, but unfortunately suffered all the problems associated with a once great club losing its way, later dropping into the third division. Before signing for Crewe Alexandra, his allegiance to one club was rewarded when, as an ever present in 1972/3, he collected a third division medal as Bolton began its climb in search of former glories. Played a career total of nearly 600 league matches.

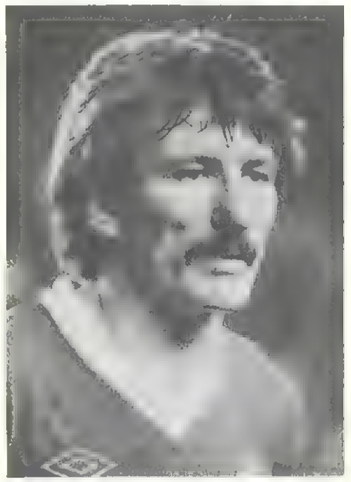
BRYAN (POP) ROBSON (Newcastle U./ West Ham U./Sunderland/West Ham U./ Sunderland/Carlisle) **1, 3**
Small stocky forward turned professional on seventeenth birthday, November 1962, for Newcastle United, where he gained England under 23 honours before leaving for West Ham in February 1971 after playing over 200 league games and scoring 81 goals. Became known to the fans as "Pop", because of his shooting at the slightest chance of an opening. A prolific scorer, extremely quick on the turn and very difficult to mark, he was one of the top scorers of the day. Had two spells at both West Ham and Sunderland before, in his 35th year, again scoring regularly at Carlisle where, possibly, he will play out the remainder of a lengthy league career.

TOMMY ROBSON (Northampton T./Chelsea/ Newcastle U./Peterborough U.) **1**
Veteran forward who, although being born in the north east, started career with Northampton Town August 1961 as a direct down-the-line no-nonsense type of winger, As the years rolled on, developed distinct skills more in keeping with a midfielder. Signed by Chelsea in 1965 but never settled and went home to Newcastle, where again could not keep a regular first team place, later signing for the Posh, November 1968. In 450 league games has scored over 100 goals and was still playing fairly regularly during the current season, well into his 35th year; an example to all youngsters taking the professional plunge.

DON ROGERS (Swindon T./Crystal P./Q.P.R./ Swindon) **2a**
Hard running, natural outside left who signed for the Wiltshire side directly from school, turning professional October 1962 and going on to collect England under 23 honours. Would have surely played for the full England side had he not passed the peak of career whilst still in the lower divisions. Was an exciting, two footed goalscoring favourite, who in 400 league games for the Robins netted just short of 150 goals. Will forever be remembered as the two goal destroyer of Arsenal in the 1969 League Cup Final at Wembley, where his ability to carry the ball was rewarded dramatically. Never really settled in London with Crystal Palace and Q.P.R., mainly due to injuries, and finally went back home.

PETER SHILTON (Leicester C./Stoke C./ Nottm.F. & England) **1, 4**
Brilliant schoolboy star 'keeper, one of the few to mature into greatness at senior level, who displaced the famous Gordon Banks whilst still a teenager at Filbert Street. Commanding and extremely agile, with a terrific physique, is a specialist in cutting out shooting angles with very safe hands to boot. Transferred to Stoke City in November 1974, once again following in Gordon Banks' footsteps, where he stayed three years before becoming the most important cog in the Forest rebuilding cycle. With Forest, Peter has collected League and European Cup winners medals to go with a large collection of English caps, which would be considerably more but for shared duties with Ray Clemence.

TOMMY SMITH (Liverpool & England/ Swansea C.) **1, 2a**
Tough, battling wing half straight from the Bill Shankly mould, tenacious and extremely hardy; it was said in jest that the young man had been quarried, not born. Signed for the Pool, the team of his birthplace, on his seventeenth birthday, April 1962, he was a member of the mini World Cup team that carried off the trophy at Wembley. Only won 1 England cap, probably due to his toughness which frightened officials as well as players, but collected a case load of club honours including 4 League Championships, 2 F.A. Cups and a European Cup winners medal before helping Swansea out of division 3 in 1978/9, his final season of league soccer.



ALEX STEPNEY (Millwall/Chelsea/Man.U. & England) **1, 2a**
Brought out of Isthmian League soccer with Tooting and Mitcham by Millwall, May 1963, made a real impact with the Lions when they created a record run of home games without defeat, which took the club from fourth to second division in successive seasons. A highly consistent if unspectacular keeper, Chelsea sought his signature as cover for "The Cat" Peter Bonetti, but after only three months and one match played, Alex was transferred to Manchester United September 1966, winning Championship medal in first season. Highlight of career would surely have been the winning of the European Cup Final 1968 against then mighty Benfica. Played for England on just one occasion against Sweden at Wembley in 1968.

MIKE SUMMERBEE (Swindon T./Man.C. & England/Burnley/Blackpool/Stockport Co.) **1**
Striking, hard running outside right, rather old fashioned in approach but highly effective. Son of former league player who was signed by Swindon Town from Cheltenham in March 1960. Highly sought after as one of the many brilliant young players being groomed by Bert Head at Swindon, and in August 1965 Manchester City paid £30,000, a bargain fee by today's standards. He immediately helped City out of the second division, later winning League Championship, F.A. Cup, League Cup and European Cup Winners Cup medals in the most prolific spell of the Citizen's history. Also played 8 times for England before finishing as player manager at Stockport County.

PETER THOMPSON (Preston/Liverpool & England/Bolton W.) **1**
Schoolboy international star, who came out with Preston, where he caused a stir with his skill and speed down either flank, culminating with pin point crosses into the area. Bill Shankly saw the flashing wingman as a key asset in the Liverpool rebuilding plans, taking him to Anfield in August 1963, where he immediately won a League Championship medal, followed by another in 1965/6. Unfortunately, due to Alf Ramsey's policy of wingless international sides, this highly polished player only managed 16 full caps before dropping into the second divison with Bolton Wanderers.

COLIN TODD (Sunderland/Derby Co. & England/Everton/Birmingham C.) **1**
Great defender, a sure tackler who does not give the ball away too readily. Although making debut for Sunderland in 1966/7, did not get the first of his 27 England caps until Derby County had splashed out £170,000 in February 1971 to take the then 22 year old to the Baseball Ground. A key member of Brian Clough's side in forming a brilliant centre back partnership with Roy McFarland, at international as well as at club level. Gained a Championship medal in his first season and collected another in 1974/5. Currently performing valuable service to Birmingham City after not really settling down with Everton when at Goodison Park.

JOHN TOSHACK (Cardiff C./Liverpool/Swansea C. & Wales) **3**
Tall, powerful centre forward came out with his native Cardiff City, turning professional March 1966 and giving them nearly 5 years great service before joining Liverpool as their then costliest signing of £110,000. Specialist in netting with far post headers and, before leaving Liverpool for Swansea City as player manager, had scored 74 league goals, collecting 3 League Championship, and F.A. Cup Final, plus a European Cup winners medal. Was one of Bill Shankly's shrewdest signings, benefitting fully from the lessons at his disposal, and is now putting them to advantage at the Veitch Field, where guiding Swansea into the first division for the first time in the club's history.

JOHN TROLLOPE (Swindon T.) **1, 2b**
Long serving single clubman who made debut back in 1960, before going on to play 770 league games for the Town, a record that may never be beaten. Very consistent full back of some quality; tall, well built, an outstanding member of the Swindon glory side of the late 1960's. The highlight of a meritorious career spanning twenty years came when collecting a League Cup winners medal from the 1968/9 Wembley epic, where the little third division side beat the mighty Arsenal in a game that will be long talked about. An object lesson to any youngster in the importance of sportsmanlike qualities.

DAVE WAGSTAFFE (Man.C./Wolverhampton W./Blackburn R./Blackpool/Blackburn R.) **1**
Well built, fast, direct left winger who could mesmerise the best of defences. Started out with local club Manchester City after coming through their junior ranks, following England schoolboy international honours. Was transferred to Wolves in December 1964, becoming a regular for the next 10 years before leaving Molineux for Blackburn Rovers. Had a brief spell with Blackpool, rejoining the Rovers in March 1979 to seal a career which, through choice of clubs, had not quite enabled this very good player to claim many of the game's honours. Played over 550 league games.

MIKE WALKER (Reading/Shrewsbury T./ York C./Watford/Colchester U.) **1**
Extremely competent goalie who has made nearly 600 league appearances since starting out with Reading in January 1963. Played for Shrewsbury and York City before coming to prominence with Watford whom he joined in September 1968, immediately winning a third division medal when conceding only 34 goals. The following season was one of the key factors in getting Watford to the F.A. Cup semi-final where the under-dogs were beaten 5-1 by eventual winners Chelsea. Signed for Colchester United in June 1973, becoming a mainstay in the club alternating between third and fourth divisions.

DAVE WATSON (Notts.Co./Rotherham/ Sunderland/Man.C./Southampton & England) **1, 4**
Granite-like central defender who started soccer life as a forward at Notts County, joined Rotherham in January 1968 and, under the management of Tommy Docherty, blossomed into a quality type utility player. Moved to Sunderland where he gained the first of many England caps, but is mainly remembered for the part played in the glorious F.A. Cup Final victory for the second division side over hot favourites Leeds United in 1973. His rugged qualities were just what Manchester City required, joining the Citizens in June 1975, later having a short stay in the West German League with Werder Bremen before Southampton bought him back to England as part of their programme for gaining top honours.

DAVID WEBB(Orient/Southampton/ Chelsea/Q.P.R./Leicester C./ Derby Co./Bournemouth) **1**
Started out as a crew-cut, sturdy full back, signing for the O's after being rejected by West Ham. Was allowed to leave for Southampton, from where Chelsea signed him in February 1968. Became one of the great successes of the Blues cup campaigns, powerfully scything his way upfield, chasing lost causes; the fans loved him. The greatest memory for him would surely be scoring the winning goal for Chelsea against Leeds in the 1970 F.A. Cup Final. In extra time of the first ever replayed final at Old Trafford, this mighty player soared above all others to head home. After leaving Chelsea, David served three more clubs and is now on the first rungs of soccer management with Bournemouth.

JOHN WILE (Sunderland/Peterborough/W.B.A.) **1, 2a**
Tall, consistent centre half who has played well over 500 league games since making debut in the 1967/8 season for Peterborough. Prior to that had been signed by Sunderland from Durham City, but had been allowed to leave a season later, not having made an appearance for the Roker men. Transferred to W.B.A. for a fee of £30,000 December 1970, where he succeeded John Talbut as the pivot of the defence in forming a solid reliable partnership with Ally Robertson. Was a key factor in helping the Albion back into the first division 1975/6 where his superiority in the air was of countless value.

RAY WILKINS (Chelsea/Man.U. & England) **4**
Known as "Butch", Ray comes from a large soccer family with Dad George playing before as well as after the war, and brothers Graham and Dean also currently playing league soccer. Was an England schoolboy star before turning professional for Chelsea in October 1973, and before transferring to Manchester United had played for England at every level possible. Has been unfortunate with injuries whilst at Old Trafford and form has obviously suffered, being reflected in international duties. Brilliant midfield control when in possession, could be outstanding but tends to play short and sideways balls when the long forward pass is well within his scope and talent.

ALAN WOODWARD (Sheffield U.) **1, 2a**
Long serving wingman who played nearly 550 league games for his only club, and broke the United record in scoring 158 goals before finishing in 1978/9. Joining Sheffield United as an apprentice, Alan turned professional on seventeenth birthday September 1963. Strongly built and difficult to shake off the ball, he went on to become a regular. Notable for heavy shooting from outside the penalty area, the Blades relied on his ability and he was sorely missed as the club slipped conspicuously towards the fourth division. In his prime Woodward was honoured in representing the Football League to supplement England youth honours achieved at an early age.

FRANK WORTHINGTON (Huddersfield T./ Leicester C. & England/Bolton W./ Birmingham C.) **1**
Prolific free scoring, swashbuckling centre forward who brought enjoyment to some of the boring spectacles imposed on the public. Unfortunate brushes with authorities did not dim his belief that the game should be enjoyed by players and spectators alike, certainly being vindicated in scoring some 170 goals. From a famous footballing family, Frank came out with Huddersfield Town, winning a second division medal 1969/70. Signed for Leicester City August 1972 for an £80,000 fee and whilst at Filbert Street played for England on 8 occasions. On later playing for both Bolton and Birmingham City, helped to achieve first division status at his first attempt with both clubs. Now playing in the U.S.A.

TERRY YORATH (Leeds U./Coventry C./ Tottenham H. & Wales) **4**
Blond Welshman with midfield defensive duties instilled under Don Revie whilst serving Leeds United, after signing professional April 1967. Never assured of a first team place at Elland Road, spending nearly 10 years in the wings, although being capped by Wales and later going on to play more than 50 times for the national side. In 1973/4 appeared in more than half of the league campaign helping Leeds win the Championship, playing more regular until transferring to Coventry City August 1976. Later played for Spurs before going to the U.S.A., from where he still captains his native Wales.
